Capital Outlay Budget
and
Five-year Construction Program

GENERAL ANALYSIS

SCHEDULES

1. Comparative Statement of Expenditures by Program Function, Organization Unit and Fund.
2. Comparative Statement of Expenditures of Federal Aid Granted to the State of California.
3. Summary of Proposed Expenditures by Method of Appropriation.
4. Comparative Statement of Fixed Charges and Controllable Expenditures.
5. Reconciliation of Changes from Previous Budget Estimates.

DETAILED BUDGETS AND PROGRAMS

Capital Budget 1967-68
and
Five-Year Construction Program

Presented in this document are the capital budget for the 1967–68 fiscal year and the five-year construction program for the period beginning July 1, 1967, and ending June 30, 1972. Separating the capital budget from that for current operations makes it possible to include more informative explanations of the need for the recommended projects and permits a clearer presentation of the methods of financing for the various programs.

Following established principles of governmental accounting, expenditures from bond funds are not included in the budget totals because the expenditures are reported when payments are made for bond interest and redemption. All recommended outlays are presented regardless of the source of funds so that the capital budget can be viewed in total.

Recommended Program Continuing investment in physical facilities is necessary to provide for the projected increases in enrollments of the University of California and the State Colleges, the required added capacity in the state's mentally retarded hospitals and prisons, and to meet pressing needs for highways, water resource development, and recreation. To assist in the consideration of the capital budget, the proposed expenditures for 1967–68 are summarized by major program and source of funds in Table 1.

Table 1
Capital Outlay Expenditures for 1967–68 by Major Program
(In Thousands)

Program	Governmental cost funds	Bond issues	Total	Federal and other nonstate funds	Total program
State Building Program	$18,340.7	$150,681.4	$169,022.1	$121,563.5	$290,585.6
District Fairs	1,279	–	1,279	–	1,279
Wildlife Conservation	2,606.5	537.3	3,143.7	290.4	3,434.1
Parks and Recreation	1,000	137.5	1,137.5	–	1,137.5
Highways	308,736.5	–	308,736.5	379,549.2	688,285.7
Water Facilities	10,675.4	358,386.3	369,061.8	15,325.7	384,387.5
Totals [a]	$342,638	$509,742.6	$852,380.6	$516,728.8	$1,369,109.4

[a] May not add exactly owing to rounding.

The proposed outlays for 1967–68 total $342.6 million from governmental cost funds including $308.7 million from the State Highway Fund. Also proposed are expenditures of $150.7 million from the State Construction Program Fund, $0.7 million from the State Beach, Park, Recreational and Historical Facilities Fund, $202.2 million from the California Water Resources Development Bond Fund, $156.2 million from the Central Valley Project Construction Fund, and $516.7 million from federal and other nonstate sources.

State Building Program

The State Building Program is composed of projects required for additional enrollments in the state colleges and university, increased capacity in the hospitals for the mentally retarded, rising population in the correctional institutions and conservation camps, plus a limited number of projects needed for other activities.

HIGHER EDUCATION

University of California

Five-year Program
(In Thousands)

1967–68	*1968–69*	*1969–70*	*1970–71*	*1971–72*	*Total*
$101,234	$183,657	$248,576	$161,985	$121,391	$816,842
57,657	*95,167*	*149,658*	*100,612*	*69,118*	*472,212* [a]
43,577	*88,490*	*98,917*	*61,372*	*52,274*	*344,630* [b]

[a] Capital Outlay Fund for Public Higher Education, State Construction Program Fund (budget year includes projects totalling $615 funded in prior years), and unfunded.

[b] Federal and other nonstate funds.

The 1967–68 Capital Outlay Program for the University proposes a total expenditure of $101,233,775. Of this total $55,862,301 is proposed from the State Construction Program Fund; $7,677,599 anticipated from the Higher Education Facilities Act, Title I; $7,442,165 anticipated from United States Public Health Service grants; $28,456,972 anticipated from other nonstate sources; and $1,794,738 is proposed from the Capital Outlay Fund for Public Higher Education.

The total from the State Construction Program and federal grant programs for 1967–68 is $72,161,103. Following is a breakdown of this total by type of project:

Project	*Amount*	*Percent of Total*
Equipment	$4,976,000	6.9
Utilities and site development	13,526,000	18.7
New construction	45,292,000	62.7
Alterations	4,676,365	6.6
Planning and working drawings	1,896,000	2.6
Minor capital outlay	1,794,738	2.5
	$72,161,103	100.0

The $45,292,000 for new construction is divided among the following disciplines or functions:

Discipline	*Amount*	*Percent of Total*
Natural sciences	$13,034,000	28.8
Humanities and social sciences	8,168,000	18.0
Engineering	9,581,000	21.2
Libraries	6,630,000	14.6
Medical sciences	6,279,000	13.9
Law	1,600,000	3.5
	$45,292,000	100.0

Of the $72,161,103 from the State Construction Program Fund and federal grant programs, the new campuses at Irvine, San Diego, and Santa Cruz are scheduled for 50 percent; Davis and Santa Barbara, upon which much of the University's growth in years immediately ahead must fall, are scheduled for 24 percent; medical and health sciences centers are scheduled for 18 percent; Berkeley, Los Angeles, and Riverside are scheduled for 4 percent; and other activities combine for 4 percent.

The University's five-year Capital Outlay Program is sized to accommodate a projected enrollment increase from 1967–68 to 1971–72 of 19,080 students, excluding an additional 11,506 students which will be accommodated through going to year-round operation at little capital expense. The program also includes new facilities for the California College of Medicine, new buildings for dentistry and nursing at San Francisco, completion of facilities for the San Diego medical school and basic science facilities for a new medical school at Davis.

State Colleges

Five-year Program
(In Thousands)

1967–68	*1968–69*	*1969–70*	*1970–71*	*1971–72*	*Total*
$134,771	$158,753	$115,195	$114,504	$40,327	$563,550
75,630	*102,895*	*86,293*	*62.527*	*29,027*	*356,371*[a]
59,141	*55,858*	*28,902*	*51,978*	*11,300*	*207,179*[b]

[a] Capital Outlay Fund for Public Higher Education, State Construction Program Fund (Budget year includes projects totaling $13,875 funded in prior years) and unfunded.

[b] Federal and other nonstate funds.

The 1967–68 Capital Outlay Program for the State Colleges total an expenditure of $134,770,972. Of this total $74,244,420 (includes projects totaling $13,875,420 funded in prior years) is proposed from the State Construction Program Fund; $16,297,337 anticipated from the Higher Education Facilities Act, Title I; $1,000,000 of other federal funds; $41,843,649 anticipated from other nonstate sources; and $1,385,566 is proposed from the Capital Outlay Fund for Public Higher Education.

The total from the State Construction Program and federal grant programs for 1967–68 is $78,051,903. Following is a breakdown of this total by type of project:

Project	*Amount*	*Percent of total*
Science and engineering facilities	$22,838,000	29.3
Physical education facilities	1,330,000	1.7
Music, speech, and drama facilities	4,842,000	6.2
Other instructional facilities	23,863,500	30.6
Site development	8,112,000	10.4
Land acquisition	3,945,000	5.0
Other	6,622,000	8.5
Equipment	3,913,837	5.0
Preliminary plans and general studies	1,200,000	1.5
Minor capital outlay	1,385,566	1.8
	$78,051,903	100.0

The Board of Trustees of the California State Colleges was created by Chapter 49, Statutes of 1960, 1st Extraordinary Session, and on July 1, 1961, took over the powers, duties and functions previously vested in the State Board of Education and the Director of Education relative to the administration of the state colleges. One of the major functions of this board of trustees and its administrative staff is the planning for the 19 physical plants, including the new sites for Dominguez Hills and Kern County. It is anticipated that in the period 1967–68 through 1971–72 the statewide enrollments will rise from 120,004 to 156,536. The five-year Capital Outlay building program estimates the facilities needed to properly provide for this increase of 36,532 FTE.

Junior Colleges

Five-year Program
(In Thousands)

1967–68	*1968–69*	*1969–70*	*1970–71*	*1971–72*	*Total*
$19,617	$10,500	$10,500	$10,521	$10,868	$62,006

In past years the Legislature has appropriated sums of moneys for junior college construction assistance without any definite plan for providing state funds on a continuing basis. Recognizing this need, the Legislature during the 1965 session passed SB 318 which provided the vehicle for a shared state and local district junior college capital outlay program on a continuing basis.

State Construction Program Bond funds in the amount of $50 million were provided in the 1964 General Election for the junior colleges. Of this amount $25,122,000 was approved by the Legislature in the 1965–66 Budget subject to the enactment of SB 318. Because of the timing involved this amount was appropriated to the Department of Education in a lump sum for allocation without legislative review.

Under the provisions of SB 318 the junior college capital outlay projects were itemized in the 1966–67 Budget for the first time. That budget provided for an appropriation of $7,955,973 from the State Construction Program Fund to the Department of Education to be allocated to the junior college districts in accordance with the schedule noted in the expenditure detail of that budget.

The 1967–68 Budget proposes an appropriation of $19,617,030 from the State Construction Program Fund to the Department of Education to be allocated to the junior college districts in accordance with the schedule noted in the expenditure detail of this budget.

Department of Education

Five-year Program
(In Thousands)

1967–68	*1968–69*	*1969–70*	*1970–71*	*1971–72*	*Total*
$148	$1,600	$180	$1,689	$170	$3,787
99	*1,600*	*180*	*1,689*	*170*	*3,738*
49	–	–	–	–	*49*[b]

[b] Federal funds.

The Department of Education administers 5 special schools for physically handicapped children: 1 for education of the blind, 2 for education of the deaf, and 2 for diagnosis and education evaluation of cerebral palsied children. The Department of Education budget for 1967–68 totals $147,500 of which $48,600 is anticipated from federal sources and the remainder from the General Fund. The projects proposed for the budget year include: 1 minor project for $3,000 for the School for the Blind; 1 minor project for $28,300 for the School for Cerebral Palsied Children, Northern California; 1 major project totaling $97,200 to provide an addition to the vocational training building, for which half the cost will be met with federal funds and 1 minor project for $6,500 for the School for the Deaf at Berkeley; and 1 minor project for $12,500 for the School for the Deaf at Riverside.

HEALTH AND WELFARE

Mental Hygiene

Five-year Program (In Thousands)

1967–68	*1968–69*	*1969–70*	*1970–71*	*1971–72*	*Total*
$1,682	$10,814	$39,667	$19,111	$23,170	$94,444

The Department of Mental Hygiene's capital outlay projects in the budget year total $1,682,195. Of this amount, $117,000 is included for the Neuropsychiatric Institute at the University of California, Los Angeles, for partial equipment of the outpatient unit which is scheduled for completion in February 1968. At Napa State Hospital $67,600 is proposed for improvements to the storm and sanitary sewer systems. Included in the total is $1,497,595 for minor projects to improve and correct deficiencies and to maintain existing facilities.

Projected five-year needs are for $94 million to provide an upgrading of existing facilities as well as the provision of additional facilities of a specialized nature in combating the problems of mental retardation and mental illness with special emphasis on diagnosis, treatment, training, research, rehabilitation, and prevention.

Department of Public Health

Five-year Program (In Thousands)

1967–68	*1968–69*	*1969–70*	*1970–71*	*1971–72*	*Total*
–	$450	$5,675	–	–	$6,125

The only capital outlay project anticipated for the Department of Public Health during the next five years is an annex to the laboratory in Berkeley. In order to relieve overcrowded conditions in the existing laboratory facilities and to provide for anticipated program needs approximately 34,000 net square feet of laboratory space will be required. In addition, approximately 20,000 net square feet of office space not related to the laboratory function are proposed. The office space will be designed to allow for future conversion to laboratory space when needed. Working drawings are contemplated for 1968–69 with construction scheduled for 1969–70.

Department of Rehabilitation

Five-year Program (In Thousands)

1967–68	*1968–69*	*1969–70*	*1970–71*	*1971–72*	*Total*
–	$6.400	$1,600	–	–	$8.000
–	*6.400*	–	–	–	*6.400* [a]
–	–	*1,600*	–	–	*1,600* [b]

[a] Unfunded.

[b] Federal funds.

The $8,000,000 capital outlay program for the Department of Rehabilitation is the total of the present anticipated five-year plan shown, all of which is proposed in 1968–69. This amount is for construction funds for a new institution to be located on the grounds of Agnews State Hospital at San Jose. The new institution will have a capacity of 500 to serve the mentally retarded who do not need intensive medical and psychiatric treatment, but who do require protective living environment. The master plan for this new institution provides for cottages of a capacity of 22 each and related teaching facilities to accomplish this purpose. Advance for the federal share of this project is $1,600,000.

CORRECTIONS

Department of Corrections

Five-year Program (In Thousands)

1967–68	*1968–69*	*1969–70*	*1970–71*	*1971–72*	*Total*
$725	$34,759	$27,540	$46,315	$20,438	$129,776

The proposed capital outlay expenditures for the Department of Corrections for 1967–68 is $725,191. The major projects total $250,000 and include the following projects: $30,000 for equipment for the second phase of the South Facility replacement at Correctional Training Facility; $20,000 for equipment for the first phase, barracks replacement at the California Institution for Men; $200,000 at San Quentin to modify the sewage in accordance with accepted health standards for sewage effluent.

This budget also proposes $475,191 for minor capital outlay projects at various institutions.

The five-year construction program for this Department totals $129,776,391. This projection includes projects to provide additional capacity through construction of new institutions and projects to upgrade and expand existing facilities. The most significant projects are the 1,400-bed Special Security Facility at Vacaville and the 1,600-bed Medical Correctional Institution near San Diego.

The currently projected population increase for the five-year period is 4,340.

Youth Authority

Five-year Program (In Thousands)

1967–68	*1968–69*	*1969–70*	*1970–71*	*1971–72*	*Total*
$1,349	$38,095	$14,410	$12.111	$2,141	$68,106

The 1967–68 proposed capital expenditures for the Department of the Youth Authority totals $1,349,199. Approximately one-half of this amount will be spent to equip the DeWitt Nelson Youth Conservation Training Center and related central service facilities at the Northern California Youth Center.

In addition, additional water storage capacity will be provided at the new Reception Center and Clinic, located adjacent to the Ventura School for Girls. A boiler will be replaced at the Fred C. Nelles School for Boys, and a small parcel of land will be purchased to enable the Fricot Ranch School for Boys to have all their water lines and pumping equipment on state-owned land.

Minor projects included in the total will provide necessary alterations and improvements for existing older institutions.

The total projected five-year construction program is $68,105,984. Over half of this amount is shown in the year following the budget year. This results from the deferral of a number of projects which were originally proposed for the budget year, but which were not needed in view of the decline in the commitment rate of juvenile offenders to the Youth Authority.

This decline in the rate of commitments by the courts is a new phenomenon, and is probably due to the probation subsidy program and other programs of local assistance which encourage counties to retain delinquent youths in county operated facilities; as well as socioeconomic factors such as full employment and a high military draft rate.

If this trend continues, it may be necessary to reassess the five-year program in terms of a reduced commitment rate. The effects of the local assistance programs will be viewed very carefully during 1967–68. If further adjustments to the five-year plan are necessary in terms of the effects of these programs and related socioeconomic conditions, they will be developed during the ensuing year, and included in the budget for **1968–69.**

OTHER

Forestry

Five-year Program
(In Thousands)

1967–68	*1968–69*	*1969–70*	*1970–71*	*1971–72*	*Total*
$400	$5,015	$5,264	$5,247	$4,030	$19,956

The Division of Forestry operates 234 forest fire stations, 81 lookouts, and 29 air attack camps. The latter are operated by the division in cooperation with the Departments of Youth Authority and Corrections. The projected five-year needs of the program total $19,956,333 to provide for additional fire stations, lookouts, headquarters and conservation camp sites and facilities necessary to sustain present and anticipated growth. The 1967–68 Budget proposes appropriation of $400,000 compared to the current year estimated expenditures of $7,708,730 from prior year appropriations.

Veterans Affairs

Five-year Program
(In Thousands)

1967–68	*1968–69*	*1969–70*	*1970–71*	*1971–72*	*Total*
$141	$3,013	$699	$567	$837	$5,256

Improvements to the Veterans' Home of California are proposed for $140,620. A broken sewage effluent line will be replaced for $81,700. Projected five-year needs are for $5.3 million to construct a nursing care wing to the hospital, for alterations and additions to the culinary building, to construct a water filtration and purification plant for the domestic water system, and to construct and equip an addition to the women's section.

OFFICE BUILDINGS AND RELATED FACILITIES, GENERAL ADMINISTRATION

General Administration

Five-year Program
(In Thousands)

1967–68	*1968–69*	*1969–70*	*1970–71*	*1971–72*	*Total*
$1,301	$11,506	$19,326	$12,900	$10,450	$55,482

The capital outlay program for General Services in the budget year has been reduced materially over original expectations. The major project proposed is $900,000 to purchase partitions for office buildings 8 and 9 which are scheduled to open in mid-1968. $50,506 will be used to equip the central heating and cooling plant and the remaining $200,000 will fund necessary alterations, improvements and repairs to existing state office buildings due to occupancy changes.

The five-year program totals $55,481,906 and provides office buildings with related facilities and sites for microwave vaults and other radio installations.

Vehicle Regulation

Five-year Program
(In Thousands)

1967–68	*1968–69*	*1969–70*	*1970–71*	*1971–72*	*Total*
$4,748	$16,350	$8,793	$5,900	$2,556	$38,347

The 1967–68 capital outlay budget proposes $3.9 million for the California Highway Patrol and $0.8 million for the Department of Motor Vehicles. The Highway Patrol request provides $3.7 million for construction of the annex to the headquarters building and an area office building in Yreka. Another $95,000 is included for working drawings for a shops and stores building in Los Angeles and a motor transport shop in Sacramento.

For the Department of Motor Vehicles $743,500 is proposed for land acquisition projects for an office building and for additional parking facilities at Sacramento Headquarters.

The projected five-year program needs for the Highway Patrol and Motor Vehicles total $38.3 million to provide field offices and necessary additional headquarters space and facilities.

District Fair Construction

This budget provides $1,279,000 in appropriations for construction for district agricultural association projects. These funds provide for construction projects at various district agricultural associations which are detailed in the budget supplement containing the detailed fairs budget.

Parks and Recreation

Five-year Program
(In Thousands)

1967–68	*1968–69*	*1969–70*	*1970–71*	*1971–72*	*Total*
$1,137	$37,609	$33,538	$30,855	$30,747	$133,886

Although the State Park System consists of over 190 units throughout the state, there is a growing demand for more recreational facilities. In recent years an effort has been made to partially meet these requirements by providing considerably more funds for acquisition and development in the State Park System.

As a consequence there is now a backlog of acquisition and development projects in various stages of planning completion for which the better part of $100 million is available. This large program of recreational land acquisition and development was made possible largely by the State Beach, Park, Recreational and Historical Bond Act which was approved by the voters in November 1964. In addition to the bond funds there is a significant amount of General Fund moneys also in this acquisition and development program. In fiscal year 1967–68, the emphasis will be on reducing this backlog and making additional facilities available to the public as soon as possible.

The 1967–68 Budget also provides some additional funds to continue planning for future needs to purchase necessary parcels of land when the opportunity arises; and to provide for essential maintenance of facilities not provided for by funds currently available.

Total recreational needs over the next five years could cost another $134 million if the state's park program continues to develop as planned in recent years. This estimate includes funds for campsites, picnic facilities, beach and water recreation facilities, and riding and hiking trails.

Wildlife Conservation

Five-year Program
(In Thousands)

1967–68	*1968–69*	*1969–70*	*1970–71*	*1971–72*	*Total*
$3,144	$4,721	$1,250	$1,225	$1,170	$11,510

The total capital outlay expenditure proposed for protection, propagation and management of the state's fish and wildlife resources in 1967–68 is $3.1 million. $1.352 million of this is proposed by the Wildlife Conservation Board for continuation of the program providing new hunting and fishing access as well as game and fish habitat development. In addition, new hatcheries will be constructed to provide additional trout for the state's anglers. The Department of Fish and Game proposes to spend $1.575 million in the proposed budget year to construct a replacement motor vessel for the existing research ship *Scofield*, built in 1938.

The five-year program proposes expenditures of $11,509,208 to continue replacement of patrol vessels, office facilities, new and additional fish hatchery facilities related to the fish and wildlife enhancement programs of the Department of Fish and Game and the Wildlife Conservation Board.

Highways

The State Highway budget is prepared by the Division of Highways, approved by the State Highway Commission and, in accordance with law, must be submitted to the Legislature without modification by the Governor. It is included here to provide a comprehensive report of state expenditures.

The capital outlay portion of the budget approved by the State Highway Commission includes $308.7 million in funds derived from state sources and $379.5 million in federal funds. In addition to providing construction funds for new multilane freeways, this budget also provides funds for traffic safety improvement projects such as easing curves, installing or modifying signals, constructing left-turn storage lanes, providing truck-climbing lanes, and many more.

Major construction effort in the new budget continues the state's 2,165-mile share of the national system of interstate and defense highways. Of the federal funds in this budget, $327.8 million is included for the completion of this system which, by federal law, must be accomplished by 1973.

California Water Facilities

Five-year Program
(In Thousands)

1967–68	*1968–69*	*1969–70*	*1970–71*	*1971–72*	*Total*
$369,062	$505,959	$380,531	$276,132	$184,674	$1,716,358

As the State Water Project enters its sixth year of construction, work under contract or completed represents over 50 percent of the completed project. The placement of embankment material for Oroville Dam is now approximately 75 percent complete and is scheduled for completion during 1967–68.

Construction activity will be completed on the North San Joaquin Aqueduct and the San Luis Division during 1967–68 with water delivery scheduled for Kettleman City in January, 1968. Construction will continue on other portions of the project with major increases in the South San Joaquin, Tehachapi, and the West Branch Divisions.

California Water Project expenditures for 1967–68 will total $369 million, an increase of $40 million over the current year level.

The balance of the 5-year program is directed towards continued construction of the State Water Project, with completion scheduled for 1972 and development of Eel River facilities.

Methods of Financing The presentation of the capital budget is complicated by the numerous and diverse sources of funds and the accounting methods employed in reporting expenditures. The sources from which the capital budget is funded are described below:

1. Current revenues and any accumulated balances in governmental cost funds. These are moneys collected in the form of taxes, license and permit fees, interest on investments, and similar items of income.
2. The proceeds from the sale of general obligation bonds which bonds are secured by the "full faith and credit" of the state. Outstanding bonds of this kind are (a) State Construction Program bonds, and (b) State Beach, Park, Recreational, and Historical Facilities bonds. The repayment of principal and interest on such indebtedness constitutes a preferred claim on the financial resources of the state. Within this classification falls a special category referred to as "self-liquidating" bonds. Bonds in this category are the California Water Resources development bonds. In the case of this special grouping, such bonds although legally possessed by the characteristics of general obligation bonds are serviced from the revenues produced by the ventures or projects financed in this manner.
3. Revenue bonds are those that are secured solely by the income derived from the use or operation of the facilities funded by this method.
4. Trust certificates represent a form of capital financing which makes use of the large balances accumulated in trust accounts or funds of the state. Because such funds are dedicated to meet future obligations, sound fiscal management dictates the investment of the currently unneeded cash in these accounts and funds. One way of investing these moneys is by the purchase of trust certificates issued by the state for the construction of general purpose office buildings.
5. Direct loans authorized by the Legislature from the accumulated balances in certain special funds and other dedicated moneys in the treasury which are surplus to immediate future disbursements.
6. Nonstate funds such as endowments, grants, and certain other funds as payments of overhead charges on research projects conducted by the University represent yet another source of capital financing.

To provide a complete and comprehensive picture of the state's capital outlay program all proposed projects are included in the capital budget regardless of the source of financing.

Following the generally accepted principles of governmental accounting, however, only expenditures from governmental cost funds are included in the budget totals. Expenditures from bond proceeds and other forms of borrowing are excluded—such expenditures are reported as expenditures of the fiscal years in which the payments on principal and interest are made.

GENERAL ANALYSIS

The California Disaster Office, an organization within the Governor's Office, has as its primary objective, assistance to the Governor in carrying out his statutory responsibility to secure a status of "emergency operational readiness" for California. One of the most important elements in providing for this operational capability is a system of communications that will provide the means of coordinating the operational plans of the federal government, state agencies with emergency assignments, local jurisdictions and private industry.

The current building program of the California Disaster Office is for the development of communications networks that will assure the ability to disseminate information in times of emergency. Three networks have been designed and are being constructed as rapidly as the engineering work is completed and the funds are made available. These networks are the Fire Services Network, the Intercity Law Network and the Local Government Network.

The Local Government Network is the newest of the networks and is now in the construction stage. When completed, it will provide a communication link between the local civil defense organizations and the regional and headquarters offices of the California Disaster Office. It will also enable the local jurisdictions to communicate with each other.

The Fire Services Network is nearly completed. The future plans will give the system coverage in all 58 counties of the state. After completion of this network, expenditures will be limited to replacement and relocation of existing equipment to improve the operational ability of the system.

The Intercity Law Network now provides communication ability between police organizations in the heavily populated areas of the state. During the past year, police action relating to civil disturbances in many areas has pinpointed the need for mobile relay units that will permit local police departments, operating under mutual aid agreements, to communicate with each other through a mobile facility such as the one currently under construction by the state. The future plans for the system include two more units in order to have one vehicle of this kind available in the north, one in the central and one in the southern part of the state.

The 3 networks of the California Disaster Office utilize the facilities of the State Microwave System. A portion of this system has been installed and maintained by the Disaster Office. In 1965, a decision was made by the state departments responsible for the microwave system to upgrade the facilities on a phased program extending over a 5- to 7-year period.

The Disaster Office has been working toward a goal of combining emergency operating centers with day to day operations. At this time, the regional offices in Regions I, III and V have been relocated in the lower levels of state and county buildings, thus providing a protection factor appropriate for emergency operating centers. The long-range plans include the relocation of the offices in Regions II, VI, and the headquarters office.

CIVIL DEFENSE HEADQUARTERS BUILDING, SACRAMENTO

(General Fund, formerly School Land Fund) [1]

Funds were loaned for the construction of the Civil Defense Headquarters from the School Land Fund under the provisions of Chapter 1597, Statutes of 1951. Under a contract between the Governor, Director of Finance, and the Commissioner of the California Highway Patrol, the costs of these facilities are being repaid with interest at 2¾ percent per annum by the respective agencies in 240 equal monthly installments.

GENERAL ANALYSIS

The State Building Construction Act of 1955 provides that the State Public Works Board may issue revenue bonds or certificates to provide funds to acquire or construct state public buildings when authorized by a separate act or appropriation of the Legislature. By definition "public building" includes automobile parking lots. The facilities so acquired or constructed are to be leased by state agencies at a rental rate that will retire the bonds or certificates and provide for the payment of interest. In addition the rental rates shall cover the cost of operation and maintenance of the public buildings authorized.

The State Public Works Board has entered into an agreement with the Board of Administration of the State Employees' Retirement System whereby that agency will purchase certificates to finance the construction of office buildings and the Los Angeles garage authorized by Chapter 1687, Statutes of 1955, as amended by Chapter 1647, Statutes of 1957, and by various subsequent budget act items.

The following is a summary of the facilities financed under this authority:

	Program Amount Authorized	Estimated Principal Balance June 30, 1967
Buildings:		
Facilities Completed:		
Fresno State Building	$3,575,000	$2,883,573
Los Angeles State Building	11,240,000	9,161,779
Los Angeles Garage	2,057,000	1,712,726
Oakland State Building	3,976,000	3,215,914
Sacramento Retirement Building	15,506,478	14,758,815
San Francisco State Building Annex	8,150,000	6,386,064
San Diego State Building	4,343,946	3,846,018
Stockton State Building	2,187,556	2,109,683
San Bernardino State Building	3,563,494	3,563,494
Other:		
Fund Available for Contingencies	413,284	–
Totals	$55,012,758	$47,638,066

Chapter 1242, Statutes of 1963, appropriated $13,000,000 from the School Land Fund for acquisition and improvements of real property in Sacramento, within the boundaries of the Capitol Area Plan as adopted by the Legislature, for use as sites for state buildings and temporary parking lots. This amount was augmented by the 1964 Budget Act in the amount of $4,476,250, and by the 1965 Budget Act in the amount of $2,200,000. Income from rental of the acquired property shall be used to repay the loan with 4 percent interest. Twenty-four percent of any income from rental of property to private parties, except for parking, shall be deposited in the State Properties Rental Fund for payment to the City and the County of Sacramento and appropriate revenue districts in lieu of taxes. The School Land Fund was abolished by the electorate with all assets transferred to the General Fund. Chapter 1404, Statutes of 1965 rescinded the General Fund obligation to repay appropriations from the School Land Fund for the purchase of, (1) the Bancroft Whitney Building (Chapter 2063, Statutes of 1963), (2) certain Sacramento land acquisitions (Chapter 63, Statutes of 1963, Item 425.7, Budget Act of 1962) and (3) certain San Diego land acquisitions (Item 425, Budget Act of 1962).

In addition, the Budget Act of 1964 appropriated $2,071,500 from the Veterans' Farm and Home Building Fund of 1943 for the purchase of property within the boundaries of the Capitol Area Plan for parking sites. This amount will be repaid, with interest, from revenues.

Investment of money from the State Employees' Retirement Fund is authorized by Chapter 760, Statutes of 1959, for the purchase of real property. Chapter 1236, Statutes of 1963, appropriated $1,500,000 for the purchase of land for parking. The Retirement Board has acquired the major portion of 2 blocks contiguous to the Sacramento Resources Building. These parking facilities have been leased to the Department of General Services. Employee parking fees will reimburse the fund for its investment with interest.

It is estimated that $5,075,000 will be required to complete the acquisitions within the currently approved plan. Past year and current year expenditures for the Capitol plan acquisitions are reported in the Department of Finance Capital Outlay budget.

Significant projects currently under construction include office buildings No. 8 and 9 and the central heating and cooling plant.

For the list of standard (lettered) footnotes, see the end of the Capital Outlay section of the budget.

[1] School Land Fund abolished by proposition approved in November 1964 and assets and liabilities transferred to the General Fund effective July 1, 1965.

GENERAL ANALYSIS—Continued

1967–68 Program

The budget year capital outlay program provides funds for the completion of projects currently under construction, a limited amount for alterations and minor projects. No new major projects are proposed.

Current year savings have been made by deferring the following projects: renovation of restrooms, west wing State Capitol Building; lighting modifications, Library and Courts Building; additional elevators, San Diego State Building; project planning, office building San Jose; site acquisition for office building, Long Beach; and project planning for office building, Van Nuys. These projects have been included in the projections for the departments five-year capital outlay plan.

BASIC FACTORS AFFECTING THE PROGRAM

Many economies are realized through centralization of facilities. These include more efficient arrangement of space, lower maintenance and service costs and the elimination of duplicate services and facilities.

The factors considered in determining space requirements for each city include the number of state agencies involved, the amount of space currently occupied, the degree of present overcrowding, and anticipated agency growth. Projected population of the surrounding area is examined, as is the expected appreciation of land values.

Construction of state-owned facilities is limited by the availability of funds. Existing lease arrangements are normally extended until the priority becomes high enough to warrant construction of state-owned facilities.

When the construction of state-owned facilities is financed from special funds the special funds are repaid with interest from rental charges to occupying state agencies.

The 5-year program includes 2 additional office buildings for Sacramento, one additional building for Los Angeles, and office buildings for Long Beach and San Jose. Site acquisitions for future buildings are projected for Van Nuys and San Francisco.

State Exposition and Fair

GENERAL ANALYSIS

A new California Exposition and Fair is being built on the 600-acre tract in Sacramento, near the American River. The exposition, a unique educational and recreational complex exhibiting California's heritage, agriculture and industry, will open in June 1968. The State Exposition and Fair Executive Committee is composed of 6 ex officio members: the president of the State Fair Board, the State Controller, the Director of Finance, the Director of Public Works, the Director of General Services and the Director of Agriculture; plus 3 members from the State Fair Board as designated by the Governor. In addition, there are 2 members of the Senate and 2 members of the Assembly that are also members of the executive committee. The fair operation and the construction of the facilities are being carried out through contractual arrangements with a nonprofit corporation to be financed by grants of funds by the executive committee. When it is in operation the exposition will be wholly supported by its own revenues.

The executive committee has contracted with the California Exposition and Fair Corporation, a nonprofit corporation, for construction, operation and design of the new exposition. The corporation has employed a general manager and key staff, and has developed a program for the California exposition.

construction of the new physical plant on the new site in the north area of Sacramento. Chapter 1071, Statutes of 1957, appropriated $3,747,843 in 1957–58 and a like amount was appropriated in 1958–59 from the General Fund. Together with the proceeds from the sale of present facilities and revenue from long-term leases on the new site, this money is available for the new fair site program. In addition, Chapter 1072, Statutes of 1957, authorized the State Public Works Board to issue either certificates or revenue bonds in the amount of $6,500,000 annually for a period of 2 years, to finance further construction of buildings and facilities for a new state fair.

tion and Fair Executive Committee and the State Public Works Board in June 1966. The State Public Works Board sold the $6,500,000 of revenue bonds on June 28, 1966, and plan to sell the other $6,500,000 of revenue bonds in fiscal year 1966–67 prior to start of construction. Basic site development commenced in October 1966. Major construction will begin in early 1967 so that the new exposition can open in June 1968. The estimated expenditures provide for construction and all the activities of the corporation.

Also included in this budget presentation are the past and current year minor projects of the existing fair on Stockton Boulevard.

The department is responsible for the protection of plants and animals from infectious disease, pest animals, weeds and injurious insects and the prevention of the introduction and spread of crop and livestock pests and diseases. The department is charged with the administration of programs designed to assist in the marketing of agricultural products, and the protection of the public by assuring quality controls and preventing fraud and deception.

A minor project for construction at Exposition Park, the site of the Museum of Science and Industry, is proposed in the 1967–68 year. All other minor projects proposed by the department are limited to improvement of existing structures, minor building construction, and maintenance of state-owned facilities.

General Activities

GENERAL ANALYSIS

The work of this department is of a regulatory and service nature. It is headquartered in Sacramento and has offices, field crews, advisors, and consultants operating throughout the state. A major portion of the departmental responsibility is accomplished in cooperation with the 53 offices of the county agriculture commissioners. In order to accomplish their objective and provide a high degree of protection, agricultural quarantine stations are maintained at 18 border locations for the purpose of inspecting vehicular traffic and enforcing quarantine regulations. Stations are also maintained in San Francisco, San Pedro, and San Diego to inspect ships and airplanes.

The master plan for border quarantine stations along the southeast border provides for construction in 1965-66 at Needles on Highway 66 east of the Highway 95 junction.

A site has been acquired at Searchlight Junction, San Bernardino County, for relocation of the Twentynine Palms plant quarantine station. Construction of this station is being deferred in 1966–67 and the appropriated funds reverted to the General Fund. This project will receive consideration for funding in the 1968–69 budget.

Site acqusition for the Livermore fruit and vegetable standardization inspection station has been completed. Due to a program change, construction of this station has been cancelled and the appropriation for construction reverted to the General Fund.

Funds totaling $207,100 are provided in 1966–67 to cover alteration costs in the Department of Agriculture Building in Sacramento. The amount indicated below of $84,356 is the General Fund share of costs distributed according to the functions using the floor space and the support funding of these functions. The remaining portion of the total modification costs, amounting to $122,744, will be paid by the Department of Agriculture Building Fund.

No capital outlay projects are proposed in the 1967–68 fiscal year. Construction proposed in the department's five-year plan includes a liquid petroleum products inspection and testing facility in Yolo or Sacramento County, and a new border station at Vidal because of its antiquated condition and improper location. Other proposed projects for 1968–69 through 1970–71 are for replacement or modernization of existing facilities. Replacement of the livestock and poultry diagnostic laboratory at San Gabriel is required because of the expanding urbanization of the Los Angeles area and the need to locate the laboratory closer to the livestock and poultry industry areas. In all other cases, replacement of existing facilities is necessitated by relocation of highways or freeways.

Facilities Financed by Loans From Treasury Funds

DEPARTMENT OF AGRICULTURE OFFICE BUILDING, SACRAMENTO

(Department of Agriculture Building Fund)[2]

The Department of Agriculture Building Fund is authorized by Section 35 through Section 36.5 of the Agricultural Code. Moneys are transferred from the Department of Agriculture Fund to the Department of Agriculture Building Fund on a loan basis to provide for construction of buildings. Rentals are being paid to the Department of Agriculture Building Fund and returned to the Department of Agriculture Fund.

Past year expenditures are for correction of unsafe and hazardous conditions in fume exhaust systems and to centralize in an explosion-proof room the flammable liquids and solvents used by the department. Indicated expenditures in 1966–67 represent the Department of Agriculture Building Fund share of the costs of modification of the existing air conditioning, heating and ventilating, and electrical systems in the Department of Agriculture Building and Annex in Sacramento.

The total cost of the building remodeling project is $207,100. The Department of Agriculture Building Fund is providing $122,744 as its share of the project and the balance of $84,356 is to be contributed by the General Fund and is reflected under the Department of Agriculture, Capital Outlay section. No expenditures are proposed for the 1967–68 fiscal year.

	ACTUAL 1965–66	ESTIMATED 1966–67	PROPOSED 1967–68
Alterations to Department of Agriculture Building	$6,900	$122,744	–

Museum of Science and Industry

The California Museum of Science and Industry is located in Exposition Park, in Los Angeles, and contains permanent and special audio-visual educational exhibits, dedicated to the purpose of educating, informing, inspiring and enriching visitors by demonstrating the industrial and scientific progress of the State of California, and to illustrate and communicate the importance of industries, industrial enterprises and resources of every kind and nature as vital factors in the economy of the State of California. This agency owns the 104 acres comprising Exposition Park, which includes the leasehold to: The Los Angeles Memorial Coli-

Natural History, the City of Los Angeles Rose Garden, and the City of Los Angeles Swim Stadium.

The legislature in 1959 authorized the museum to construct a Space Museum in the Armory Building in Exposition Park. Fund raising for the exhibits is now in process.

During the planning and fund raising stage, the Space Museum site is being utilized for temporary exhibits of space and other subjects. These exhibits, furnished by NASA, the armed forces, other governmental agencies and private industries have been effective in acquainting visitors with our national space program and the vital role of California in this effort.

Construction of the New Hall of Health building was completed in 1965, and contracts for construction of exhibits were let in 1966. A total of $250,000 in funds for the latter was provided by Los Angeles County in fiscal year 1964–65, $125,000 in 1965–66, and another $125,000 will be made available to the Museum in 1966–67.

The budget provides for extending the availability of funds previously appropriated for land acquisition and improvement. A condemnation suit is in progress to acquire the last parcel of land originally contained in the approved Santa Barbara Avenue parking lot program. It is unlikely that improvements for parking can be completed on this land in 1966–67. Therefore, the balance of funds to finance necessary improvements is needed in 1967–68. The Budget Act of 1967 provides for a reappropriation of Items 361.1 and 361.2, Budget Act of 1956.

erated as public parking lots for patrons of the coliseum, sports arena, swimming stadium and museums. The land was acquired and facilities developed from capital outlay funds loaned by the General Fund. These loans are to be repaid with interest from parking lot receipts. A recent downturn in parking lot revenue has affected the museums' ability to meet fully its loan obligations during the current and budget year and has limited its development.

No repayment has been budgeted in 1966–67 and 1967–68.

The proposed capital outlay budget for 1967–68 consisting of minor projects totaling $35,810 is presented below.

1. Replace telephone conduit	$3,000
2. Replace egg incubator in Animal Industry Hall	15,000
3. Construct walkways for new access road	1,000
4. Install signs—Exposition Park	11,000
5. Install floor tile in Science wing auditorium	2,000
6. Replace Museum front entrance doors	3,810
Total	$35,810

Projected expenditures include an amount for minor projects each year.

GENERAL ANALYSIS

The Department of Corrections is responsible for the administration of the state's correctional system for adults convicted of felonies and the nonfelon narcotic addict program. It also houses and treats Youth Authority wards who have been determined by the Youth Authority as being best treated in an adult institution.

As a part of the correctional program, the department operates 14 institutions and 40 camps which are distributed throughout the state. These institutions and camps comprise a diversified correctional system, with facilities to provide varying degrees of custodial control and provisions for emphasis on special or general treatment programs. The heterogeneity of those committed to the department makes it necessary to provide for diversified programs.

Custodial requirements range from maximum-close to minimum security facilities. Programs include academic and vocational education, group counseling, medical and psychiatric treatment, religious and recreational activities. Constructive work programs are provided by factories, maintenance and culinary sections, farms, and forestry and road camps. A program for the rehabilitation of nonfelon narcotic addicts is provided at the Rehabilitation Center.

The type of prisoner committed to the department governs the type of major construction project to provide institutional capacities. Maximum-close security prisons are walled institutions where the majority of prisoners are housed in cells and employed within the walls, and are so guarded and restricted as to minimize the danger of escape. Medium security prisons are not walled—a wire chain-link fence sufficing for boundary restrictions. Most prisoners are housed in outside cells, in cell buildings or dormitories and employment may be inside or outside the enclosure. Personal supervision is emphasized for prevention of escapes. Minimum security prisoners are not under lock. They feature work outdoors or elsewhere under supervision of correctional officers and foremen.

When the Department of Corrections was created in 1944, there were 3 prisons for adult males and 1 for adult females. Prison population totaled 6,000 inmates. The tremendous increase in California population during the succeeding years has resulted in a corresponding increase in the prison population.

The estimated population increase for this department for the period 1967–72 is 4,340, an average of 868 inmates per year.

The building program of the department is designed to provide facilities to meet this anticipated population growth and supply the necessary custody and treatment requirements of a modern penal system. Present plans contemplate ultimately housing of inmates in accordance with the following standards:

For a cell building—1 bed for 1 inmate per cell.

For a dormitory—1 bed per 50 square feet.

The Minor Construction Program for 1967–68 proposes projects to correct deficiencies and provide improvement in the physical plant of most institutions.

The Major Construction Program proposals for 1967–68 include equipment for the second phase of the replacement of the Correctional Training Facility—South and the barracks replacement program at California Institution for Men. A project is proposed to modify the sewage plant at San Quentin.

For the list of standard (lettered) footnotes, see the end of the Capital Outlay section of the budget.

California Conservation Center

The California Conservation Center is the staging, training and supply center for a group of conservation camps in the northern section of the state. During 1967–68 the center will administer a total of 20 camps. The facility is a permanent medium-minimum security institution, constructed of reinforced concrete and brick, with a rated capacity of 1,147 inmates. Also included in the grounds is a 100-man capacity camp. The center is located on 1,160 acres in Lassen County about 7 miles east of Susanville.

The North Coast Branch, at Garberville, is scheduled to open a 100-man facility in January 1967. This branch, under supervision of the center, will function as a regular forestry conservation camp as well as a supply center for 8 other camps.

Expenditures for 1965–66 are for all 3 conservation centers. Originally Sierra and Southern were planned as branches of California Conservation Center and funds for their construction and the equipping of Southern were appropriated to California Conservation Center. Since that time, program and legislative changes have created 3 separate centers. It is necessary, therefore, to show expenditures of funds appropriated to California Conservation Center under this center. Such expenditures are also shown in the other 2 centers budget for informational purposes only, in addition to appropriations made directly to those institutions.

This budget provides funds for one minor project to correct deficiencies and improve the physical plant.

Sierra Conservation Center

The Sierra Conservation Center is located 9 miles southwest of Jamestown, California. This center was activated in July 1965 for 516 minimum and 631 medium custody inmates housed in 16-man dormitories.

The program consists of receiving men from reception guidance centers and more secure prisons, training them in skills necessary for their conservation camp assignment.

The center, with a population of 1,200 inmates, administers 11 conservation camps located throughout central California in the Sierra and coast ranges. One conservation camp operates 100 men out of the center with inmates working in Tuolumne, Calaveras and Mariposa Counties. Included in this total is Growlersburg, in El Dorado County to be activated in the 1966–67 fiscal year.

This budget provides funds for one minor project to correct deficiencies and improve the physical plant.

Southern Conservation Center

The Southern Conservation Center is located on 20 acres in San Bernardino County, about 5 miles south of Chino. It has a rated capacity of 640 inmates and is located adjacent to the California Institution for Men. Housing consists of 8 frame construction barracks, each containing 80 men. Of this capacity 540 are assigned center activities and 100 are assigned to the on-grounds conservation camp.

The institutional program at the Southern Conservation Center is similar to that at the centers in the northern part of the state. Southern Center administers and supplies 7 conservation camps in addition to an 8th camp located on the institutional grounds.

This budget provides funds for 2 minor projects to correct deficiencies and improve the physical plant.

Correctional Training Facility

The Correctional Training Facility is a medium-minimum security institution located on 907 acres in the Salinas Valley, approximately four miles north of Soledad. Agricultural, industrial, academic and vocational training programs are emphasized at this institution. The North Facility population is composed of one-fourth Youth Authority wards and three-fourths young adult felons. The Central Facility is of permanent reinforced construction with a rated capacity of 1,527; the North Facility, also of permanent construction, has a rated capacity of 1,225.

A temporary barracks South Facility with a rated capacity of 322 but a resident population of 575 operates as a farm unit. The first phase of a project for the replacement and addition to South Facility was approved for the 1965–66 fiscal year. The second phase for the replacement and addition of 332 capacity was approved in 1966–67, plus equipment for the first phase. Equipment for the second phase is proposed for 1967–68.

This budget also provides funds for three minor projects to correct deficiencies and improve the physical plant.

Deuel Vocational Institution

This medium-security institution is located on a 783 acre site in San Joaquin County, 4 miles east of Tracy, and 15 miles south of Stockton. It is primarily an academic and vocational training institution for younger offenders with some industrial and farming activities also available.

The institution has a capacity of 1,514 inmates, which includes a reception-guidance center with a capacity of 300 inmates, where Youth Authority wards committed by the criminal courts are processed, and an Adjustment Center to handle behavior problem cases in the younger age group.

Included in this budget are funds for five minor projects to correct deficiencies and improve the physical plant.

State Prison at Folsom

The State Prison at Folsom is the second oldest facility of the State Prison System, having been established in 1880. It is a maximum institution which houses inmates serving long sentences and those who are habitual criminals, recidivists, or severe disciplinary problems. The rated capacity is 2,039. It is located on a 1,700-acre site 2 miles northeast of Folsom. This budget provides funds for 4 minor projects to correct deficiencies and improve the physical plant. The significant minor projects are as follows: Construction of a visiting building to more effectively handle this function; installation of hot water for all cells in building No. 3. This is the second of 4 increments; renovation of the hospital elevator to conform to industrial safety requirements.

Institution for Men

The Institution for Men is located in San Bernardino County about 2 miles south of the town of Chino. This is primarily a minimum-security prison with an extensive agricultural and industrial program. It was opened in 1941 and consists of reinforced concrete permanent main buildings, semi-permanent steel industrial buildings, farm buildings, and temporary steel barracks buildings. The institution has a permanent-type capacity of 895 with a capacity of 205 in the temporary barracks. The southern reception-guidance center is located on the Chino site, and is reinforced concrete construction with a capacity of 561 inmates.

The budget provides for equipping the first of 3 housing units constructed to replace old barracks, and for 6 minor construction projects to correct deficiencies and improve the physical plant. A seventh project replaces an obsolete x-ray in the reception guidance center.

Medical Correctional Institution

The Medical Correctional Institution, which was authorized by Chapter 1243, Statutes of 1963, is proposed to provide for anticipated growth of the inmate population. This institution is planned as a medical correctional unit of 1,600 capacity. Projected population of the department indicates the need for this added bed space, and programming similar to that provided by the present Medical Facility. It will be located in southern California. Funds provided in 1966–67 were not based on a selected site, but rather represent an estimate of acquisition maximum as well as some site preparation and development.

Medical Facility

The Medical Facility is the psychiatric, diagnostic and treatment center for the department and houses adult male felons who are mentally ill or have serious emotional or personality disorders. The facility is located in Solano County about 2 miles south of Vacaville, and consists of 903 acres of land, of which approximately 100 acres are used for inmate and employee building areas. The institution is a permanent medium security facility constructed of reinforced concrete with a total rated capacity of 2,104 which includes the central facility with a capacity of 1,422 and the adjoining reception-guidance center unit with a capacity of 682.

The reception-guidance center receives all the adult male felon commitments from the 47 northern counties. This budget provides funds for 4 minor projects to correct deficiencies and improve the physical plant.

Men's Colony—East Facility

The Men's Colony—East Facility is a medium-security institution of reinforced concrete construction with a capacity of 2,472 inmates. The institution is composed of 4 segregated units of 600 capacity each plus hospital and detention beds. Housing, feeding, recreation, education and counseling activities are provided in each unit; however, central facilities for visiting, medical treatment, other services and supplies are used. The institution is located at Los Padres, 4 miles west of the City of San Luis Obispo and approximately 8 miles east of Morro Bay.

This budget provides funds for one minor project to correct deficiencies and improve the physical plant.

Men's Colony—West Facility

The Men's Colony—West Facility is a minimum security facility which utilizes barrack-type wooden buildings which were the hospital section of the army installation at Camp San Luis Obispo. The buildings were constructed during World War II to serve on a temporary basis during the war. The buildings are now over 20 years old and very difficult to keep in good repair. The institution is located at Los Padres, five miles west of the city of San Luis Obispo. A conservation camp (Cuesta) operated in conjunction with the Division of Forestry is housed in this institution. It is the only camp which is not under the jurisdiction of a regular conservation center. The facility provides a capacity for 1,362 older and chronically infirm inmates.

This budget provides funds for two minor projects to correct deficiencies and improve the physical plant.

Special Security Facility

The Special Security Facility was authorized by Chapter 1566, Statutes of 1965 which added Sections 2049 through 2049.6 to the Penal Code. The proposed institution is to be constructed on the southeast section of the land presently owned by the Medical Facility. It is located in Solano County about 2 miles south of Vacaville. The facility will be a maximum security institution which houses inmates serving long sentences and those who are habitual criminals. It will have a rated capacity of 1,400.

State Prison at San Quentin

San Quentin is the oldest prison in the California system and is located on 404 acres adjacent to the San Francisco Bay in Marin County, about three miles southeast of San Rafael. This is a close-medium security prison with extensive industrial, education and treatment programs. San Quentin is designated as the medical treatment center for major surgical and specialized medical treatment on a department-wide basis. A special unit houses inmates sentenced to death and provides for their execution under the death penalty. The prison has a rated capacity of 2,818.

This budget provides money to renovate the sewage plant which is creating a health problem in this area.

This budget also provides funds for 5 minor projects to correct deficiencies and improve the physical plant.

Institution for Women

The California Institution for Women is located on a 120-acre site in San Bernardino County, 7 miles northwest of Corona.

The institution confines all felon women committed to the department. Housing consists of cottage units of 718 capacity, a 32 bed hospital, 36 segregation beds, a reception-guidance center of 116 capacity, a psychiatric treatment unit with a capacity of 57. A central feeding facility was completed in June of 1966.

This budget provides funds for 4 minor projects to correct deficiencies and improve the physical plant.

Rehabilitation Center

The Rehabilitation Center is located at Norco, Riverside County, approximately 5 miles north of Corona. It was authorized by Section 6550 of Chapter 12 of the Penal Code in 1961; subsequently Chapter 1226, Statutes of 1965, the program was transferred to Division 3 of the Welfare and Institutions Code. This facility serves to protect society through thee removal of drug addicts from the community and placement in a facility where they receive intensive rehabilitative treatment. A research program is operated in conjunction with the Center. The facility is a former naval hospital which was acquired from the federal government at no cost. Alterations made to the plant provides housing and auxiliary services to care for and treat 1,900 male and 400 female residents.

Alterations made to the plant provides housing and auxiliary services for a rated capacity of 2,010 males and 425 females.

This budget provides funds for 1 minor project to correct deficiencies and improve the physical plant.

GENERAL ANALYSIS

This department is responsible for the custody and rehabilitation of youths committed by the juvenile and criminal courts for delinquent behavior. It operates 13 institutions for boys and girls. These facilities include 1 reception center in northern California for both boys and girls, 1 reception center in southern California for boys only; 4 youth conservation camps, 5 training schools for boys and 2 training schools for girls. A reception center-clinic for girls in southern California is operated as part of the Ventura School for Girls.

Two training schools for boys are now under construction. O. H. Close School for Boys, the first 400-bed institution in the Northern California Youth Center complex in Stockton, was opened in July, 1966. The second institution, Karl Holton School for Boys, is scheduled for completion and occupancy May 1, 1967.

These facilities will house an average population of 6,334 boys and girls during the 1967-68 fiscal year, with a year-end population of 6,544. In addition, an average of 1,250 of the older and more dangerous Youth Authority wards will be housed in Department of Corrections institutions during the budget year.

Consistent with accepted national practices, the department has developed institutions based upon a philosophy of working with homogeneous groups. In accordance with this principle, the department prefers to develop small institutions, 150–200 capacity for the youngest wards and 300–400 capacity for the older wards. Difficulties in financing state institutions have compelled the construction of institutions larger than these capacities. In order to achieve the economies of larger institutions together with the benefits derived from smaller institutions, the department has embarked upon program of constructing the Northern California Youth Center and the Southern California Youth Center. These will be large clusters of institutions with each unit providing a 400-ward capacity. Each cluster will be developed around a central administration and services core.

Tabulation of Five-year Projects by Categories

Utilities and services	356,700	0.5
Auxiliary service buildings	2,958,880	4.3
Minor construction and improvements	2,356,075	3.5
Totals	$68,105,984	100.0

PROGRAM SUMMARY

The construction program for the 1966–72 period is designed to provide institution capacity of 8,143 beds plus 592 hospital and detention beds to accommodate an estimated total institution population of 8,476 boys and girls by June 30, 1972. This program, at a total estimated cost of $68,105,984 provides for initial development and construction of the Southern California Youth Center, expansion of the Northern California Youth Center and construction of essential auxiliary facilities at existing institutions, plus various minor projects.

Basic Factors Affecting Agency Program Population Estimates

Commitments are classified as juvenile court wards or as young persons convicted in the criminal courts, and include only persons who are at least 8 years of age or less than 21 years of age at the time of the offense which results in commitment to the department. For the past 5 years, the court referral rate to the department for boys in the 10–17 age group has remained relatively stable at about 260 per 100,000 boys in this age group of the state population.

The effect of probation subsidy programs and other community based programs appears to have had a strong initial impact in reducing the commitment rate. Until the effectiveness of the programs have been assessed, capacity projects in 1967–68 have been deferred.

This deferral may cause a reduction in the 5-year plan beginning in fiscal year 1968–69, if the results of probation subsidy and other community based rehabilitative and preventive programs prove to be as encouraging over a 1- through 2-year period as the initial results have.

The referral rate for girls has gradually increased to 51 per 100,000 girls in the 10–20 age group. This rate has been used in estimated institution capacity requirements for girls.

The referral rate per 100,000 males to both the Department of the Youth Authority and Department of Corrections in the 18–20 age group has fluctuated considerably over the last 6 years varying from a rate of 558 in 1960–61 to 364 in 1965–66. This building program is based on a projected rate of 345 per 100,000 males in this age group.

Length of stay in institutions, excluding time spent in reception centers, varies from between 8 to 11 months depending on the age group of the ward and the type of treatment program.

Budget Proposals for 1967–68

The second of two phases of a project to replace the boilers is proposed for Fred C. Nelles School for Boys.

A project to acquire a small parcel of land to ensure that all water lines and pumping equipment are on state-owned land is proposed at the Fricot Ranch School for Boys.

Projects proposed for Nothern California Youth Center in 1967–68 include, equipment for a previously funded institution and the surgery addition as well as equipment for the Administration and Service Facility.

Additional water storage is being proposed at the Ventura School for Girls, to meet the needs generated by the opening of the new 100-bed reception center at the facility.

Minor construction projects are proposed for all institutions with the exception of Northern Reception Center-Clinic, Youth Conservation Camps, and Fricot Ranch School for Boys. Minor projects will provide for necessary alterations and improvements to correct deficiencies and improve the physical plant.

Departmental Administration

The amounts shown are for various capital outlay projects for facilities within the Department of the Youth Authority. Detailed information relating to individual projects are reflected in the individual capital outlay budgets. Minor capital outlay project funds are not allocated by institution for 1968–69 through 1971–72 and are shown here as expenditures.

Northern California Reception Center and Clinic

The purpose of this facility is to centralize intake, processing and transfer to resident institutions all boys and girls committed from northern California. The center provides diagnostic studies and training recommendations on each case. Intensive medical, dental, psychological and psychiatric treatment is given both for newly received wards and serious medical and psychiatric cases developing in the youth authority's northern California institutions.

The institution, located on a 17-acre site near Perkins approximately 7 miles east of Sacramento, has a capacity of 313 living unit beds plus 32 hospital and detention beds.

There are no projects proposed in the 1967–68 fiscal year.

Southern California Reception Center and Clinic

This facility processes all boys committed from Southern California. Diagnostic studies and training recommendations are supplied on each case. Intensive medical, dental, psychological and psychiatric treatment is given for newly committed wards as well as for serious medical and psychiatric cases which develop in the Youth Authority's Southern California institutions.

The institution, located on a 34-acre site near Norwalk, has a present capacity of 350 dormitory beds and 28 hospital and detention beds.

A minor project is proposed in 1967–68 to repair the administration and hospital building roof.

No major projects have been proposed for 1967–68.

Youth Authority Conservation Camps for Boys

The camp program of the department is operated jointly by the youth authority and the Division of Forestry and serves in the rehabilitation of older youth through useful work in the suppression of forest fires, reforestation, road construction and general maintenance of the state's forests and recreational areas.

The camps are located at Pine Grove in Amador County, Mount Bullion in Mariposa County, Ben Lomond in Santa Cruz County, and Washington Ridge Camp in Nevada County. In addition to the four main camps three spike camps are operated as branches of the main camps on a year-round basis. Total capacity of these conservation camps is 360.

There are no projects proposed in 1967–68.

Fricot Ranch School for Boys

This school, with a bed capacity of 232 wards, houses the youngest and most immature wards of the Youth Authority—primarily those between 8 and 13 years old. The program places emphasis on academic education and counseling.

The school is located on a site of 1,090 acres in the foothills 11 miles from the City of San Andreas at an elevation of approximately 1,700 feet. In this location, the school carries on a program of scouting, hiking and outdoor living as part of its rehabilitation program.

One major project, to acquire land in order that all water and pumping facilities will be on state-owned property, is proposed for 1967–68. No minor projects are proposed.

MAJOR PROJECTS [a]						
Pump house and water line (General Fund)	–	–	$2,000 [L]

Fred C. Nelles School for Boys

This institution was originally constructed at Whittier in 1890. Remodeling and rebuilding of this institution began in the 1959–60 fiscal year and upon completion of the projects presently funded, there will be a capacity of 620 plus 35 hospital and detention beds.

The major project proposed in 1967–68 is the second phase of a project to replace outdated boilers.

Minor projects are proposed in 1967–68 to correct deficiencies and improve the physical plant.

DEPARTMENT OF THE YOUTH AUTHORITY—Continued

Northern California Youth Center

The Northern California Youth Center is the first of 2 such centers planned for California. It is planned that all of the department's capacity requirements for Northern California in the next 20–25 years will be provided on a 952-acre site in San Joaquin County near Stockton. It is anticipated that twelve 400-ward institutions served by a central administrative and business services unit will be constructed here. While each 400-ward institution's treatment program will be complete and self-contained, the overall supervision, business services, maintenance, feeding, and hospital care will be provided by the central unit. Thus the operational economies of a large institution will be accomplished with the program benefits of small, 400-ward units.

Occupancy of the first 2 institutions and the central hospital now provides a total capacity of 779 plus 36 detention beds and 33 hospital beds. Completion of Institution No. 3, the DeWitt Nelson Youth Conservation Training Center, will provide a total of 1,179 plus 52 detention and 33 hospital beds by the end of 1967–68. The eventual capacity of this facility will be 4,800.

Equipment for previously funded institutions, and the surgery addition is proposed in 1967–68.

There are no minor projects proposed in 1967–68.

Southern California Youth Center

The Southern California Youth Center, authorized by Section 1760 of the Welfare and Institutions Code, is to be located near Ontario, adjacent to the Youth Training School. It is the second of 2 youth centers in California which are planned to handle the department's capacity requirements for the next 20–25 years. The first of these youth centers is the Northern California Youth Center located near Stockton. The Southern Youth Center is planned to have a total capacity of 4,800, including the Youth Training School which is presently operating with a capacity of 1,200 wards.

The center will follow the same basic plan as its northern counterpart. It will have a central administrative and services facility providing utilities, maintenance supply, food preparation, business and administrative services for 9 institutions of 400 capacity each. The Youth Training School will require a limited amount of administrative services from the central administrative unit of the center.

Initially, the central administrative and service facilities for the operation and support of the first 2 institutions will be provided by expansion of the Youth Training School and construction of a portion of the central facilities master plan.

The central administration facilities and the 375-bed older boys reception center are scheduled for construction in 1968–69. These projects were funded in 1966–67. While no new major or minor projects are proposed for funding in 1967-68, projects to equip the first phase of the central administration and service facilities and the first institution, to construct the second institution, and to provide for the state's participation in the expansion of the City of Chino sewage plant (required for the Southern California Youth Center) are set forth in the five-year construction plan. These projects are now scheduled to commence in 1968–69.

DEPARTMENT OF THE YOUTH AUTHORITY—Continued

Paso Robles School for Boys

The Paso Robles School is for boys primarily between 15 and 17 years old. The school program is academic and prevocational in nature. All buildings are of single-story reinforced brick construction with radiant heating. Each cottage houses 50 boys and contains both single rooms and a dormitory. The school is located near Paso Robles in San Luis Obispo County. The site covers 203 acres and the institution occupies an area of approximately 40 acres. The facility has a capacity of 453 plus a hospital and detention capacity of 38.

No major projects are proposed in 1967–68. Minor projects are proposed to correct deficiencies and improve the physical plant.

Preston School of Industry

The Preston School of Industry has a program of academic, vocational and agricultural training designed for boys between the ages of 17 and 21 years.

The facility was constructed in 1894 near Ione in Amador County. A reconstruction program to replace and relocate many condemned and inadequate facilities has been completed. The institution has a capacity of 846 living unit beds and 94 hospital and detention beds.

Minor projects are proposed in 1967–68 to correct deficiencies and improve the physical plant.

No major projects are proposed in 1967–68.

Youth Training School

The program at this school provides formal vocational instruction and related work experience for boys in the 17 to 21 year-old group.

The Youth Training School, located near Ontario, San Bernardino County, has a capacity for 1,200 wards plus 72 hospital and detention beds. This existing institution and nine 400-bed institutions yet to be constructed on a contiguous site, will be designated the Southern California Youth Center. This Center will have an ultimate capacity of 4,800. The concept will be similar to the Northern California Youth Center at Stockton.

Initially, this institution will provide a portion of the administration and service facilities for the operation and support of the first 2 Southern California Youth Center institutions.

No major projects are proposed in 1967–68. The minor projects proposed in 1967–68 are to correct deficiencies and improve the physical plant.

Los Guilucos School for Girls

This school houses delinquent girls between the ages of 10 and 18 years. The program emphasis is on schooling with some prevocational classes and work experience opportunities.

Los Guilucos School for Girls is located near Santa Rosa, Sonoma County. The school property includes 420 acres. Buildings are located on approximately 40 acres. The total living capacity is 259 beds, plus 37 hospital and detention beds.

No major projects are proposed in 1967–68. Minor projects are proposed in 1967–68 to correct deficiencies and improve the physical plant.

Ventura School for Girls

The Ventura School for Girls consists of a reception center and resident housing for delinquent girls of the 16–21 year-old age group. The residential program consists of junior and senior high school remedial training plus a vocational training program.

The institution is located in Oxnard, Ventura County. All buildings are of single-story reinforced concrete and brick construction. A separate 100-bed reception center will be activated in July 1967. This will provide the school with a 100-bed reception center, 450 resident beds and 70 hospital and detention beds.

In 1967–68 the construction of additional water storage capacity has been proposed. This will provide an adequate water supply for the new 100-bed reception center which will open during 1966–67.

Minor projects are proposed in 1967–68 to correct deficiencies and improve the physical plant.

GENERAL ANALYSIS

The Department of Education administers 5 special schools for physically handicapped children, including 1 for the education of the blind, 2 for the education of the deaf, and 2 for the diagnosis and educational evaluation of cerebral palsied children. The projects proposed for the budget year are detailed in the Capital Outlay presentation for each school. Future construction projects will include a request for funds for a deaf multiple handicapped unit to be constructed on state-owned land adjacent to the School for the Deaf, Riverside. Future plans also call for the general renovation of the major building located at the California School for the Blind.

Students Served in the Schools for the Physically Handicapped

School for the Blind

This residential school, located in Berkeley, has a capacity for 150 residential students and 10 day students. The school is situated on 14.5 acres of state-owned land in the Berkeley Hills and consists of both single and multi-storied buildings of concrete construction. The entire plant includes 1 (one) administration and classroom building, 4 residence halls which consist of bedrooms, bathrooms, study rooms, laundry and storage areas, one building housing an infirmary and examination rooms, 1 dining room and kitchen facility and 1 gymnasium building with enclosed swim pool. All maintenance shops and boiler plant facilities are located in the grounds of the School for the Deaf and these services are provided to the School for the Blind on a reimbursement basis per approved plan of financial adjustment. Future construction projects will include a request for funds for structural rehabilitation of various buildings. The 1967–68 Capital Outlay budget proposes 1 minor project in the amount of $3,000 to expand a playground area at Monroe Cottage.

School for Cerebral Palsied Children, Northern California

This is a residential school for the diagnosis and treatment and the determination of an educational program for children crippled by cerebral palsy and other similar handicaps. The school is situated on approximately 2.8 acres and consists of a 2-story building housing classrooms, dormitories, kitchen and dining rooms, play rooms, parent bedrooms, examination rooms, infirmary and administration offices. In addition, the grounds provide play areas for the children and a single-story building originally constructed for use as a garage but now used for classroom instruction. The 1967–68 budget for this school proposes a minor project to modify and improve the playground area.

DEPARTMENT OF EDUCATION—Continued

School for Cerebral Palsied Children, Southern California

The residential school for the diagnosis, treatment and determination of an educational program for children crippled by cerebral palsy and other similar handicaps is located in Los Angeles, adjacent to the Los Angeles State College, and is situated on 3.88 acres of state-owned land. The new facility, with a capacity of 32 students, was completed in March of 1964 and the school occupied its new quarters in April 1964.

School for the Deaf, Berkeley

This residential school, located in Berkeley, has a capacity for 452 residential students and 60 day students. The school is situated on 115.13 acres of state-owned land in the Berkeley Hills and consists of single- and multi-storied buildings of concrete construction. The entire plant consists of a single story administration building, practice cottage, warehouse storage building, mechanical maintenance shop, and multi-storied buildings for 1 vocational building, 1 dining and 1 kitchen area, 1 elementary school building, 1 junior high and high school building, 1 gymnasium and 7 dormitory buildings. In addition, areas are provided for recreational activities, including swimming pool, football field, baseball diamond, running track, basketball and volleyball courts, baseball and softball diamonds, and playground areas for the smaller children. The 1967–68 Capital Outlay budget proposes a major item totaling $97,200, one-half of this amount ($48,600) to be paid from Federal Vocational Education Act Fund, for the construction of an addition to the Vocational Training building to house the expanded program in auto body and fender repair. In addition 1 minor project is proposed to remodel shower rooms.

School for the Deaf, Riverside

This residential school, located in Riverside, has a capacity of 462 residential students and 60 day students. The school is situated on 75.21 acres of state-owned land and consists of single-storied buildings of brick construction. The entire plant includes 15 dormitories with an average capacity of 31 children, 1 administration building, 6 buildings housing classrooms, buildings for vocational shops, gymnasium and exercise rooms, social hall, infirmary, kitchen, dining room, bake shop, boiler plant, warehouse, plumbing and mechanical shops. In addition, areas are provided for recreational activities, including a swimming pool, football field, baseball diamond, running track, basketball, handball and volleyball courts and playground areas for the small children. Included in the 75.21 acres on which the school is located are 13 acres of unimproved land. Future construction projects will include requests for funds for a deaf multiple-handicapped unit. This budget proposes funds for one minor project.

GENERAL ANALYSIS

Objectives

The University of California is a statewide institution of higher learning which has 4 major functions.

These are:

1. Instruction of able young people, by transmitting to them established knowledge and skills and by helping them to experience with their teachers the actual processes of developing and testing new hypotheses and fresh interpretations in many fields.
2. Research directed toward advancing the understanding of the natural world and the interpretation of human history and of the great creations of human insight and imagination.
3. Training for professional careers—a training grounded in the understanding of relevant sciences and literature, and enlightened by some experience in the methods by which the boundaries of knowledge are pushed back.
4. Various sorts of expert public service.

---

[3] Amounts shown by campus under nonstate funds also include federal funds.

LINE	STATE BUILDING PROGRAM EXPENDITURES	ACTUAL 1965–66	ESTIMATED 1966–67	PROPOSED 1967–68	PROJECTED 1968–69	PROJECTED 1969–70	PROJECTED 1970–71	PROJECTED 1971–72

FACILITIES

The University of California has 9 campuses, including 8 general campuses with wide ranges of academic programs and a specialized campus at San Francisco with schools of medicine, pharmacy, dentistry, and nursing.

The University's general campuses have a total area of 11,325,000 assignable square feet, excluding health sciences and residential facilities and the federally constructed radiation laboratories at Berkeley and Livermore. Following is a distribution of the total by type of room:

	Percent of total
Classrooms	5.7
Class laboratories and service rooms	9.2
Research laboratories and service rooms	19.7
Offices and service rooms	21.9
Libraries	10.9
Gymnasia and auditoria	5.5
Shops and storage areas	8.3
Field buildings and greenhouses	8.5
Other (food service, student health, etc.)	10.3
	100.0

Since these are rooms in which scheduled class instruction is held, classrooms and class laboratories receive considerable attention, but they actually account for a minor proportion of the University's total space need. Laboratory work at the graduate level is conducted in research laboratories, without reference to class change schedules which typify class laboratories. Graduate instruction per student requires 4 times as much laboratory and classroom space, together, as that for undergraduate instruction. As the University's enrollment is increasing more rapidly at the graduate level, space needs per student in total are consequently increasing.

Facilities are converted or reassigned insofar as necessary and possible to accommodate shifts in the nature of the instructional load. The limits of feasible conversions cannot be inferred from the foregoing distribution of space by types of room. The general campuses' total space of 11,325,000 assignable square feet extends in quality down through barns and storage space under bleachers.

Space needs per unit of instructional load vary widely by disciplines as well as by levels of instruction. The following is a distribution of the 5 established campuses' assignable area amongst instructional disciplines other than agriculture, physical education, and military sciences:

	Percent of total
Biological sciences	15.2
Mathematics	2.5
Physical sciences	22.6
Engineering	18.3
Social sciences	12.0
Humanities	16.3
Professions	13.1
	100.0

Engineering, therefore, uses substantially more space than the social sciences, even though the instructional load in engineering is one-third that of the social sciences. Total space per unit of instructional load in engineering is nearly 5 times that of the social sciences. Principally because of their relatively low requirements for laboratories, departments of mathematics, social sciences, and languages and literature have low space needs in relation to those of the biological sciences, physical sciences, and engineering.

The space needs of the University which are related to enrollment are projected on the basis of space standards published in the Restudy of the Needs of California in Higher Education. The restudy standards differentiate among the disciplines and amongst the levels of instruction within each discipline. Budget controls are applied to total areas in addition to which there are supplementary "cross-sectional" controls on classrooms, faculty offices, library seating, and such other facilities for which specific, workable policies can be established.

Space needs of organized research units (e.g., Berkeley's Virus Laboratory) are not relatable to enrollment, being far more dependent on the nature and magnitude of the research effort to be accommodated. No allowances are calculated for them with restudy standards, and their space is excluded from analyses of instructional capacity. Proposals for organized research units, as for other activities not covered by the restudy standards, are prepared and reviewed on the bases of whatever estimating guides and projections are appropriate.

UTILIZATION OF CLASSROOMS AND LABORATORIES

The following table indicates the effectiveness of the continued efforts of the University to improve the use of all types of instructional facilities.

Line 11 shows that 15 percent less classroom square footage was used per 100 weekly student-hours than in fall 1961 (99 reduced to 84). 17 percent less space was used for the same period in laboratories

HISTORICAL SUMMARY OF UTILIZATION RATES AND UNIT AREAS—MONDAY-FRIDAY, 8 A.M.-5 P.M.—ALL BUILDINGS

Berkeley, Los Angeles General, Davis, Riverside, Santa Barbara, and San Diego Campuses Combined [1]

Measurement	*Fall 1961*	*Fall 1962*	*Fall 1963*	*Fall 1964*	*Fall 1965*

1. Number of scheduled rooms	521	534	534	582	574
2. Total stations in scheduled rooms	12,956	13,296	13,543	15,776	15,564
3. Total assignable sq. ft. in scheduled rooms	548,164	575,213	566,150	639,038	633,931
4. Mean class size (weighted by class-hours)	17.2	18.1	18.6	18.4	18.5
5. Mean room size (stations)	24.9	24.9	25.4	27.1	27.1
6. Weekly class-hours per room	15.3	16.1	16.5	15.8	16.9
7. Station occupancy (line 4 as percent of line 5)	69%	73%	73%	68%	68%
8. ASF per station (line 3 divided by line 2)	42.3	43.3	41.8	40.5	40.7
9. ASF per 100 weekly student-hours	400	371	346	378	352
10. Total ASF, including service rooms [2]	929,701	968,306	955,080	949,925	1,016,928
11. Total ASF per 100 weekly student-hours	679	625	583	562	564
TOTAL INSTRUCTIONAL ASF PER WSH [3]					
Instructional rooms proper (as line 9)	158	151	138	141	135
Total, including service rooms (as line 11) [2]	217	206	192	180	180

(679 reduced to 564).

Comparisons with programs at institutions in other parts of the country indicate that the University's standards and achievements are as good or better than comparable institutions. However, the University will continue its efforts to improve utilization at all campuses.

These efforts have included studies of the effectiveness of computer scheduling of classes. It was found that no significant improvement would occur. However, the University is finding that considerable savings have taken place through the use of computers of such activities as registration, records, and fiscal planning.

ENROLLMENT

Basic to a well-planned program for the construction of University facilities is an estimate of expected enrollments. These projections should provide year-by-year estimates for each campus and should be consistent with the data used for other budgetary purposes. Because of the substantial lead time involved in academic facility construction, enrollments for approximately five years beyond the financing period are required in order to keep needs and facility availability in balance. Enrollment forecasts for a 10-year period (through fiscal year 1976–77) are, therefore, essential for a five-year construction program such as that presented in this year's budget.

The point of departure for the University's data is the set of "gross" enrollment projections prepared by the Department of Finance. These projections are then modified in 2 ways: (a) to reflect adjustments sufficient to achieve the 40:60 lower-division to upper-division ratio proposed by the Master Plan; and (b) to reflect average annual enrollments under the University's planned program of year-round operation.

Year-round operation commences in the summer of 1967 when the Berkeley campus initiates a summer quarter. As shown in the accompanying table, other campuses are brought on-line at rates which range from 20 percent to 40 percent of fall enrollments. By 1970–71 all of the campuses will be on year-round operation. At that time the summer quarter will be accommodating a gross enrollment of nearly 50,000 students. Even at this point, before the full benefits are realized, use of the summer quarter represents a capital outlay saving approximating $160 million.

Adherence to the Master Plan's lower division/upper division ratio of 40:60 would require the University to divert approximately 10,000 students to Junior Colleges in 1976–77 and these diversions are taken into account in the projection. The projections in the table below represent the most reasonable and most current basis now available for planning and reviewing a University capital outlay program aimed at accommodating nearly 60,000 additional students by 1976–77.

---

[1] San Diego not included in fall 1961 data.

[2] Also includes any unscheduled instructional rooms proper.

[3] Based on the combined floor area of classrooms, seminar rooms, and class labs, and the total weekly student-hours scheduled in those rooms.

[a] Full-time equivalent student enrollment has been derived from headcount enrollment by applying the fall 1965 relationship of headcount to FTE enrollment. The fall 1965 FTE enrollment was determined at the undergraduate level by dividing all the student credit hours generated by lower and upper division students by 15. At the graduate level FTE students were determined by a detailed census conducted by graduate advisors in which they designate the percentage of full time each student devotes to his work.

[b] Summer quarter enrollment increments represent one-third of the total summer quarter enrollments; i.e., the net contribution of summer quarter enrollment to average annual enrollment.

LD—Lower division.
UD—Upper division.
1st—First-stage doctoral or masters degree.
2nd—Second-stage doctoral.

FUND SOURCES

The University's capital outlay program is scheduled for as much assistance from nonstate funding sources as appears feasible. Grants anticipated in April, 1967, under the Higher Education Facilities Act, are shown in the 1967–68 Governor's Budget under the column for 1966–67 appropriations, and the state funds required to complete the financing are shown in the 1967–68 column. Most projects require at least some state funds because of fund-matching provisions of most grant programs.

Several types of projects are scheduled to be financed entirely from nonstate funds. Some are to be funded by loans, to be repaid by revenues from the users. Others are appropriately dependent upon gifts, in view of state's limited resources. Others, such as student health facilities, are scheduled for funding by students' incidental fees, possibly supplemented by gifts. Following are types of projects currently scheduled to be funded completely from nonstate sources:

Residence halls and apartments
Parking, surface and structures
Cafeterias
Student and faculty centers
Athletic facilities beyond requirements for organized instruction
Student health facilities

FEDERAL FUNDS

The University's 5-year capital outlay budget projections include estimates of the amount of federal construction grant funds which potentially might be obtained for individual projects in the building program. The estimated amounts shown are based upon a review of all currently active federal construction grant programs and on the University's experience over the past several years in obtaining grants from these federal programs. Each federal dollar figure shown in the "Actual" column represents a grant award and each federal dollar

Facilities Program, which provides grants for up to 50 percent of the cost of constructing facilities designed for the conduct of research in the health science disciplines.

All of the federal programs listed above award grants on a project-by-project basis. None provide funds for the total cost of a facility or a part of a facility, but rather, each requires that the institution provide a part of the cost, from one-third to two-thirds, depending on the program. Thus the federal agency participates with the institution in represents a potential federal grant for the project involved.

Amongst the federal sources currently available are the following programs: Higher Education Facilities Act Title I, which provides up to one-third of the cost of constructing classrooms, laboratories, and other academic facilities to be used primarily for undergraduate instruction; Higher Education Facilities Act Title II, which provides up to one-third of the cost of constructing graduate and faculty instructional and research facilities; National Science Foundation Graduate Science Facilities Program, which provides up to 50 percent of the cost of constructing graduate research facilities; the Health Professions Teaching Facilities Program, which provides grants up to two-thirds of the cost of constructing facilities for the training of physicians, dentists, pharmacists, optometrists, podiatrists, nurses, veterinarians, and public health personnel; and the Health Research

Application procedures require that schematic plans for the project be completed prior to submittal of the proposal, and that strong justification of need for the facilities be provided. The institution must also show evidence that the required matching funds are available or firmly committed before a grant is made.

Over the past 2 years, the University has obtained approximately $60 million in federal matching grants from the agency programs listed above. These grants reduced state fund requirements for general campus undergraduate and graduate facilities by approximately $28 million, and for health science instructional and research facilities by approximately $21 million. An additional $11 million in grants was received to aid in the construction of research facilities designed to accomplish specific research objectives.

UNIVERSITY OF CALIFORNIA—Continued

Universitywide

The University of California is governed, in accordance with the State Constitution, by a corporate body titled, The Regents of the University of California. The President of the University is the executive head of the University in all its departments and all its campuses. The president and his staff, with headquarters in University Hall at Berkeley, direct the development of major policy for the statewide University.

In recent years, with the growing size and complexity of the University, efforts have been made to delegate responsibility and decentralize as much administrative detail to the campus level as is possible.

Various statewide functions of the University are included in this section, including preliminary and general planning, and preparation for new campuses.

University Extension

University Extension is the statewide continuing education service linking the university, its scholars, research, and resources with the people and communities of the state.

Varying in length and format from one-day conferences and short lecture series, to courses of 2 or more quarters and Certificate programs requiring up to several years, Extension in 1965 offered over 6,000 programs to over 200,000 persons in 200 locations throughout the state. Industry, the professions, labor, health and social services, government, and science benefit from the dissemination of the research and educational expertise of the university.

Berkeley Campus

The University of California at Berkeley is the oldest of the University campuses and covers over 200 acres of flatland, 1,000 acres in the hills and outlying additional properties. Instruction began on this site in 1873. Berkeley now has over 27,000 enrolled students and offers instruction in every major field of learning. It is particularly noted for its research in basic sciences, much of which has developed at the Lawrence Radiation Laboratory, Donner Laboratory, and other renowned research units. While the campus is nearing its maximum enrollment, additional facilities are required for the shift to graduate work and for renovation and replacement of obsolete facilities.

MAJOR PROJECTS [a]

Utilities	–	–	$520,000 [C]			
To prepare working drawings for and construct additions and modifications to the campus underground electrical distribution system.						
Parking Structure G. Hearst Mining Circle—330 cars	–	–	45,000 [W] [1]			
			1,248,800 [C] [1]			
Utilities, 1966–67	–	$15,300 [C]	358,400 [C]			
General Campus Improvements	–	–	–	$107,000 [C]		
Etcheverry Hall, step 2	–	–	–	160,000 [W]	$4,810,400 [C]	$794,000 [E]
Forest Products Laboratory Addition	–	–	–	438,000 [C]		
				30,000 [E]		
				480,000 [F]		
Botany Plant Growth Laboratory	–	–	–	524,000 [C]	173,300 [E]	
				345,500 [F]

45								
46	Law complex—Earl Warren Legal Center, law students housing	–	$97,400 E					
47	Land acquisition, 1965–66	$84,428 1						
48	Construct arts center	2,400,000 1						
49	Construct northside center	–	2,200,000 1					
50	Richmond service and storage facility renovations	–	100,000 1					
51	Construct year-round operation facilities	–	216,000 1					
52	Storm drainage system development, step 3	–	288,100 C					
53	Bodega marine lab additions	235,000 1						
54	General campus improvements, 1966–67	–	219,800 C					
55	Land acquisition, 1966–67	–	708,000 L					
56	California Hall alterations	–	262,600 C					
57			50,000 E					
58			470,000 1					
59								
60	Equip chemistry unit 2	700,000 E						
61	Construct and equip alterations to Moses Hall	37,100 E						
62	Land acquisition	250,000 L						
63	Construct storm drainage system, step 2	311,450 C						
64	Construct general campus improvements, 1965–66	303,200 C						

Agriculture Hall alterations	61,488 [C]						
	394,350 [F]						
Complete facilities at Richmond Field Station	15,627 [C]						
Complete engineering unit 1	72,715 [C]						
Totals, Major Projects	$17,267,758	$10,407,808	$2,172,200	$14,825,700	$20,899,100	$12,523,600	$19,643,100
MINOR PROJECTS [b]							
General campus—Enlarge telephone duct system for Centrex	–	–	$35,000 [2]				
Strawberry Canyon—Install utilities, sewer, and gas, in North Canyon Road	–	–	42,000 [2]				
Mulford Hall—Renovate various rooms and install fume hood for forestry	–	–	25,000 [2]				
Harmon Gymnasium—Replace broken tiles and repair filter in the men's swimming pools for the department of physical education	–	–	65,000 [2]				
General Campus—Improve indoor lighting in various buildings	–	–	25,000 [2]				
General Campus—Widen Bancroft Way west of Eshleman Hall to Dana Street, and develop Dana Street in immediate vicinity	–	–	45,000 [2]				
Kroeber Hall—Develop a 2,500 sq. ft. museum and collection study area in room 20-A for the department of anthropology	–	$50,000					
Gill Tract—Construct an addition to Insectary Building for insect pathology laboratory for department of biological control	–	25,800					
General Campus—Improve heating and ventilation systems in Durant, LeConte, Optometry, Giannini, and Haviland Halls, step 2	–	44,600					
Television—System additions and modifications—update, alter, and extend the campus central and satellite television-communication facilities	–	30,000					
General campus—Install additional de-aerator in central heating plant	–	50,000					
Richmond service and storage facility—Repair skylight sash and roof	$50,000						
Oxford Tract—Alter and enlarge ventilating ducts at Research Unit 1 for the department of soils and plant nutrition	50,000						
Wheeler Hall—Install a second elevator in the building to serve the five floors in the northeast corner of the building	30,000						
Utilities—Substation No. 1. Provide two transformers to comply with public-safety rules of the California State Electrical Safety Orders	50,000						
Sproul Hall—Install freight elevator and reconstruct loading dock	23,200						
Utilities—Eliminate electrical safety-hazard by replacing oil-fused cut-outs in the high-voltage electrical distribution system	50,000						
Forest Products Laboratory—Construct a butler-type building as a processing laboratory for department of forestry	42,500						
Alterations and improvement projects of $20,000 or less	80,400	44,700	27,900 [2]				
(Number of projects for budget year)	–	–	(3)				
Unexpended balance reported as expended in prior years	–	–20,524					
Totals, Minor Projects	$376,100	$224,576	$264,900 [2]				
TOTAL EXPENDITURES, CAPITAL OUTLAY	$17,643,858	$10,632,384	$2,437,100	$14,825,700	$20,899,100	$12,523,600	$19,643,100

Davis—General

The Davis campus, designated a general campus in 1959, is located on 3,774 acres approximately 13 miles west of Sacramento. In academic year 1966–67, Davis will have an average enrollment of over 8,000 students. By 1975, the average enrollment is expected to have increased to 15,000.

Davis has long been recognized as a leader in research and teaching in agriculture. While the College of Agriculture and School of Veterinary Medicine will continue to play prominent roles in campus life, programs in a wide range of academic fields have been developed. The College of Engineering was established in 1962 and the College of Law in 1966. A School of Medicine is currently scheduled to begin instruction in 1968.

STATE BUILDING PROGRAM EXPENDITURES	ACTUAL 1965–66	ESTIMATED 1966–67	PROPOSED 1967–68	PROJECTED 1968–69	PROJECTED 1969–70	PROJECTED 1970–71	PROJECTED 1971–72
MAJOR PROJECTS [a]							
Engineering building	$640,389 F	$838,000 E 353,117 F	$820,000 E				
To complete equipping of a structure with 115,500 asf of classrooms, laboratories, shops, offices, and supporting service facilities for teaching and research in engineering. Working drawings and construction funds were included in the Budget Acts of 1963 and 1964, and funds for an initial complement of equipment in the Budget Act of 1966. The building is scheduled for completion in December 1966.							
Biological sciences unit 3	2,350,400 C 1,000,000 F	–	450,000 E	$300,000 E			
To equip partially 50,775 asf of classrooms, class laboratories, laboratory service areas, offices, a library, conference rooms, a museum, and related animal facilities, to house the department of zoology. Construction was provided for in the Budget Act of 1965 and a federal facilities grant. Building completion is scheduled for July 1968.							
Utilities and site development	–	–	1,375,000 C				
To prepare working drawings for and construct facilities related to the continued development of the campus domestic and utility water systems, steam, gas, sewer, chilled water, and electrical systems. Also included is renovation of the campus sewage pumping station, construction of West Perimeter Road, and reconstruction of Hutchison Drive.							
Irrigation water system on campus, step 2	–	–	229,000 C				
To construct facilities to distribute irrigation water provided under the agreement with the Solano County Flood Control and Water Conservation District. The Budget Act of 1965 provided funds to construct facilities to transport the water to the campus as well as funds for working drawings of the on-campus distribution system, and the Budget Act of 1966 provided funds for step 1 of the on-campus facilities.							
Biological sciences unit 4	1,921,000 F	158,000 W	5,184,000 C 1,191,208 F	1,082,000 E			
To construct a 127,000 asf building to provide classrooms, offices, laboratories and related spaces for the departments of genetics, biochemistry, entomology, and vegetable crops. These departments will increase from 253 FTE students in 1965 to 510 in 1971. The project will release 44,280 asf for expansion of bacteriology, botany, agronomy, and the social sciences. 40,000 asf of the building will be funded from a HEFA Title II grant of $1,921,000 and a National Institute of Health grant of $1,191,208 to provide graduate training and health related research space.							
Physics unit 1	–	136,500 W	3,279,812 C 1,525,188 F	919,000 E			
To construct a 77,000 asf building with classrooms, offices, laboratories, and related spaces to house the departments of physics, geology, and astronomy. The building will provide space for 761 FTE students in 1971.							
Residential apartments, step 3—200 units	–	–	2,563,000 1				
Wickson Hall addition	–	–	–	925,000 C	$122,000 E		
Cruess Hall unit 2	–	–	–	78,000 W 400,000 F	2,205,600 C	$464,000 E	
Relocation of central campus animal husbandry facilities	–	–	–	461,100 C	15,000 E		

Chemistry addition	–	160,000	–	4,746,000	902,000		
Residential hall unit 7B—550 students	119,700 1 W	4,070,300 1 C					
Floriculture greenhouses and headhouses	–	471,200 C	–	45,000 E			
School of Law building	79,200 W	2,363,900 C	–	181,000 E			
Classroom and office unit 3	100,300 W	2,051,700 C	–	320,000 E			
		1,000,000 F					
		50,000 1		10,000 1			
Utilities and site development, 1968–69	–	–	–	1,682,100 C			
Campus sewage plant expansion	–	–	–	1,465,500 C			
				30,000 E			
Classroom and office unit 4	–	–	–	118,000 W	3,467,500 C	364,000 E	
Engineering unit 2	–	–	–	134,200 W	4,022,100 C	844,500 E	
Nuclear physics laboratory	–	–	–	30,500 W	1,087,700 C	115,000 E	
				940,000 F			
Plant growth teaching and research facilities unit 2	–	–	–	337,900 C			
				34,000 E			
Residence hall unit 9—400 students	–	–	–	381,500 F			
Utilities and site development, 1969–70	–	–	–	80,000 1 W	2,483,000 1 C		
General services unit 2	–	–	–	–	1,663,300 C		
Physical education facilities	–	–	–	–	499,500 C	51,000 E	
Utilities and site development, 1970–71	–	–	–	–	120,200 W	3,542,100 C	$370,000 E
Haring Hall alterations related to veterinary medical facility				–	–	1,494,100 C	
unit 2	–	–	–	–	–	441,400 C	
						45,000 E	
Library addition unit 3	–	–	–	–	–	145,500 W	4,417,500 C
Concert hall	–	–	–	–	–	48,300 1 W	100,000 1 E
						1,328,600 1 C	
Residence hall unit 10—400 students	–	–	–	–	–	80,000 1 W	2,483,000 1 C
Utilities and site development, 1971–72	–	–	–	–	–	–	1,172,200 C
Graduate school of administration building	–	–	–	–	–	–	1,554,100 C
Administration unit 2	–	–	–	–	–	–	1,396,600 C
Agricultural toxicology addition	–	–	–	–	–	–	410,600 C
							504,000 F
Equipment storage	–	–	–	–	–	–	103,700 C
							11,000 E
Relocation of Berkeley poultry husbandry facilities	–	–	–	–	–	–	215,400 C
							21,000 E
Plant growth teaching and research facility unit 3	–	–	–	–	–	–	673,100 C
Physical sciences unit 1 alterations	299,000 C	62,000 E					
Relocate horticultural greenhouses	398,738 C	35,000 E					
	45,000 E						
Library expansion, step 2	1,612,800 C	260,000 E					
	873,000 F						
Heating plant addition	57,500 W	1,675,000 C					
Irrigation water system on campus	–	736,689 C					
Relocation of seed processing laboratory and central garage	–	560,000 C					
Utilities and site development, 1966–67	–	1,115,900 C					
Computer housing at Livermore	–	75,000 C					
Equip Humanities building	300,000 E						
Equip Administration building	200,000 E						
Construct supplemental irrigation system to campus	1,087,800 C						
Construct utilities, 1965–66	668,000 C						
Construct campus road development	365,300 C						
Construct and equip facilities for the study on the biology of large animals, unit 1	436,500 C						
	44,300 E						
	429,000 F						
Construct relocation of agricultural field facilities to clear site for new buildings	450,800 C						
Construct recreational swimming pool	350,000 1	200,000 1					
Construct general campus development	135,000 C						
Purchase of relocatable buildings	376,000 C						
Construct utilities to bovine leukemia laboratory	40,000 C						
Construct utilities to national primate center	36,000 C						
Construct bovine leukemia laboratory	351,000 F						
Totals, Major Projects	$14,766,727	$16,372,306	$16,617,208	$14,700,800	$16,587,900	$8,963,500	$13,432,200

For the list of standard (lettered) footnotes, see the end of the Capital Outlay section of the budget.

Davis—General—Continued

STATE BUILDING PROGRAM EXPENDITURES	ACTUAL 1965–66	ESTIMATED 1966–67	PROPOSED 1967–68	PROJECTED 1968–69	PROJECTED 1969–70	PROJECTED 1970–71	PROJECTED 1971–72
MINOR PROJECTS[b]							
Animal Science Building—Remodel four rooms into teaching labs by installation of shelving and laboratory benches	–	–	$65,000[2]				
General campus—Modernize chemical fume hoods in Cruess, Haring, Hoagland, Hunt, and Veihmeyer Halls by replacement of baffles and exhaust ducting, and installation of larger capacity fans	–	–	37,500[2]				
Haring Hall—Modify 4 rooms into teaching and research areas and construct 2,400 sq. ft. rodent-proof storage facility for Veterinary Medicine	–	–	50,000[2]				
General campus development—Construct lighted bicycle and pedestrian paths	–	–	30,000[2]				
Wickson Hall—Complete three cold rooms to replace facilities in old field building which is to be demolished	–	$30,000	20,000[2]				
Animal Science Building—Construct undergraduate teaching laboratories and alter rooms to provide faculty office-laboratories for department of zoology	–	50,000					
General campus—Construct 4 small buildings for safe storage of agricultural chemicals and volatile solvents	–	35,000					
North and South Halls—Remodel first and second floors to provide office space for department of rhetoric and office of the dean of students	–	40,000					
Cruess, Animal Science, and Hutchison Halls—Alter laboratories for undergraduate teaching and graduate student research	–	30,000					
Public Safety—Purchase aerial ladder truck to meet the standards of the National Board of Fire Underwriters	$50,000						
Zoology—Provide 2,800 square feet of office and teaching space in relocatable building	42,000						
Animal Science—Alter 6 rooms into laboratories for undergraduate teaching and graduate student research by installation of fume hoods, chemical benches, relocation of utilities, and removal of partitions for department of animal physiology	25,500						
Construct addition to Physical Plant Department Building to provide 6 offices, drafting room, conference room, and work area for clerical staff	25,000						
Robbins Hall—Convert shop and storage room into office-research laboratory and electron microscope laboratory for department of botany	24,500						
Alteration and improvement projects of $20,000 or less	45,300	8,000

Irvine Campus

The Irvine campus is located on 1,501 acres of land, 3 miles inland from Newport Beach and the Pacific Ocean. The campus opened in 1965 with an initial enrollment of 1,600 students. In the fall of 1966, enrollment increased to 2,400.

Irvine is expected to reach its planned maximum enrollment of 27,500 by 1990. Its initial academic organization includes a College of Arts, Letters and Science; a Graduate School of Administration, School of Engineering, and a Graduate Division. Irvine attempts to offer the student an excellent, individualized program of study through such means as sound counseling, pass-fail options, credit by examination, and an array of instructional services. Emphasis will be placed upon development of new uses of television, computers, language laboratories, and other modern electronic and mechanical instruments in instruction and research.

MAJOR PROJECTS [a]

Sewage disposal contract To construct sewage treatment and disposal facilities under a contractual obligation of the University to the Irvine Ranch Water District for the treatment and disposal of sewage from the Irvine campus.	–	–	**$504,000 [C]**
Utilities and site development To prepare working drawings for and construct facilities for the continued development of the campus utility tunnel systems including chilled water, high temperature water, air and gas systems, power, telephone, and signal and control systems. Also included are extensions of water, storm drain, and sanitary sewer systems. Road construction includes the extension of California Avenue, and service roads to new campus buildings. Site development includes grading, paving, lighting, drainage and grounds improvement.	–	–	**3,125,000 [C]**

For the list of standard (lettered) footnotes, see the end of the Capital Outlay section of the budget.

STATE BUILDING PROGRAM EXPENDITURES	ACTUAL 1965–66	ESTIMATED 1966–67	PROPOSED 1967–68	PROJECTED 1968–69	PROJECTED 1969–70	PROJECTED 1970–71	PROJECTED 1971–72
Irvine Campus—Continued							
MAJOR PROJECTS—Continued							
Central plant unit 2	–	–	\$908,000^{C}	\$11,000^{E}			
To prepare working drawings for and construct an addition to the central plant to provide additional boiler and chiller capacity for the central heating and cooling systems serving the main campus buildings. The additional facilities will include a 70,000 pounds-per-hour steam boiler, a 1,750-ton steam-turbine-driven centrifugal chiller, cooling tower, deaerator, pumps, controls, and distribution systems within the central plant building. The equipment will occupy available space within the existing building.							
Fine arts unit 1	–	\$140,000^{W}	2,504,411^{C} 1,495,589^{F}	365,000^{E}			
To construct a 66,945 asf facility for art, drama, music, and dance, including classrooms, laboratories, and offices. 15,000 asf will be in little theatre and recital hall facilities, and 2,250 asf for an art gallery. 452 FTE students will be accommodated in the structure.							
Engineering unit 1	–	187,000^{W} 1,743,000^{F}	4,067,723^{C} 1,532,277^{F}	1,204,000^{E}			
To construct a 97,264 asf building for engineering, mathematics, and a computer laboratory. 362 FTE students will be accommodated in 1970 in engineering and 275 in mathematics. An additional 10,000 asf will be provided from federal sources.							
Library unit 2	–	75,000^{W}	1,057,700^{C} 856,300^{F}	159,000^{E}			
To construct a 53,000 asf addition to library unit 1, with an ultimate capacity for 1,155 readers and 176,000 bound volumes and related collections of other library materials. The combined library units 1 and 2 will contain approximately 103,000 asf.							
Social sciences unit 1	–	–	125,000^{W} 708,500^{F}	3,759,000^{C}	\$550,000^{E}		
To prepare working drawings for a 75,013 asf building to house the social science division, the graduate school of administration, and school of education. An additional 12,000 asf will be requested from federal grant sources to provide research space including that for the public policy research organization. 1,155 FTE students will be accommodated in the building in 1970.							
Residence Hall unit 3—400 students	–	62,100^{1}	1,908,200^{1}				
Residential apartments, step 3—150 units	–	68,100^{1}	2,203,400^{1}				
Residential apartments, step 4—300 units	–	–	125,200^{1}	4,314,700^{1}			
Surface parking, 1967–68—450 cars	–	–	89,200^{1}				
Academic and administrative office unit 1	–	100,000^{W}	–	3,104,000^{C}	325,000^{E}		
Greenhouse unit 2	–	–	–	66,000^{C} 6,000^{E}			
Outdoor physical education facilities, 1967–68	–	–	–	125,000^{C} 862,000^{1}			
Physical sciences unit 1	\$200,500^{W}	5,281,600^{C} 1,000,000^{F}	–	967,000^{E}			
Utilities and site development, 1968–69	–	–	–	3,029,100^{C}			
Natural sciences unit 1—completion	–	–	–	736,800^{C} 280,000^{F}	479,000^{E}		
Alterations to library unit I	–	–	–	260,000^{C} 56,000^{E}			
Biological sciences unit 2	–	–	–	122,900^{W} 1,210,000^{F}	4,053,200^{C}	\$1,059,000^{E}	
Residence hall unit 4—500 students	–	–	–	113,800^{1}	3,581,600^{1}		
Residential apartments step 5—350 units	–	–	–	143,300^{1}	5,038,000^{1}		
Surface parking, 1968–69—660 cars	–	–	–	100,400^{1}			
Sewage disposal contract, 1969–70	–	–	–	–	151,000^{C}		
Utilities and site development, 1969–70	–	–	–	–	1,562,800^{C}		

Social sciences—humanities unit 1—completion	–	–	–	–	248,800 [C]		
					119,000 [E]		
Mathematical sciences unit 1	–	–	–	–	1,713,100 [C]	174,000 [E]	
					370,000 [F]		
Physical sciences unit 2	–	–	–	–	106,800 [W]	3,484,600 [C]	$730,000 [E]
					1,000,000 [F]		
Library Unit 3	–	–	–	–	1,955,600 [C]	198,000 [E]

Surface parking, 1969–70—370 cars	–	–	–	–	44,600 [1]		
Utilities and site development, 1970–71	–	–	–	–	–	2,296,400 [C]	
Central plant unit 3	–	–	–	–	–	701,900 [C]	
						10,000 [E]	
Residence hall unit 6—400 students	–	–	–	–	–	1,970,000 [1]	
Residential apartments, step 7—350 units	–	–	–	–	–	143,000 [1]	5,038,000 [1]
Surface parking, 1970–71—440 cars	–	–	–	–	–	51,600 [1]	
Utilities, 1971–72	–	–	–	–	–	–	1,728,000 [C]
Sewage disposal contract, 1971–72	–	–	–	–	–	–	300,000 [C]
Marine laboratory building	–	–	–	–	–	–	449,300 [C]
Humanities unit 2	–	–	–	–	–	–	2,203,900 [C]
Engineering unit 2	–	–	–	–	–	–	70,900 [W]
560,000 [F]							
Physical education building	–	–	–	–	–	–	138,500 [W]
Corporation yard unit 2	–	–	–	–	–	–	575,100 [C]
Information system center unit 1	–	–	–	–	–	–	1,770,700 [C]
Outdoor physical education facilities, 1971–72	–	–	–	–	–	–	111,000 [C]
Surface parking, 1971–72	–	–	–	–	–	–	117,400 [1]
Utilities and site development, 1966–67	–	1,250,000 [C]					
		18,500 [1]					
Headhouse and greenhouse unit 1	–	192,200 [C]					
		40,800 [E]					
Complete social sciences and humanities unit 1	69,000 [C]						
Equip natural sciences unit 1	200,000 [E]						
	1,000,000 [F]						
Construct and equip utilities and site development, 1965–66	1,301,100 [C]						
	51,700 [E]						
Library unit 1	449,530 [F]						
Construct residence hall unit 2	–	2,831,000 [1]					
Construct residential apartments unit 2	–	1,370,000 [1]					
Equip residential apartments unit 1	150,000 [1]						
Alterations to cafeteria unit 1	43,000 [1]						
Construct surface parking	100,000 [1]						
Totals, Major Projects	$3,564,830	$14,359,300	$21,210,500	$20,995,000	$21,567,200	$19,316,000	$13,792,800
MINOR PROJECTS [b]							
Natural Sciences Unit 1—Extend utilities in laboratories and laboratory service rooms to provide positive pressure air lines, distilled water, vacuum and gas lines for the department of molecular and cell biology; provide 30 gallon/hr still and 700 gallon storage tank; install new water softener to serve still in main mechanical room	–	–	$24,100 [2]				
Natural Sciences Unit 1—Convert laboratory and preparation rooms from dry to wet laboratories for the biological sciences	–	$65,000					
Construct 600 square-foot greenhouse and 160 square-foot headhouse adjacent to Faculty Research Facility Unit 1	$30,000						
Construct equipment and furniture storage area of 7,000 square feet for department of grounds and buildings	27,000

Los Angeles Campus

The Los Angeles campus is located on 411 acres in the Westwood section of Los Angeles. UCLA is nearing its planned maximum enrollment of 27,500 students, with over 1,700 of the total currently enrolled in the Center for the Health Sciences.

Programs at UCLA include undergraduate and graduate studies and research in all of the major arts, letters, and sciences, as well as professional schools in a variety of fields. Emphasis is given to studies in the health sciences, fine arts, languages, and science and engineering fields related to electronics and aerospace technology. There are 71 departments, 14 schools and colleges, a Graduate Division and 24 institutes or centers of research on campus.

STATE BUILDING PROGRAM EXPENDITURES	ACTUAL 1965–66	ESTIMATED 1966–67	PROPOSED 1967–68	PROJECTED 1968–69	PROJECTED 1969–70	PROJECTED 1970–71	PROJECTED 1971–72
MAJOR PROJECTS [a]							
Theater arts unit 2 To equip a building of 40,400 assignable square feet for the motion picture and radio-television activities of the department of theater arts. Construction was funded in the Budget Act of 1965. The building is scheduled to be completed in October 1967.	$2,580,600 [C]	–	$390,000 [E]				
Franz Hall addition, step 2 To complete equipping a building addition of 63,000 assignable square feet, of which 43,000 asf in graduate instruction and research areas provided matching funds for a federal grant to construct and equip an additional 17,000 asf in an adjacent structure. An initial increment of equipment was provided in the Budget Act of 1966. Building completion is scheduled for June 1967.	4,130,049 [C] 1,110,000 [F]	$270,000 [E]	324,000 [E]				
Mathematical sciences addition To equip an addition of 80,000 assignable square feet to the mathematical sciences building to be used for instruction and research in mathematics, astronomy, meteorology, and to house the UCLA computing facility. The building will provide 50,900 asf in offices, 12,300 asf for instructional areas, and 16,800 asf for research laboratories. Construction was funded in the Budget Act of 1965 and by a federal matching grant of $1,000,000 (HEFA Title I). The project is scheduled to be completed in March 1968.	3,153,000 [C] 1,000,000 [F]	–	436,000 [E]				

To construct alterations to the Dickson Art Center to meet needs of the new School of Architecture. 16,000 asf will be provided in offices, class laboratories, demonstration research labs, library and shops.		53,000 [E]					
Old public health building alterations, step 2	–	–	20,000 [W]	$509,000 [C]	$41,000 [E]		
To prepare working drawings for renovation and remodeling of 25,000 asf in the old public health building. 913 FTE students in the departments of French, Classics, and Slavic will be accommodated here after the move of public health to the health sciences complex.							
Residence hall unit 5—800 students	–	–	132,200 [1] [W]	4,204,400 [1] [C]			
Engineering unit 4	–	–	–	134,000 [W]	4,007,000 [C]	$863,000 [E]	
Life sciences unit 3	–	–	–	74,000 [W]	3,218,000 [C]	910,000 [E]	
				4,282,500 [F]			
Service yard expansion, step 2	–	35,000 [W]	–	1,101,000 [C]	18,000 [E]		
College library alterations, step 2	–	–	–	816,000 [C]	85,000 [E]		
Perimeter road completion—east campus	–	–	–	343,100 [C]			
Royce Hall Auditorium alterations, step 1	–	–	–	418,000 [C]	550,000 [E]		
North campus library unit 2	95,600 [W]	–	–	3,143,000 [C]			
Marymount School acquisition	–	500,000 [L]	–	500,000 [L]	400,000 [L]		
Utility tunnel to engineering unit 4	–	–	–	212,500 [C]			
Utilities, 1968–69	–	–	–	233,100 [C]			
Engineering field station utilities and site development, step 1	–	–	–	195,800 [C]			
Humanities building alterations	–	–	–	463,700 [C]			
Westwood plaza site development	–	–	–	367,600 [C]			
West campus site development, step 5	–	–	–	367,900 [1]			
Parking structure E—1882 cars	–	–	–	135,800 [1] [W]	4,069,300 [1] [C]		
Kinsey hall alterations	–	–	–	–	437,300 [C]		
					31,000 [E]		
Physical education buildings alterations	–	–	–	–	521,400 [C]	25,000 [E]

UNIVERSITY OF CALIFORNIA—Continued

STATE BUILDING PROGRAM EXPENDITURES	ACTUAL 1965–66	ESTIMATED 1966–67	PROPOSED 1967–68	PROJECTED 1968–69	PROJECTED 1969–70	PROJECTED 1970–71	PROJECTED 1971–72
Los Angeles Campus—Continued							
MINOR PROJECTS[b]							
General campus—Install approximately 300 feet of new 6 steam main, parallel to existing 8" steam main under Royce Hall southerly from old boiler room	–	–	$30,000[2]				
General campus Rehabilitate absorption refrigeration machines in Life Sciences, Engineering 2, and Graduate School of Business Administration buildings	–	–	50,000[2]				
Dickson Art Center, School of Architecture—Alter basement East and West areas to provide design studios for classes in architecture and urban planning	–	–	56,700[2]				
Moore Hall—Alter six rooms to provide better utilization of space for offices and experimental laboratories, and convert education library into offices and work areas for department of education	–	–	26,500[2]				
Geology Building—Improve laboratory facilities by providing fume hood, benches, counters, sinks, utilities, shelving, and ceiling vent with fan for department of geology	–	–	35,400[2]				
Macgowan Hall—Provide 163 sun screens for light and glare control; construct light traps at auditorium exits, and add mezzanines in two rooms for department of theater arts	–	–	21,700[2]				
Schoenberg Hall—Alter and expand auditorium-classroom lighting control system, parts of which are overloaded and not adequate for present class schedules	–	–	49,100[2]				
Franz Hall addition, step 2—Equipment	–	–	24,571[2]				
Engineering unit 3—Convert rooms 3521 and 3533 to faculty offices for department of engineering	–	$21,746	17,254[2]				
Utilities—Eliminate electrical safety hazard by replacing switchboards and panelboards in various campus buildings, step 1	–	50,000					
Botany Building—Remodel approximately 2,100 assignable square feet of rooms on the fourth floor to provide laboratory facilities for biochemical and physiological research	–	47,700					
Life Sciences Building—Install passenger elevator in existing shaft	–	44,000					
Chemistry Building Remodel chemistry research storeroom to correct unsafe working conditions and provide more efficient use of available area	–	31,100					
Schoenberg Hall—Remodel music library for security protection by installing partitions, shelving, railing, relocating service desk and turnstiles, and extending bookstack balcony	–	35,000					
Women's Physical Education Building—Convert open deck space for use as an instructional-activity center for department of dance	$50,000[1]						
General Campus—Completion of perimeter road east campus. Wyton-Hilgard Avenue reconstruction	50,000[1]						
Life Sciences Building—Remodel rooms to provide graduate-student laboratories for department of bacteriology	40,000[1]						
General Campus—Increase capacity of department of water and power 4,800-volt feeders to main switchboard	25,000[1]						
General Campus Lighting—Improve lighting in classrooms and offices of various buildings	49,000[1]						
Chemistry-Geology Building—Replace deteriorated steam and vacuum lines to the laboratory benches in the Chemistry-Geology Building	9,700						
	12,500[1]						
Haines Hall—Alter 9 rooms and install temperature and humidity control—ethnic collection	50,000[1]						
Alteration and improvement projects of $20,000 or less	77,500[1]	–	24,291[2]				
(Number of projects for budget year)	–	–	(2)

Los Angeles Health Sciences

MAJOR PROJECTS[a]

School of public health building	$1,513,100[C]	–	$245,000[E]				
To equip a wing of approximately 70,000 asf in the center for the Health Sciences. Teaching and research facilities will be provided for 547 FTE students, 50 faculty, and 90 postdoctoral students in the school of public health. Provided will be 47,500 asf of research laboratory and office space; 6,500 asf of classroom, class laboratory, and seminar room space; 6,000 asf of vivarium space; 2,500 asf of administrative space; and 3,500 asf of central supply and related spaces. Approximately 4,000 asf will contain offices, laboratories, and supporting facilities for environmental health and safety. The project is scheduled to be completed in February 1968.							
Hospital and clinics unit 1 alterations, step 2	–	$292,000[F]	1,291,200 1,475,800[F] 375,200[1]	$1,211,000[C] 1,211,000[F]			
To prepare working drawings for and construct alterations to the hospital and clinics unit 1 to permit the full development and integration of existing and ancillary support facilities with those in the new structures. The altered areas will accommodate properly the projected expansion of various programs and activities, including medical classes of 128 students each, faculty, hospital beds, and outpatient clinics. The project includes such major items as remodeling for expansion of surgeries and other hospital activities being relocated throughout the existing structure, air-conditioning the existing structure, and converting the existing pneumatic tube system to be compatible with that in the new structure. Federal matching funds are proposed.							
Basic sciences unit 1 alterations	182,245[W]	1,893,311[C]	746,365[F]				
To complete funding of the alterations to the basic sciences unit 1 related to the construction of basic sciences unit 2, and the expansion of the medical class size to 128 students. Costs involved in the latter phases of construction of this project were segregated from the earlier appropriation to permit later funding and federal funds have been applied for to cover such costs.							
Hospital and clinics unit 2B, step 2	1,376,800[C] 1,580,000[1]	–	–	1,153,800[E]			
Health sciences plaza—west site development	–	–	–	98,700[C]			
Health sciences interim surface parking—966 cars	–	–	–	375,300[1]			
Center for postgraduate studies	–	–	–	–	$1,995,700[F]	$71,400[1]	
School of dentistry building—completion of unfinished space	–	–	–	–	–	232,300[C] 31,200[E] 313,300[F]	
Marion Davies wing- expansion and completion of unfinished space	–	–	–	–	–	–	$1,572,000[1]

Riverside Campus

The Riverside campus is located on 1,069 acres approximately 3 miles east of the City of Riverside. In academic year 1966–67, average enrollment will exceed 5,200. By 1970–71, the average enrollment is expected to increase to 7,500.

Established originally as a Citrus Experimental Station, this campus has been under development since 1959 as a general campus of the University. Riverside now has its own Graduate Division and organized research units. As it grows, Riverside will continue to be the University's main headquarters for agricultural research and instruction in Southern California. Graduate programs will be developed vigorously, but continued strong attention will be given to undergraduate and professional instruction as well.

STATE BUILDING PROGRAM EXPENDITURES	ACTUAL 1965–66	ESTIMATED 1966–67	PROPOSED 1967–68	PROJECTED 1968–69	PROJECTED 1969–70	PROJECTED 1970–71	PROJECTED 1971–72
MAJOR PROJECTS a							
Physical education building alterations	–	–	$182,000 C 15,000 E				
To prepare working drawings for, construct, and equip alterations to the physical education building. The areas to be altered are presently occupied by the bookstore, with 3,000 asf, and the psychology department, with 5,000 asf. The bookstore is being moved to the new student center and psychology to life sciences unit 2, permitting physical education to expand into the areas.							

			21,000 –				
To prepare working drawings for, construct, and equip alterations to life sciences unit 1. The project will permit adaptation of unit 1 to unit 2 so that the combined facilities may function as one. The project includes remodeling of laboratories, installing of additional electrical and other utilities, installing a distilled water system and related improvements.

San Diego Campus

The San Diego campus is located on 1,096 acres of land, approximately 13 miles north of the City of San Diego. During academic year 1966–67, an average annual enrollment of over 2,000 students is anticipated. By 1970–71, it is expected that average enrollment will have increased to over 5,000.

San Diego was established as a general campus of the University in 1958. The academic plan envisions a campus based upon the college concept. The colleges will be organized and designed, academically and physically, so that it will be possible for a student to obtain the majority of his total university experience within his own college. Each college will include both undergraduate and graduate students and will vary from the others in academic emphasis.

Revelle College, the first college, has neared its planned maximum enrollment of 2,300 students. Muir College, the second college, is scheduled to open in the fall of 1967.

MAJOR PROJECTS [a]

Physical education building and playing fields—**for cluster 1** To equip a physical education building of 39,000 assignable square feet, including athletic equipment units for use of 5 acres of athletic fields. Construction was provided for in the Budget Act of 1966. Associated with the project is construction of a natatorium funded from incidental fees. The project is scheduled for completion in February 1968.	\$62,300 [W]	\$1,622,900 [C] 325,000 [1]	\$64,000 [E]	
Central emergency power generation equipment and central control system To prepare working drawings for and construct central emergency power generation equipment and a central control system. The power generation equipment includes a 1,000 kw steam-turbine-driven alternating current generator and necessary switchgear. The central control system will consist of specialized equipment for monitoring and controlling the operation of mechanical, electrical, alarm, and other special systems in all buildings served by the central utilities building.	–	–	474,000 [C]	
Utilities and site development To prepare working drawings and construct facilities for the continuation of the orderly program of utility and site development, including extension of chilled and high temperature water, gas, signal, electrical, water main, storm drain, and sanitary sewer systems. Site development includes the initial 2 lanes of a segment of main campus arterial road, the extension of service roads in the Revelle College area, and planting, erosion control and irrigation.	–	–	450,000 [C]	
Second college—on-site utilities and site improvement To prepare working drawings for and construct utilities and site improvements to the sites of the buildings within the second college, including chilled and high temperature water, gas, signal, electrical, water main, storm drain, and sanitary sewer systems, and an access road.	–	–	430,000 [C]	
Second college—Building 2B To construct a 71,223 asf building 44,434 asf of which is to be funded from state funds and a HEFA-I grant and 27,000 asf of which will be financed by a National Institute of Health grant. The project will provide facilities for the biology and undergraduate science programs of the second college. Space will also be provided for the college's administrative functions. The capacity of the project is 337 FTE students.	–	119,000 [W] 2,432,000 [F]	2,753,363 [C] 291,637 [F]	\$667,000 [E]

For the list of standard (lettered) footnotes, see the end of the Capital Outlay section of the budget.

UNIVERSITY OF CALIFORNIA—Continued

San Diego Campus—Continued

STATE BUILDING PROGRAM EXPENDITURES	ACTUAL 1965–66	ESTIMATED 1966–67	PROPOSED 1967–68	PROJECTED 1968–69	PROJECTED 1969–70	PROJECTED 1970–71	PROJECTED 1971–72
MAJOR PROJECTS—Continued							
Second college—Building 2C	–	$109,000 W 1,250,500 F	$2,603,592 C 248,408 F	$348,000 E			
To construct a 61,527 asf building of which 45,130 will be funded from state and HEFA-I grant sources, and 17,875 asf will be from other federal grant funds. The project will provide space for the psychology and linguistics programs of the second college. The 17,875 asf will provide facilities for graduate instruction and research, part of which will be for the Institute for Human Information Processing. The capacity of the state-funded portion of the project will be 502 FTE students.							
Second college—Building 2E—residence halls for 600 students, food facilities, student services, and instructional areas	-	6,600 W 105,400 1 W	200,000 C 2,826,600 1 C	19,000 E			
Nonstate funds are being requested for construction of residence halls, food facilities, and student services for the second college. 4,500 asf of instructional area in the building is proposed for state funds. It will provide classroom and seminar space, and music listening and practice rooms, have capacity for 48 FTE students.							
Central University library building, step 1	–	146,200 W	4,716,000 C	330,000 E			
To construct a 110,000 asf central library building initially to meet the general campus library needs. Eventually the building will serve as the graduate humanities and social science library for the entire campus, as well as for 30 percent of the undergraduates. This project will include 802 reading stations, stacks for 525,000 bound volumes and related collections of other library material, library administrative and processing facilities, and 25,000 asf of temporary assignment to academic departments, with a capacity of 269 FTE students.							
Revelle College—convert areas in Building B for changed occupancy, step 3	–	–	133,000 C				
To prepare working drawings for and construct alterations in Building B of Revelle College for housing of permanent occupants and for expansion of temporary departments. The project provides for growth of chemistry (3,450 asf), psychology (920 asf) and electrophysics (2,810 asf).							
Second college—Building 2D	–	–	100,000 W	2,400,000 C	$288,000 E		
To prepare working drawings for a 51,475 asf building to house the second college's departments of anthropology, sociology, literature, and history. A lecture hall and 20 classrooms are included. The total capacity of the project is 927 FTE students.							
SIO—research support shop	–	–	245,400 F				
Revelle College—provost residence	–	–	142,100 1				
Second college—parking, 1967–68—400 cars	–	–	69,200 1				
Second college—Building 2A	$125,000 W 1,868,176 F	3,757,800 C	–	780,000 E			
Utilities and site development, 1968–69	–	–	–	1,163,900 C			
Acquire and connect existing city utility lines	–	–	–	139,000 C			
Revelle College—conversion of building systems to central control	–	–	–	198,500 C			
Revelle College—convert areas in Building B for changed occupancy, step 4	–	–	–	360,300 C			
Cluster—fine arts building	–	–	–	129,900 W	3,866,000 C 63,000 1	$400,000 E

MAJOR PROJECTS [a]							
Basic science building	$4,452,273 [C] 1,560,000 [F]	–	$643,000 [E]	$541,600 [E]			
To provide an initial increment of equipment for a building of 190,434 assignable square feet, containing teaching laboratories, research laboratories, animal facilities, a library, administrative offices, student services, educational resources, lecture rooms, technical shops, and general services for the first two years of the medical school program at San Diego. Working drawings and construction were provided in the Budget Acts of 1964 and 1965, respectively. Federal grants were received in 1964 and 1965 to assist funding. The building is scheduled to be completed in September, 1968.							

Addition to central utilities building, step 1	–	$90,000	[illegible]				
To construct an 11,520 square foot addition to the central utilities building and additional plant capacity including two 50,000 lb.-per-hour steam boilers, one 2,250 for steam driver centrifugal water chiller, cooling tower, heat exchanger, piping and controls.

San Francisco Medical

The San Francisco Medical Center is located on 98 acres on the slopes of Mt. Sutro in the center of the city. During academic year 1966–67, an average enrollment of 2,243 is anticipated. By 1970–71, average enrollment is expected to increase to more than 2,500.

The Medical Center includes professional schools of dentistry, medicine, nursing, and pharmacy. It is one of the nation's major medical centers and the University's northern California center for research and training in the health sciences.

Because of the steep slope of the terrain, only about 16 of the total 98 acres is suitable for major physical development.

STATE BUILDING PROGRAM EXPENDITURES	ACTUAL 1965–66	ESTIMATED 1966–67	PROPOSED 1967–68	PROJECTED 1968–69	PROJECTED 1969–70	PROJECTED 1970–71	PROJECTED 1971–72
MAJOR PROJECTS [a]							
Clinics expansion To provide funds in addition to those appropriated by the Budget Act of 1962 to construct a 108,200 assignable square foot medical clinics building to accommodate increased medical classes of 128 students each and related paramedical, graduate, intern-resident, and clinical fellow training programs. Site acquisition problems delayed the project in its original form, and trends in medical education and patient care have indicated the need for increases in project scope. Federal matching funds will be sought to assist construction.	–	–	$1,059,000 C 5,220,000 F	–	$370,000 E 370,000 F

Santa Barbara Campus

The Santa Barbara campus is located on 611 acres on a promontory at Goleta Point, approximately 10 miles west of the City of Santa Barbara. During academic year 1966–67, Santa Barbara will have an average enrollment of over 11,000 students. By 1970–71, the average enrollment is expected to increase to 14,250.

Santa Barbara is a general campus of the University. In addition to a College of Letters and Science, the campus has Schools of Education and Engineering, each with participation in the Graduate Division.

Santa Barbara is headquarters for the University Education Abroad Program, coordinating students' visits to several universities in foreign countries.

STATE BUILDING PROGRAM EXPENDITURES	ACTUAL 1965–66	ESTIMATED 1966–67	PROPOSED 1967–68	PROJECTED 1968–69	PROJECTED 1969–70	PROJECTED 1970–71	PROJECTED 1971–72
MAJOR PROJECTS [a]							
Biological sciences unit 2	$152,400 [W]	$3,913,800 [C] 1,000,000 [F]	$900,000 [E]	$195,000 [E]			
To equip a building of 72,511 assignable square feet, containing 47,491 asf for the biological sciences, 9,597 asf for a vivarium, and 15,423 asf for the institute of environmental stress. The vivarium will function as a centralized supplier of experimental animals for biological sciences, psychology, home economics, physical education, and for the institute of experimental stress, and will be considered to be an extension of each department it serves. The institute of environmental stress will conduct studies in physiological stress tolerances of man, which involves interdisciplinary research by physiologists, anthropologists, psychologists, nutritionists, and sociologists. Construction funds were provided in the Budget Act of 1966 and by a HEFA-I grant. The building is scheduled to be occupied in Fall, 1968, with a capacity of 470 FTE students.							
Music unit 2	71,200 [W] 30,000 [1]	1,295,067 [C] 765,933 [F]	147,000 [E]	77,000 [E]			
To equip a building of 37,300 assignable square feet, with 16,100 asf for the music department, 16,100 asf for the arts branch library, and 5,100 asf for general service areas, with a capacity of 249 FTE students. Construction was provided for in the Budget Act of 1966 and by a HEFA-I grant. The building is scheduled to be completed in 1968. Provided will be a 2-story complex, located south of and contiguous to the existing music building. It will consist of 2 major elements, a western portion containing the arts branch library, providing stack and seating areas for arts, dramatic arts and music, as well as listening rooms; and an eastern portion which will include studio offices, departmental administration offices, practice rooms, a composer's laboratory, and a combination lecture-recital hall.							
Classroom and Office Unit 4	121,900 [W]	2,819,300 [C] 1,000,000 [F]	262,000 [E]	79,000 [E]			
To equip a building of 76,900 assignable square feet of classrooms, seminar rooms, generalized departmental areas, offices, conference rooms, and storage areas, to house social science departments and related institutes. Construction was provided for in the Budget Act of 1966 and by a HEFA-I grant. The building is scheduled to be completed in 1968, and will house the departments of geography, history, philosophy, political science, sociology, research institutes including the phonetics research laboratory; and will provide departmental administrative areas, classrooms, seminar rooms, and minimal areas for audiovisual, educational television, and photographic activities. The total capacity of the building will be 2,015 FTE students.							
Utilities and site development	–	–	1,750,000 [C]				
To prepare working drawings and construct facilities for the continuation of the orderly program of utility and site development, including extension of electrical, gas, water, storm drain and sanitary sewer systems. Also included is a water pressure booster station. Site development includes							

the extension of University Drive, service roads to new buildings in undeveloped campus areas, walks and bicycle ways, and the first increment of fill for the northwest area of the campus.							
South Hall addition	–	–	133,000[W]	2,637,136[C]	$418,300[E]		
To prepare working drawings for a 77,000 asf addition to South Hall which will provide facilities for mathematics, languages and literature, creative studies, anthropology, and social sciences. The capacity of the project will be 2,733 FTE students.			1,348,964[F]				
Speech and dramatic arts addition	–	–	636,800[C]	113,600[E]			
To prepare working drawings for and construct a 16,000 asf addition to the speech and dramatic arts building. 10,000 asf will be a lecture room-practice stage, 1,000 asf in academic offices and department of speech, and 5,000 for department of dance and related facilities. 213 FTE students will be accommodated in the building.			479,200[F]				
Residential apartments, step 2—300 units	–	155,000[1][W]	4,747,900[1][C]				
Commissary	–	31,600[1][W]	996,800[1][C]				
Residential apartments, step 3—300 units	–	–	155,000[1][W]	4,747,900[1][C]			
Surface parking—635 cars	–	–	186,500[1]				
Engineering unit 2	–	–	–	142,000[W]	4,076,000[C]	$852,000[E]	
Replace physical education, physical activities, and military sciences facilities	–	–	–	1,950,400[C]	169,600[E]		
Land acquisition	–	–	–	1,107,500[L]	1,373,300[L]	1,306,850[L]	$1,240,400[L]
Administration Unit 2	–	–	–	130,000[W]	3,932,000[C]	300,000[E]	
Utilities and site development, 1968–69	–	–	–	2,872,700[C]			
Physics unit 1	138,600[W]	3,296,000[C]	–	977,000[E]			
		1,000,000[F]					
Biological sciences unit 1 alterations	–	–	–	201,200[C]			
				115,000[E]			
Psychology unit 2	–	–	–	145,100[W]	4,407,500[C]	924,500[E]	
College of creative studies	–	–	–	55,900[W]	1,664,800[C]	130,500[E]	
				55,000[1]	1,706,800[1]

Santa Cruz Campus

The Santa Cruz campus is located on 2,001 acres of land immediately adjacent to the City of Santa Cruz. During academic year 1966–67, the campus will have an average enrollment of nearly 1,300. By 1995, Santa Cruz will have reached its planned maximum enrollment of 27,500.

The Santa Cruz campus proposes to combine learning and living, to encourage close student-teacher relationships and to provide a mode of future growth that will retain a small campus atmosphere. The primary tool which is being and will be used to accomplish these goals is the residential college, wherein the majority of students will live, dine and receive a significant portion of their course instruction. The first of the residential colleges opened in the fall of 1965 and the second in the fall of 1966. Current plans call for the opening of one such college each year.

In 1967, Santa Cruz is scheduled to initiate graduate and professional programs, to include engineering, natural resources, business and landscape architecture. The Lick Observatory, transferred to the campus in 1965, will provide graduate instruction in astronomical research.

MAJOR PROJECTS [a]

Fine arts and communication building	$49,400 [W]	$1,348,700 [C]	$295,000 [E]			
To equip a building of 22,515 assignable square feet, with 10,425 asf for central television, audio-visual, and **teaching-aid facilities**; 2,440 asf for the central computer and data processing center; 2,280 for the campus telephone facilities; and 7,370 asf for interim class laboratories and music practice rooms for instruction in art, music, and drama. Construction was funded in the Budget Act of 1966. Building completion is scheduled for March, 1968.						
Utilities and site development	–		1,175,000 [C]			
To prepare working drawings for and construct utilities and site development including the extension of electrical, gas, water, storm drain and sanitary sewer systems. Also included is installation of TV transmission cable in existing conduit. Site development includes roads, paths and erosion control.						
Engineering unit 1	–	133,300 [W]	2,732,000 [C] 1,249,000 [F]	$833,400 [E]		
To construct a building of 76,000 asf to provide instructional, research, and administrative facilities for the School of Engineering. The school will supplement preparatory courses given in the colleges and will admit students at the junior level, 125 being scheduled for 1967 and being increased to 300 by 1970. The building will have a capacity of 380 FTE students.						
Performing arts building	–	–	80,000 [W] 908,300 [F]	1,346,700 [C]	$237,300 [E]	
To prepare working drawings for a building of 41,710 asf with a capacity of 381 FTE students to house the departments of music, visual arts, and drama. A little theatre is included in the project.						
Alterations to existing facilities	–	–	113,500 [C] 4,500 [E]			
To prepare working drawings for, construct, and equip alterations to spaces vacated by functions moving to new facilities. In Natural Science Unit 1 small laboratories will be converted to larger areas by removal of partition and related changes. Non-laboratory functions are to move to other quarters requiring equipping of such vacated areas.						
College No. 5	–		26,000 [W] 4,700,300 [1]	714,000 [C]	78,500 [E]	
To prepare working drawings for academic facilities in College 5. The total area of the project is 111,103 asf with 14,060 of academic space. College 5 will have a fine arts emphasis. The state-funded portion of the project will provide classrooms, music listening and practice rooms, seminar rooms, and academic offices.						
Surface parking—350 cars	–	–	97,800 [1]			
Social sciences unit 1	–	–	–	79,000 [W]	2,233,100 [C]	$235,000 [E]
College No. 6	–	–	–	26,000 [W] 88,200 [1]	685,600 [C] 3,437,800 [1]	72,400 [E]
Physical education facilities	–	–	–	193,900 [C]		
Natural sciences unit 2	104,000 [W]	2,276,100 [C] 1,000,000 [F]	–	725,500 [E]

Hastings							
Hastings College of Law was established by an act of the legislature in 1878 which provided for its affiliation with the University. Located near the Civic Center in San Francisco, the school prepares the student by the case-book method and grants the Bachelor of Laws degree in three years of work. Enrollment at present is 1,012 with a maximum of 1,200 to be maintained upon completion of additional facilities.							
MAJOR PROJECTS [a]							
Hastings College of the Law addition To construct a 38,416 asf addition to the existing building. The project includes expansion of: the library, classrooms, offices, and storage and service facilities. Hastings presently has an enrollment double that for which the existing building was designed. This project will provide facilities for its maximum enrollment of 1,200 students. A HEFA Title II grant has been received to assist in construction of the addition.	$676,465 [F]	$95,000 [C]	$1,600,000 [C]	$175,000 [E]			
Alterations to Hastings College of the Law Building To prepare working drawings for alterations to 13,292 asf in the existing building. The remodeled areas will provide for expansion of administrative offices, offices services, and eating and locker facilities. Alterations must also be made in those areas where corridor connections are made with the new addition. A HEFA Title II grant has been received to assist in the alterations.	83,333 [F]	–	12,000 [W]	201,600 [C] 18,000 [E]

California College of Medicine

By agreement signed March 31, 1965, the California College of Medicine located in Los Angeles became an affiliate of the University. It is an integral medical department of the University offering a 4-year course leading to the M.D. degree.

Basic science and clinical training are given, including research. The college is located on 7 acres adjacent to the Los Angeles County Hospital, with an enrollment of 317 students, with an additional 343 interns in residence. Plans are to establish programs providing graduate training leading to the M.S. and Ph.D. degrees in medical research.

MAJOR PROJECTS[a]

Medical sciences building	–	$173,000[W]	–	$4,613,000[C] 8,622,600[F]	$900,000[E]
Equip existing laboratory facilities for teaching	–	200,000[E]			
Construct improvement of facilities to accommodate interim operation	–	300,000[C]			
Totals, Major Projects	–	$673,500	–	$13,235,600	$900,000

MINOR PROJECTS[b]

General campus—Provide prefabricated building addition for animal quarters, with truck unloading facilities. Service areas will provide storage for bedding, food and equipment, and special refrigerated storage; also cage, rack washing and sterilizing facilities, including space for storage of clean cages	–	–	$40,000[2]
Livingston Research Center—Install doors and partitions as needed; convert various dry laboratories to wet laboratories, including installation of electrical, plumbing facilities, cabinets and sinks; install cold room in existing elevator shaft; increase capacity of air conditioning equipment	–	–	25,000[2]

For the list of standard (lettered) footnotes, see the end of the Capital Outlay section of the budget.

SUMMARY

The California State College System consists of 19 campuses including the new sites for Dominguez Hills and Kern, as well as the separation, October 23, 1966, of the 2 California State Polytechnic College campuses, San Luis Obispo, and Kellogg-Voorhis at Pomona.

It is anticipated that in the 1967–68 fiscal year 120,004 full-time equivalent students (FTE), 8 a.m. to 5 p.m., will be enrolled in the system.

The primary function of the state colleges is the provision of instruction for undergraduate students and graduate students, through the master's degree, in the liberal arts and sciences, in applied fields and in professions, including the teaching profession. The doctoral degree is being offered jointly between San Diego State and the University at San Diego and other joint doctoral programs are being studied. Faculty research is authorized to the extent that it is consistent with the primary function of the state colleges and the facilities provided for that function.

The Board of Trustees of the California State Colleges was created by Chapter 49, Statutes of 1960, 1st Extraordinary Session, and on July 1, 1961, took over the powers, duties and functions previously vested in the State Board of Education and the Director of Education relative to the administration of the state colleges. One of the major functions of this board of trustees and its administrative staff is the planning of the physical facilities necessary to accommodate the rapidly increasing number of students in an orderly manner. This 1967–68 Capital Outlay Budget is a continuing step in that plan.

ENROLLMENTS

The construction programs for the 18 existing state colleges plus the new college to be established in Kern County are based on a projected enrollment of 138,806 annual full-time equivalent (FTE) students, 8 a.m. to 5 p.m. in 1969–70. This enrollment estimate is an increase of 8,824 over the students (FTE) anticipated in 1968–69. In California, enrollments in the state colleges during the next several years are estimated to increase at a rate many times that of the growth of the population as a whole.

These enrollments have been estimated from statistics based on prior experience of the progression of students from high schools to the colleges and through the various collegiate levels. The state college data includes a compilation of the numbers of students by county of origin in order to allow a reasonably accurate distribution of students by college or university age. The projection also assumes a continual increase in the percentage of population attending college in tax-supported institutions.

The construction of facilities at each college is related to the proportionate distribution (or "mix") of the enrollment by division level (lower, upper and graduate).

The enrollment figures used in projecting the 5-year construction program reflect diversion of lower division students as proposed by the "Master Plan for Higher Education in California."

The table on the following page outlines estimated enrollments of students in the state colleges from 1966–67 through 1973–74.

For the list of standard (lettered) footnotes, see the end of the Capital Outlay section of the budget.

[1] Anticipated federal reimbursements (HEFA) of $16,297,337 not included in this total but carried in detail of budget and summary.

[3] Project funding subject to receipt of federal grants as authorized by Item 409, Budget Act of 1966.

[4] If federal grant funds become available, these amounts will be reported as expenditures in subsequent budgets.

Stanislaus	546	764	991	1,228	1,455	1,682	1,909	2,137
All State Colleges	111,177	120,004	129,982	138,806	147,599	156,536	165,010	173,208

Adjustments for the impact of new colleges have been made at those existing colleges which seem most likely to be affected by the proximity of the presently authorized new institutions. Where colleges are approaching their master planning limits, the projections are adjusted to reflect this limit. This affects the estimates for the state colleges located at San Francisco and San Jose.

Full-time equivalents (FTE) 8 a.m. to 5 p.m. are used in determining the need for capacity in instructional facilities. Full-time equivalents are calculated by dividing by 15 the aggregate number of student credit hours earned by students enrolled in classes from 8 a.m. to 5 p.m. for a given term. Regular enrollment, which is the number of students enrolled for more than 6 units, is used in determining the need for cafeteria seating. Office capacity is based on needs developed by the application of existing staffing criteria to the various enrollment bases.

Diversion

On December 18, 1959, the State Board of Education, then the governing board for the California State Colleges, approved the recommendations regarding diversion included in the report entitled, "A Master Plan For Higher Education In California, 1960–1975." Among the recommendations approved were a number which had to do with the selection and the retention of students; and they are as follows:

their revised admission standards which should meet the master plan limitation of drawing from the upper 33⅓ percent of all public high school graduates in California.

The diversion of students which was to be brought about by the establishment of a 60–40 relationship between upper and lower division by 1975 has made excellent progress to date. From 1960, to the fall of 1965 lower division enrollment as a percentage of the total undergraduate enrollment has been reduced some 6 percent to a new percentage level of 45.9%.

Because of this situation in December 1963 the staff of the Coordinating Council for Higher Education submitted a report to the council which made the following recommendations:

1. "With the advice and assistance of the council, the governing boards of the University of California and the California State Colleges should adopt as a goal an undergraduate distribution percentage ratio of 40 percent lower division to 60 percent upper division in the 4-year colleges to be achieved by 1975."
2. "Diversion procedures should be developed by the University of California and the California State Colleges with the advice and assistance of the Committee on Student Admissions, Retention, and Transfer and the council staff so that the 50,000 student goal of the master plan can be achieved by 1975 taking into ac-

division, the state colleges select first-time freshmen from the top one-third ($33\frac{1}{3}\%$) and the university from the top one-eighth ($12\frac{1}{2}\%$) of all graduates of California public high schools.''

2. ''For both the state colleges and the university, freshmen admissions through special procedures outside the basic requirements of recommending units of high school work and/or aptitude tests (such as specials and exceptions to the rule) be limited to 2 percent of all freshmen admissions in each system for a given year. Furthermore, that all 'limited' students be required to meet regular admission standards.''
3. '' 'The University of California emphasizes policies leading to the reduction of lower division enrollments in relation to those of the upper and graduate divisions, and that state colleges pursue policies which will have a similar effect.' The percentage of graduates in the lower division of both the state colleges and the university to be gradually decreased 10 percentage points below that existing in 1960 (estimated to be 51 percent in both segments) by 1975. It is further recommended that the determination of the means by which this recommendation can best be carried out is the responsibility of the governing boards.''

    A footnote to recommendation 3 above stated in addition that: ''It is estimated that this recommendation would result in the transfer of some 40,000 lower division students to the junior colleges by 1975. It is expected that recommendations to select state college students from the upper 33 percent of all public high school graduates and the university from the upper $12\frac{1}{2}$ percent, together with the recommendation that all 'limited' students be required to meet regular admission requirements, will make up another 10,000.''

Since the initiation of the master plan in 1960, the Trustees of the California State Colleges approved a partial revision of their admission standards in 1963 and in January of 1965 adopted the final phase of

between lower division and upper division enrollments.''

3. ''An intermediate goal of 46–54 percent distribution of undergraduate students can be achieved by both segments by the fall of 1969 and the resultant diversion should be reflected in the 1964–67 state appropriations for capital outlay for the California State Colleges and the University of California.''

The recommendations noted above were adopted by the coordinating council in December 1963. As a result of these recommendations this 5-year building program has been developed considering the diversion principles which have been set forth above. The enrollment projections included in Table I reflect the trustees estimate of the effect of diversion principles in the state colleges—and attain the 60–40 relationship by 1975.

Full-year Operation

Pursuant to the recommendations of the Coordinating Council for Higher Education the Trustees of the California State Colleges have adopted policies which will lead ultimately to placing all the colleges on year-round operation. The first 3 colleges to attempt year-round operation are the California State Colleges at Hayward, California State Polytechnic College at San Luis Obispo, and California State Polytechnic College Kellogg Voorhis. The college at Hayward began operation in the summer of 1965 and the two Polytechnic Colleges in the summer of 1966 with the balance of colleges to follow in accordance with a published schedule. Los Angeles State College is scheduled to initiate year round operation in June of 1967.

The effect of year-round operation on the colleges' 5-year building program has been shown in Table IV. The principal effect has been to lessen the need for additional new facilities. This has been expressed in this program by the deferral of projects and the reduction in size of those that remain. In this way it is anticipated that the state will realize significant savings in the capital outlay program.

CAPACITY

The basic unit used to determine existing FTE capacity is the student station. Stations are weighted depending upon whether they are in lecture rooms, activity rooms, or laboratories. A room is categorized by its primary use. A student station count is assigned the room based on accepted measurements and weighted, based upon the time of required attendance per unit of student credit in each type of classroom. In this manner, an FTE capacity is derived from the student station count.

Future space needs are determined by comparing existing FTE capacity with projected FTE enrollments. Needed FTE capacity is then translated into square foot requirements by means of calculations which consider utilization rates, and square foot allocations per station, as set forth by the Coordinating Council of Higher Education publication entitled, ''Space & Utilization Standards, California Public Higher Education,'' adopted September 27, 1966.

For the list of standard (lettered) footnotes, **see the end of the Capital Outlay section of the budget.**

[1] Does not include earned FTE students.

[2] Began year-round schedule in 1965.

* First year on year-round schedule.

STATE COLLEGES—Continued

LINE	STATE BUILDING PROGRAM EXPENDITURES	ACTUAL 1965–66	ESTIMATED 1966–67	PROPOSED 1967–68	PROJECTED 1968–69	PROJECTED 1969–70	PROJECTED 1970–71	PROJECTED 1971–72

CAPACITY—Continued

The target year in which computed capacity is considered is two years after the date of providing construction funds, therefore projects funded for construction in the 1967–68 Budget will provide capacity for the 1969–70 year.

The total existing and funded capacity for 1968–69 is programmed at 119,633 (FTE) students, which is shown in Table II below.

Table II

Summary of Capacity—Existing and Funded FTE (8–5)—Available in 1968–69

In accordance with results of studies of campus master plans conducted by the trustees since their organization in 1961, the following interim master plan enrollments are set up for purposes of facilities planning. Table III shows the main campus acreage at each of the schools and the current master planning limit as established by the Trustees of the California State Colleges.

Table III

Master Plan Maximum Enrollments for State Colleges Annual Full-time Equivalent Students (FTE)

College	*Main campus acreage*	*Interim master plan enrollments*
Chico	90	10,000
Fresno	243	20,000
Fullerton	235	20,000
Hayward	354	15,000
Humboldt	113	5,000
Long Beach	320	20,000
Los Angeles	116	16,800
Dominguez Hills	356	20,000
Sacramento	268	20,000
San Bernardino	429	20,000
San Diego	268	20,000
San Fernando Valley	281	20,000
San Francisco	99	16,000
San Jose	127	17,000
Sonoma	215	12,000
Stanislaus	220	12,000
California State Polytechnic College:		
Kellogg-Voorhis Campus	180	20,000
San Luis Obispo Campus	374	12,000
Kern	370	12,000
Total	–	307,800

The great problem facing the state colleges in the future is one of numbers. In 1966–67 the full-time equivalent students (FTE) 8 a.m. to 5 p.m. total 111,177. By 1973–74, capacity will be needed for 173,208 students (FTE), an increase of 62,031 students (FTE) or 55.8 percent. Projects either in existence or funded for construction will produce a capacity of 119,633 students in 1968–69. Those projects included in the 1967–68 Governor's Budget for construction are scheduled to produce additional capacity of 9,410 (FTE), this coupled with statewide internal adjustment produce a total capacity of 129,043 (FTE) for a student body of 138,806 students (FTE) in 1969–70. Table IV below provides the basis of comparison between projected enrollments and construction projects contained in this five-year building program.

Table IV

Comparison of Projected Annual Full-time Equivalent Enrollments of Regular Students Attending 8–5 O'Clock With Existing and Funded Capacities of State College Campuses and the Capacity That Will Be Provided by the Projects in the Five-year Program

PROJECTS PROPOSED FOR FINANCING IN 1967–68

The total 1967–68 Capital Outlay Program proposed for the State College system is $78,051,903. Of this amount $60,369,000 is to be financed from the State Construction Program Fund, $1,385,566 from the Capital Outlay Fund for Public Higher Education, for minor Capital Outlay projects and the balance of $16,297,337 is to be covered by Federal Higher Education Facilities Act grants.

Science and Engineering Facilities

The importance of science and engineering programs has resulted in an expanded enrollment in these areas, necessitating a continuing expansion of existing facilities. Included in this budget to meet these expanded enrollments are 9 projects (Chico, Dominguez Hills, Fresno, Fullerton, Humboldt, Long Beach and Los Angeles) totaling $22,838,000 which is 29.3 percent of the new Capital Outlay program.

Physical Education Facilities

There are 6 projects for construction or working drawings in this budget to provide physical education facilities. These projects total $1,330,000 which is 1.7 percent of the new Capital Outlay program. They are located at Dominguez Hills, Humboldt and Cal Poly, SLO.

Music, Speech, and Drama Facilities

Six projects are included for music, speech and drama facilities in the amount of $4,842,000 which is 6.2 percent of the new Capital Outlay program. These projects are for Hayward, Long Beach, Sacramento, San Francisco, Sonoma and Stanislaus.

Other Instructional Facilities

A total of $23,863,500 or 30.6 percent of the new Capital Outlay program is proposed for other instructional facilities. These projects located on separate campuses are libraries and classroom buildings to provide lecture, activity and laboratory capacity required to serve increasing enrollments.

Site Development

Nineteen projects at 17 state colleges totaling $8,112,000 or 10.4 percent of the new Capital Outlay program are for site development. These projects provide for utilities, roads, walks, grading, drainage and some landscaping.

Land Acquisition

Five projects totaling $3,945,000 plus an opportunity purchase fund are included to purchase land for future construction at Chico, Humboldt, Los Angeles and San Diego State Colleges and represents 5 percent of the new Capital Outlay program.

Other

The balance of the projects total $6,622,000 and include working drawings and construction projects for cafeterias, special purpose facilities, corporation yards, administration buildings, boiler plants and remodeling projects. These projects are located at 14 colleges and are 8.5 percent of the new Capital Outlay program.

Equipment

A total of $3,913,837 is included in this budget for initial complements of equipment and equipment for buildings and facilities which are scheduled for completion in 1967–68 or prior years. The total cost of this equipment is 5.0 percent of the new Capital Outlay program.

Preliminary Plans, General Studies

$1,200,000 is included to cover the costs of preparing preliminary plans packages and for general studies relating to the various campuses and is 1.5 percent of the new Capital Outlay program.

Minor Capital Outlay

The final portion of the Capital Outlay program is a total of $1,385,566 or 1.8 percent of the new Capital Outlay program which is included in this budget for projects for minor Capital Outlay including a number of equipment projects.

STATE COLLEGES—Continued

STATE BUILDING PROGRAM EXPENDITURES	ACTUAL 1965–66	ESTIMATED 1966–67	PROPOSED 1967–68	PROJECTED 1968–69	PROJECTED 1969–70	PROJECTED 1970–71	PROJECTED 1971–72

FIVE-YEAR CAPITAL OUTLAY PROGRAM

The 5-year capital outlay program for the state colleges totals $563,550,037 of which $280,740,925 is unfunded and $207,179,126 is from nonstate sources.

The rapid growth of the college population has resulted in the establishment of 8 new state colleges since 1957. A major share of the 5-year capital outlay program will be needed to continue the development of the facilities at these colleges, which will be generally of the multiple-purpose type. Construction of specialized facilities at these new colleges, as well as many of the older colleges, depend largely upon the needs of the areas served by the college and the curriculum master plan now under consideration by the staff of the Board of Trustees.

FEDERAL LEGISLATURE

During 1963, the Federal Congress passed Public Law 88-204, Higher Education Facilities Act of 1963. The act authorizes federal funds to assist the various states in providing physical facilities to meet the needs of the nation's youth to aspire to a higher education. This act was subsequently modified by Title VII of the Higher Education Act of 1965 which increased in scope the type of academic facilities eligible for grants.

This legislation will have an impact on the 1967–68 budget year. Applications for federal grant funds for 17 projects at 12 state colleges have been requested. Grant funds requested amount to over $16,000,000. It is anticipated that additional federal funds will become available over the term of the 5-year program, therefore, in those years which follow 1967–68, an additional $28,000,000 has been applied to the financing of the total 5-year project.

Trustees of the California State Colleges

The Board of Trustees of the California State Colleges was established by Chapter 49, Statutes of 1960, 1st Extraordinary Session. The board is charged with the responsibility of governing the state college system including the capital outlay program. This budget includes the funds for planning the construction projects on the various state college campuses. This budget includes $1,450,000 which will be appropriated to the trustees. The trustees select the architectural firm to design the college project. One million dollars is for all preliminary plans including those projects designed by the Division of Architecture and by private architects. Minor project funds for the 1968–69 through 1971–72 fiscal years for the college system are included in this budget.

Chico State College

Chico State College, established in 1887, offers courses in teacher education, general education, arts and sciences, and certain occupational fields including engineering and agriculture.

The college is located on a site totaling 111 acres in the City of Chico, and there is an additional 645 acres in the college farm. Additional land is being acquired for a central boiler plant and parking.

An enrollment of 6,716 students (FTE) is anticipated for 1970–71. Existing and funded capacity totals 6,736 students (FTE). The ultimate enrollment for this campus has been set at 10,000 FTE.

This budget provides funds for equipping remodeled applied arts building, engineering building; construction of life science building, physical science building, boiler plant; working drawings for classroom building, library building addition, applied arts addition; working drawings and construction of farm building III, air-conditioning science building, and utilities development. Funds are also provided for additional land acquisition.

MAJOR PROJECTS[a]	ACTUAL 1965–66	ESTIMATED 1966–67	PROPOSED 1967–68	PROJECTED 1968–69	PROJECTED 1969–70	PROJECTED 1970–71	PROJECTED 1971–72
Remodel applied arts building This is the first and only phase of equipment for this project.	$10,000 [W]	–	$91,000 [E]				
Engineering building This is the third and final phase of equipment for this building.	21,421 [C E]	$356,279 [C E]	126,300 [C] 284,000 [E]				
Life science building This project provides for a capacity of 1272 FTE, and offices for 97 faculty within a gross area of 125,000 square feet.	–	–	4,800,000 [C] 155,000 [W]	$100,000 [E]	$750,000 [E]	$200,000 [E]	

Physical science building	–	52,000[W]	2,286,000[C]	50,000[E]	300,000[E]		
This building provides 184 student stations for a capacity of 70 FTE in 8 laboratories, and offices for 16 faculty within a gross area of 41,611 square feet.							
Boiler plant	–	63,800[W]	1,219,000[C]	10,000[E]			
This project will provide for a building to house four boilers, central electrical services and for air conditioning.							
Classroom-office building	–	–	100,000[W]	2,631,000[C]	250,000[E]		
This project provides for a capacity of 1100 FTE, 89 faculty offices and other administrative offices within a gross area of 80,262 square feet.							
Library building addition	–	–	206,000[W]	3,156,000[C]	61,000[E]	500,000[E]	
This project will provide funds for working drawings for a building which will provide library stacks and reader stations for a campus of 8,000 FTE within a gross area of approximately 114,612 square feet.							
Applied arts addition	–	–	160,000[W]	2,291,000[C]	100,000[E]	425,000[E]	
This project will provide funds for working drawings for a building with an additional capacity of 305 FTE in agriculture and industrial arts in 9 activity rooms and 6 laboratories and offices for 28 faculty within a gross area of 60,767 square feet.							
Farm buildings III	–	388,200[C]	594,000[W] [C]	68,000[E]			
Funds are requested for working drawings and construction. This project will provide a meat laboratory, a greenhouse and headhouse, a beef cattle fattening barn, fencing, and site work for holding pens and alleys. Gross area is approximately 17,100 square feet.							
Air conditioning science-music-speech building	–	–	262,000[W] [C]				
This project will provide working drawings and construction for air conditioning the science-music-speech building.							
Utilities development	–	–	14,000[W] [C]	967,000[W] [C]			
This project will provide working drawings and construction for a new electrical distribution system and additional steam transmission lines.							
Land acquisition	56,352[L]	463,648[L] (100,000)[L] [3]	800,000[L]				
This project provides for acquisition of approximately 4 acres to purchase property within the approved master plan to provide sites for residence halls, student union addition.							
Building modernization	–	–	43,000[W]	613,000[C]			
This project will provide working drawing funds for structural rehabilitation of the administration and auditorium buildings.							
Remodel old library	–	–	–	520,000[C]	52,000[E]		
Farm Buildings II	–	–	–	50,000[E]			
Corporation yard addition	–	–	–	102,000[W] [C]			
Air condition physical education classrooms	–	–	–	90,000[W] [C]			
Farm building IV	–	–	–	170,000[W] [C]	34,000[E]		
Humanities addition	–	–	–	–	–	47,500	$678,000[C]
Education-psychology addition	–	–	–	–	–	–	30,000[W]
Music-drama building	–	393,000[E]					
Air conditioning, physical science building [3]	–	(71,700[C])					
Residence halls [1]	–	3,035,000[1] [C]	150,000[1] [E]	320,000[1] [E]	–	360,000[1] [E]	
				3,775,000[1] [E]	–	150,000[1] [E]	
Parking [1]	–	–	210,000[1] [W]	2,275,000[1] [C]	137,500[1] [C]	137,500[1] [E]	
Equip farm buildings	–	49,000[E]					
Construct air conditioning in education-psychology building	69,650[C]	13,280[C]					
Construct air conditioning, humanities classroom building	80,712[C]						
Construct air conditioning, social science building	–	22,525[C]					
Site acquisition for corporation yard and engineering building *General Fund*	76[L]						
Unexpended balance reported as expended in prior year	–7,735						
Totals, Major Projects	$230,476	$4,836,732	$11,500,300	$17,188,000	$1,684,500	$1,820,000	$708,000

Dominguez Hills

The State College, Dominguez Hills was established as South Bay State College by Chapter 65, Statutes of 1960, 1st Extraordinary Session. The name was redesignated to California State College at Palos Verdes by the Trustees of the California State Colleges on Juy 12, 1963 and again redesignated in August, 1966. A site in the Dominguez area of southwest Los Angeles has been selected by the Trustees of the California State Colleges for acquisition by the state. The college is scheduled to become a fully accredited 5-year state institution with programs designed to meet the needs of the area which it will service. Over the past 3 years, the college has acquired an initial library book collection of 50,000 volumes which is now available for students. Instruction began on a very restricted basis in the fall of 1965 in rented quarters. In August of 1966, the college moved into rented quarters across the street from the site where the college is being built. Plans now call for the college to operate in these rented quarters until permanent buildings on the selected college site will be available. Because of its projected rapid growth in enrollment and since it is a new institution, the college has been asked to investigate a program that will utilize the college facilities on a year-round basis. To assist in meeting that objective the instructional program has been developed on a quarter system basis.

Funds were first appropriated in 1964–65 for construction of the initial buildings, equipment for them, and site development as well as planning money for a permanent science building and library-classroom, administration building. It is now estimated that these expenditures will not be made until the 1966–67 fiscal year.

The instructional program is being developed within the guidelines of the master curricular plan established by the board of trustees. The initial undergraduate program, within the framework of the liberal arts and sciences, will include a basic studies program in the lower division and 9 majors in the upper division, distributed among the general areas of science and mathematics, humanities and art and the social and behavioral sciences. These 3 general areas are the nucleus around which the entire instructional program will be developed and interrelated to all disciplines.

The budget act provides funds for a complement of equipment for the initial buildings, construction of a social science building, initial physical education facilities, site development work and a corporation yard.

MAJOR PROJECTS [a]

Initial buildings	$58,001 [E]	$281,500 [E] 1,338,600 [C] 69,199 [E]	$34,000 [E]

Funds for equipment are requested for 1967–68. This is the third and final phase of equipment for this project which initially accommodates the entire college enrollment. The project will be completed in September 1967.

For the list of standard (lettered) footnotes, see the end of the Capital Outlay section of the budget.

Dominguez Hills—Continued							
MAJOR PROJECTS—Continued							
Social science building Funds for construction are requested for 1967–68. This project will provide permanent instructional space for classes in business administration, education, psychology, and social science. The project will provide 1,138 student stations in eleven lecture rooms, 10 activity rooms, and 13 laboratories for a total capacity of 1.212 FTE, 124 faculty office stations, and related service areas. The gross area of the building is approximately 78,700 sq. ft. The project is scheduled for completion in July 1969.	–	–	$2,126,000 ^{C} (100,000) ^{W3}	$50,000 ^{E}	$150,000 ^{E}		
Initial P.E. facilities Funds for awarding drawings and construction are requested for 1967–68. This project will provide the initial physical education facilities for the campus and consists of two 30-student station activity rooms for a rated capacity of 25 FTE with locker, shower, and drying facilites for men and for women, four faculty office stations and related service areas. The building has a gross area of approximately 13,200 sq. ft. The project is scheduled for completion by November 1968.	–	–	406,000 ^{WC}	30,000 ^{E}			
Outdoor P.E. facilities Funds for working drawings and construction are requested for 1967–68. This project will provide the initial outdoor physical education facilities for this campus. It consists of the construction of 8 tennis courts, 4 multi-purpose courts, a baseball field, a track and football field, and a general turfed area. This project will provide for the improvement of approximately 15.4 acres. The construction is scheduled to be completed by December 1968.	–	–	338,000 ^{WC}	330,000 ^{WC}			
Utilities and site development—1967 Funds for working drawings and construction are requested for 1967–68. This project will contribute toward the development of the campus to provide grading, utility lines, access roads, campus roads, walks, lighting, and landscaping required for the library, science, and social science buildings. This project is scheduled for completion prior to the occupancy of the library and science buildings in September 1968.	$13,962 ^{W}	$127,030 ^{W} 1,300,000 ^{C}	700,000 ^{WC}	300,000 ^{WC}	300,000 ^{WC}		
Corporation Yard I Funds for working drawings and construction are requested for 1967-68. This project will provide the first corporation yard facilities to maintain the campus and its improvements. The project consists of shops, central storage, shipping and receiving space, grounds maintenance area and offices for administration and campus security. The building has a gross area of approximately 14,500 sq. ft. This project is scheduled for completion in September 1968.	–	–	342,000 ^{WC}	17,000 ^{E}

Fresno State College

Fresno State College is a 5-year institution offering programs in teacher training, agriculture, and general education. The college is located on a site of 1,433 acres northeast of the City of Fresno. The main campus totals 243 acres on which is master planned an ultimate enrollment of 20,000 students (FTE). The balance of 1,190 acres is devoted to agricultural use. This budget includes construction funds for an art building, funds for working drawings for an addition to the engineering building and site development.

A student enrollment of 8,360 (FTE) is anticipated for 1970–71. Funded and existing capacity totals 6,352 (FTE).

MAJOR PROJECTS [a]

Art building	–	$40,000 [w]	$1,279,000 [c]	$115,000 [E]

This project will provide an additional 216 FTE capacity which will include 6 art activity rooms, a graduate studio, a lecture classroom, 16 faculty office stations, and auxiliary space. This building will have a gross area of approximately 38,100 sq. ft. The project is scheduled for completion in September 1969.

For the list of standard (lettered) footnotes, see the end of the Capital Outlay section of the budget.

State College at Fullerton

The State College at Fullerton is located on a site of 225 acres in the City of Fullerton with a master planned ultimate enrollment of 20,000 FTE to be contained within the existing site. Funds for construction of the first permanent building were appropriated in 1961. This facility, a 6-story science building, was completed in the fall of 1963, and housed all of the programs of the College.

A music-speech-drama building funded in 1962, was occupied in August 1965. The gymnasium was occupied in September 1965. The library and audio-visual building, funded in 1963, was occupied in September 1966. The conversion of science building classrooms to laboratories, Phase I, and various site development project phases have been completed. An enrollment of 8,530 students (FTE) is anticipated in 1971–72. Existing and funded capacity totals 5,965 students (FTE).

This budget includes funds for construction of an art building; construction and equipment for converting temporary classrooms to engineering and science usage, Phases II and III; equipment for the cafeteria, library and audio-visual facilities; working drawings for an engineering building and an administration-business building.

STATE BUILDING PROGRAM EXPENDITURES	ACTUAL 1965–66	ESTIMATED 1966–67	PROPOSED 1967–68	PROJECTED 1968–69	PROJECTED 1969–70	PROJECTED 1970–71	PROJECTED 1971–72
MAJOR PROJECTS [a]							
Convert science building II	–	$129,315 [W C]	$89,000 [E]				
This project will provide the equipment for the second phase in the conversion of temporary lecture rooms into science laboratories in the Letters and Science Building.							
Engineering	–	–	187,000 [E]				
This project will provide equipment for the new engineering program to be housed temporarily in the Letters and Science Building.							
Cafeteria	$1,306,076 [W C]	119,797 [C]	59,000 [E]				
This project will provide the equipment for the building that will be fully occupied by September 1967.							
Library and audio-visual building	150,432 [W C] 44,124 [E]	287,176 [C] 3,876 [E]	324,000 [E]				
This project will provide the final phase of equipment for the building that was occupied in September 1966.							
Convert science building I	456,196 [W C]	242,200 [E] 83,100 [C] 234,800 [E]	249,000 [E]				
This project will provide equipment for the first phase of two phases in the latest conversion of the Science Building.							
Art building	–	65,000 [W]	2,363,000 [C]	–	$186,500 [E]		
This project will provide permanent art facilities with a capacity of 252 students (FTE) in 10 activity rooms with 240 student stations and 26 faculty office stations.							
Engineering building	–	–	226,000 [W]	$2,914,000 [C]	150,000 [E]	$640,000 [E]	
This project will provide funds for working drawings. The proposed building will have a total instructional capacity of 227 students (FTE) with 4 lecture rooms of 100 student stations and 13 laboratories of 204 student stations and 46 faculty office stations.							
Administration—business building	–	–	143,000 [W]	3,958,000 [C]	147,000 [E]	240,000 [E]	
This project will provide funds for working drawings. The proposed building will provide the permanent facilities for the School of Business Administration and Economics with an instructional capacity of 1328 students (FTE) with 20 lecture rooms of 755 student stations, 11 activity							

tions. The college administration portion of the building will provide facilities to serve the business, student personnel, executive and instructional functions of administration.							
Convert science building III	–	–	93,000 [W C]				
This project will provide one geobiology laboratory and 2 biology graduate laboratories with an instructional capacity of 119 students (FTE).			60,000 [E]				
Site development utilities—1968	–	–	–	277,000 [W C]			
This project will provide additional capacity for the expanding campus.							
Education classroom building	–	–	–	90,000 [W]	2,500,000 [C]	–	$200,000 [E]
This project will provide classroom and office facilities for the School of Education.							
Humanities social science building	45,738 [W]	3,744,262 [W C]	–	369,000 [E]			
This project will provide facilities for a total of 1,955 students (FTE) with 31 lecture rooms, 5 activity rooms, 11 laboratories and 269 faculty office stations.

State College at Hayward

The State College at Hayward was established by Chapter 1681, Statutes of 1957, as the state college for Alameda County. On July 12, 1963, the trustees authorized the change in name to State College at Hayward. This college offers courses in teacher education, occupational and professional curricula, and liberal arts leading to a bachelor's degree in various fields. This college occupied its permanent site in the fall of 1963. The site provides 173 usable acres for buildings, parking and physical education fields. Currently an ultimate enrollment of 15,000 students (FTE) is being planned for, with the final development of the campus to this figure contemplated to be within the existing acreage.

A student enrollment of 7,698 (FTE) is anticipated for 1970–71. Funded and existing capacity totals 6,718 (FTE). This Budget includes funds for equipping the classroom building No. 1 and the science building. Construction funds for a speech drama building and a site development project and working drawings for a library and administration building.

MAJOR PROJECTS[4]

Classroom building No. 1 This project will provide equipment for this building with a capacity of 2,200 students (FTE).	$115,239[W]	$2,998,747[C] 49,761[W]	$210,000[E]	–	$40,000[E]	
Science building This project will provide funds to equip a graduate psychology laboratory with a capacity of 720 students (FTE).	–	–	88,000[E]			
Speech drama building This project will provide facilities for the theatre arts, speech arts, speech therapy, radio and television and general creative arts with a capacity of 320 students (FTE).	–	75,000[W]	2,164,000[C]	–	370,000[E]	
Library building This project will provide for the working drawings for a permanent library for a campus of 11,000 students (FTE).	–	–	272,000[W]	$7,136,000[C]	50,000[E]	$750,000[E]
Administration classroom building This project will provide for the working drawings for an administrative building for a campus of 15,000 students (FTE).	–	–	149,000[W]	3,090,000[C]	–	265,000[E]

For the list of standard (lettered) footnotes, see the end of the Capital Outlay section of the budget.

Humboldt State College

Humboldt State College is a 5-year institution offering both graduate and undergraduate programs in liberal arts, teacher education and vocational training. The latter includes curriculums in forestry management, fisheries, and game management. Humboldt State College is located on a site of approximately 102 acres in the City of Arcata. The college's marine laboratory is located on an additional 1.9 acres in the City of Trinidad, 15 miles north of the main campus. The college is master planned for an ultimate enrollment of 5,000 students (FTE). An enrollment of 3,869 students (FTE) is anticipated for 1970–71. Existing and funded capacity totals 3,532 students (FTE). This budget provides for remodeling projects for two older campus buildings and additional site acquisition within the limits of the master plan for Humboldt State College, equipment funds for the Art-Music Building, working drawings for a Natural Resources Building and an addition to the Physical Education Building.

STATE BUILDING PROGRAM EXPENDITURES	ACTUAL 1965–66	ESTIMATED 1966–67	PROPOSED 1967–68	PROJECTED 1968–69	PROJECTED 1969–70	PROJECTED 1970–71	PROJECTED 1971–72
MAJOR PROJECTS [a]							
Art-Music Building	$91,000 [W]	$1,362,300 [C]	$156,000 [E]				
Funds for equipment are requested for 1967–68. This is the first and only phase of equipment for this project. The building is scheduled for completion in April 1968.							
Biological science addition	–	65,000 [W]	2,229,200 [C]	$697,000 [E]			
Funds for equipment are requested for 1967–68. This is the first of 2 phases of equipment for this project. The building is scheduled for completion in April 1969.							
Remodel Founders' Hall	–	–	631,000 [W] [C]	50,000 [E]			
Funds for working drawings and construction are requested for 1967–68. This project will modernize the facility, provide a 149-student station lecture demonstration facility and 3 lecture classrooms. The project will increase the building's capacity by 416 FTE and provide offices for 12 faculty. Scheduled for completion December 1968.							
Natural Resources Building	–	–	64,000 [W]	1,511,000 [C]	$75,000 [E]	$350,000 [E]	
Funds for working drawings are requested for 1967–68. The project will provide 8 laboratories, 2 graduate laboratories, 1 graduate project facility, 2 lecture rooms, offices for 18 faculty and necessary auxiliary areas. Gross area 42,000 square feet, 242-student (FTE) capacity. Scheduled for completion September 1970.							
Modernize college elementary school	–	–	194,000 [W] [C]				
Funds for working drawings and construction are requested for 1967–68. Project makes necessary alterations and modifications to the building to conform to modern requirements. Scheduled for completion December 1968.							

project will provide 5 physical education teaching stations, 1 laboratory for both men and women, 2 classrooms, department offices, 10 faculty offices, locker facilities and equipment and issue rooms. Gross area of approximately 50,000 square feet, 24 student (FTE) capacity. Scheduled for completion September 1970.							
Land acquisition	32,637 [L]	918,119 [L]	**655,000 [L]**	–	225,000 [L]	–	$400,000 [L]
General Fund	37,541 [L]	15,342 [L]					
This program provides for continuation of acquisition of land to expand the college acreage to serve 5,000 students (FTE) within the approved campus master plan. Lands to be used for buildings, outdoor physical education facilities, and parking areas.

State College in Kern County

The Trustees of the California State Colleges and the Coordinating Council of Higher Education advised the Legislature in 1965 of the need for the establishment of a California State College in Kern County.

The legislature during that Session authorized the establishment of a California State College in Kern County and appropriated $80,000 to be used for site selection studies for this college as well as future colleges to serve the Counties of Contra Costa, Ventura and San Mateo-Santa Clara. It is anticipated that the final gift arrangements for 370 acres for the Kern County Campus located in Bakersfield will be consummated prior to the 1967-68 fiscal year.

This budget will provide for acquisition of library books, and working drawings for the initial buildings and site development.

MAJOR PROJECTS [a]

Initial complement of library books	–	–	$187,000 [*]	$187,000 [*]			
Funds for acquisition are requested for 1967–68. These funds will provide the first phase of a 2-phase program to acquire an initial complement of 50,000 library volumes for the campus when it opens in September 1969.							
Initial buildings	–	–	70,000 [W]	1,600,000 [C] 50,000 [E]	$160,000 [E]		
Funds for working drawings are requested for 1967–68. This project will provide the first complex of facilities for the complete campus during the first 2 years of operation. The facilities would include lecture classrooms and laboratories with a capacity of 620 FTE, faculty offices, administrative offices, a library, a snack bar, and necessary service areas. The buildings will have a gross area of approximately 75,000 sq. ft. The project is scheduled for completion in September 1969.							
Utilities and site development—1967	–	–	25,000 [W]	700,000 [C]			
Funds for working drawings are requested for 1967–68. The project will provide for the initial campus development including landscaping and utilities for the initial buildings, site grading, campus roads and related improvements.							
Administration classroom building	–	–	–	80,000 [W]	$2,000,000 [C]	$50,000 [E]	$250,000 [E]
Science building I	–	–	–	140,000 [W]	3,500,000 [C]	250,000 [E]	750,000 [E]
Initial physical education facilities	–	–	–	499,000 [W,C]	60,000 [E]		
Outdoor physical education facilities	–	–	–	350,000 [W,C]	40,000 [E]

State College at Long Beach

The State College at Long Beach was established in 1949 as an upper division liberal arts college, and beginning in the fall of 1953, was authorized to offer lower division courses. It is now a five-year multipurpose college offering instruction for undergraduate students and graduate students, through the master's degree, in the liberal arts and sciences, in applied fields and in the professions, including the teaching profession. The college helps serve the educational needs of the metropolitan areas of southern California.

In 1951 the college was permanently located on a 320-acre site donated by the City of Long Beach which is adequate to support the ultimate master plan enrollment of 20,000 (FTE). An enrollment of 14,659 (FTE) is anticipated for 1970–71. Existing and funded capacity is 14,109 (FTE).

This budget provides equipment for a nursing building and corporation yard; construction for an engineering building II, psychology building, library building—phase III; working drawings for a lecture-classroom building, home economics building II, and drama building; and working drawings and construction for site development.

STATE BUILDING PROGRAM EXPENDITURES	ACTUAL 1965–66	ESTIMATED 1966–67	PROPOSED 1967–68	PROJECTED 1968–69	PROJECTED 1969–70	PROJECTED 1970–71	PROJECTED 1971–72
MAJOR PROJECTS a							
Nursing building This provides funds for equipment. This is the first and only phase of equipment for this project; the building is scheduled for completion in December 1967.	–	$300,000 C	$7,000 E				
Corporation yard II 3 This provides the first and only phase of equipment for this project; the project is scheduled for completion in December 1967.	–	(300,000) C	12,000 E				
Engineering building II This provides funds for construction in 1967–68. This project will provide additional instructional space for the programs of electrical, mechanical and civil engineering. 516 student stations for a capacity of 460 FTE will be provided. The building will contain 7 lecture rooms, 19 laboratories, offices for 32 faculty and required auxiliary and storage area. The project involves the demolition of approximately 8 of the old wood frame temporary buildings. The building has a gross area of 87,000 sq. ft. and will be located adjacent to the existing Engineering Building in accordance with the approved master plan. The building is scheduled for completion in July 1969.	–	127,000 W	3,385,000 C	$400,000 E	$600,000 E	$300,000 E	
Psychology building This provides funds for construction in 1967–68. This provides the first permanent facilities for the Psychology Department. The project includes 842 stations for a rated capacity of 943 FTE in 13 lecture rooms, 14 laboratory suites, including individual test cubicles, office stations for 100 faculty, and related storage and service	–	96,700 W	2,661,000 C	380,000 E			

and will be located in accordance with the approved master plan. The building is scheduled for completion in July 1969.							
Library building—phase II	–	184,000[W]	5,158,000[C]	100,000[E]	400,000[E]		
This provides funds for construction, in 1967–68, of an addition to the existing library. Completion of this project will provide library facilities for a campus of 16,000 FTE. A future addition of 80,000 square feet will be required to accommodate the master plan capacity of 20,000 FTE. This project will have a gross area of 200,000 sq. ft. and is scheduled for completion in September 1969.							
Lecture classroom building	–	–	18,000[W]	330,000[C E]			
This provides funds for working drawings in 1967–68. This project will provide 400 stations for a rated capacity of 600 FTE, including 2 lecture classrooms of 150 stations each, one lecture classroom of 100 stations, a platform area serving all three classrooms, and related storage areas. The design of this structure will provide for independent or simultaneous use of the classrooms. The building has a gross area of 8,400 sq. ft. and will be located in the Physical Education and Engineering Complex; the scheduled completion date is September 1969.							
Home economics building II	–	–	34,000[W]	767,000[C]	75,000[E]		
This provides funds for working drawings in 1967–68. This project will provide the final building increment for the Department of Home Economics. It includes three classrooms, six laboratories, offices for 11 faculty and required auxiliary and storage areas. The building has a gross area of 25,000 sq. ft. and will be located adjacent to the existing Home Economics building in accordance with the approved master plan. Scheduled completion is for May 1970.							
Drama building	–	–	83,000[W]	2,031,000[C]	400,000[E]		
This provides for working drawings in 1967–68. This will provide permanent facilities for the Department of Drama currently housed in temporary facilities; including 235 stations for a rated capacity of 200 FTE. It will contain theater facilities, classrooms, activity rooms, faculty offices and related support facilities. The building has a gross area of 32,000 sq. ft. and will be located in the Music-Little Theater Complex in accordance with the approved master plan. Scheduled completion is for July 1970.							
Site development—1967	–	–	589,000[W C]				
This provides funds for working drawings and construction for 1967–68. This will provide the major campus entrance from Seventh Street and access to major parking areas. Scheduled completion is for July 1968.

State College at Los Angeles

The State College at Los Angeles, established in 1947, offers courses in business, economics, education, fine arts, applied arts, music, social sciences, physical education, natural sciences, engineering, and special education.

The college moved to its present 116 acre site in 1956 to accommodate the increase in student enrollments.

The campus is being master-planned for an enrollment of 16,800 students (FTE) with an anticipated incremental purchase of 59 additional acres of land to support this figure. An enrollment of 11,256 students (FTE) is anticipated in 1970–71. Existing and funded capacity totals 13,942 students (FTE). This budget provides equipment for the engineering building, construction of a physical science building, which will be constructed jointly with a multistory garage, financed from parking revenues, site development, construction of a major access road to the campus, land acquisition of approximately 10.4 acres and construction of an addition to the library.

STATE BUILDING PROGRAM EXPENDITURES	ACTUAL 1965–66	ESTIMATED 1966–67	PROPOSED 1967–68	PROJECTED 1968–69	PROJECTED 1969–70	PROJECTED 1970–71	PROJECTED 1971–72
MAJOR PROJECTS [a]							
Engineering building	$249,273 E	$562,827 E	$400,000 E				
Funds for equipment are requested for 1967–68. This is the third and final phase of equipment for this building which was completed in February 1966.							
Physical science building and garage	–	300,000 W C 81,000 W 1	9,800,000 C 1,288,700 W 1	$200,000 E	$750,000 E	$750,000 E	$300,000 E
Funds for construction are requested for 1967–68. This project will provide additional physical science facilities and a limited amount of biological science facilities which consists of 1,176 student stations in 11 lecture rooms and 58 laboratories for a capacity of 839 FTE, 65 faculty office stations and related auxiliary areas. The existing science building will be remodeled for the biological sciences division upon completion and occupancy of the proposed building. The project will also provide a 2-story subterranean parking garage with 668 parking spaces which will be funded from nonstate funds. This concept is in accordance with the approved Master Plan. The science portion of the project will have a gross area of approximately 207,300 sq. ft. and the garage portion will have a gross area of approximately 226,000 sq. ft. The project is scheduled for completion by September 1969.							
Site development—utilities	–	–	942,000 W C				
Funds for working drawings construction are requested for 1967–68. This project provides for the expansion of utilities systems required to maintain necessary service for the existing and funded buildings of the campus. These systems will include: Sanitary sewer, gas, water and electrical.							
Utilities and site development—Berridge	–	–	66,000 W	980,000 C			
Funds for working drawings are requested for 1967-68. The project will develop the property purchased from land acquisition funds appropriated in the 1966 budget. The project consists of constructing a portion of the major access road on the campus, necessary demolition, earth work, adjustment of utilities, landscaping, lighting, and walks. The project is scheduled for completion in February 1970.							
Land acquisition—1967	–	–	1,650,000 L				
Funds for acquisition are requested for 1967–68. This is the final phase of a 4-phase land acquisition program to implement the approved Master Plan. The 11.7 acres will provide the land necessary to provide the final link in a vital traffic and access connection between the campus, Valley Boulevard, and the Gravois overpass. With the purchase of this property and the dedication to the Trustees of various abandoned streets, the total campus acreage will be 175 in accordance with the approved Master Plan.

Sacramento State College

Sacramento State College, established in 1947, offers courses in teacher training, liberal arts, general education and occupational curriculums leading to the bachelor of arts degree, the master of arts degree or preparation for the professions through graduate work.

Bachelor's degrees are offered in business, engineering, government services, laboratory technology, nursing, social service and teacher education. Master degrees are offered in business administration, public administration, applied life science, social work, engineering, applied mathematics, education and psychology. The college offers pre-professional curriculum preparatory to postgraduate study in law, medicine, dentistry and others.

The college, currently master-planned for an ultimate enrollment of 20,000 FTE students, moved to its present 291-acre site in 1953. An enrollment of 8,347 students (FTE) is anticipated in 1970–71. Existing and funded capacity totals 8,804 students (FTE).

This budget act provides for equipment for the remodeling of the speech-drama building, remodeling of the science building, physical education classroom locker facility, science building and construction of teacher education building, remodel speech drama building—phase II, expansion of boiler plant and utilities, the air conditioning of Douglas Hall and education buildings.

MAJOR PROJECTS[a]

Remodel speech-drama building—phase I	–	$23,000[W]	$500,000[C]	$43,000[E]		
This project will provide the necessary complement of equipment for the remodeled speech-drama building.						
Remodel existing science buildings	–	212,000[C]	18,000[E]			
This project will provide necessary equipment for the remodeled existing science buildings. The remodeling of these buildings was financed by the Budget Act of 1966 providing a capacity of 220 students (FTE).						
Physical education classroom—locker facility[3]	–	(380,000)[C]	19,000[E]			
This project will provide equipment for the physical education classrooms—locker facility financed by the Budget Act of 1966 with a capacity of 75 students (FTE).						
Science building	$692,200[C]	41,400[C] 1,085,300[E]	325,000[E]	350,000[E]		
This project will provide the third of 4 phases of equipment for the science building constructed during 1965–67 at a cost of nearly $4,000,000.						
Teacher education building	–	115,000[W]	1,860,000[C]	150,000[E]		
This project will provide facilities for the Division of Teacher Education and the Department of Foreign Languages with a capacity for 1,109 students (FTE) and 75 faculty office stations.						
Remodel speech-drama building-phase II	–	–	20,000[W]	716,000[C]	$60,000[E]	
This project will provide the second phase of converting existing music department facilities to speech and drama instructional areas for 226 students (FTE) and 18 faculty offices.						
Psychology classroom building	–	–	78,000[W]	1,938,000[C]	40,000[E]	$100,000[E]
This project will provide the working drawings for a psychology classroom building with 669 student stations for a capacity of 1232 students (FTE) and 99 faculty office stations.						
Library building	–	–	198,000[W]	6,098,000[C]	150,000[E]	600,000[E]
This project will provide for the working drawings for a permanent library with a capacity for 10,320 students (FTE). The present library facility will be converted into college administrative space, instructional space and faculty offices to meet the needs of the college.						
Air-condition Douglas Hall and education building	–	–	150,000[W]			
This project will provide for air-conditioning equipment for Douglas Hall, a general classroom and office building and the teacher education building. A cooling tower and chiller will serve both buildings. The area to be air conditioned is 43,000 square feet.						
Site development—utilities	508,675[W C]	116,825[W C]	900,000[C]	149,000[W C]		
Boiler plant—utilities	–	–	300,000[C]			
This project will provide for the expansion of the original boiler plant and utility tunnel to serve additional buildings.						

For the list of standard (lettered) footnotes, see the end of the Capital Outlay section of the budget.

[1] Nonstate funds as submitted by the Trustees, State Colleges.

[3] Project funding subject to receipt of federal grants as authorized by Item 409, Budget Act of 1966.

[4] Amounts reported as allocated from the Trustees are subject to either allocation to the college or expenditure by the Trustees. Expenditures may vary from the amounts reported in this budget as the need for either allocation or expenditure is determined by the Trustees.

STATE COLLEGES—Continued

STATE BUILDING PROGRAM EXPENDITURES	ACTUAL 1965–66	ESTIMATED 1966–67	PROPOSED 1967–68	PROJECTED 1968–69	PROJECTED 1969–70	PROJECTED 1970–71	PROJECTED 1971–72

San Bernardino State College

California State College at San Bernardino was authorized by the Legislature by Chapter 64, Statutes of 1960, First Extraordinary Session. It is scheduled to be a fully accredited 5-year state college with its programs designed to meet the needs of the service area consisting primarily of San Bernardino and Riverside Counties.

The college opened in the fall of 1965, in its initial complement of facilities, on the permanent site of 429 acres. The permanent campus will be large enough to handle the ultimate enrollment of 20,000 students (FTE) planned for this campus.

Funds were included in the Budget Act of 1965 for the construction of a physical science classroom building and a biological science classroom building, which will be the college's first permanent classroom facilities. An enrollment of 2,430 students (FTE) is anticipated in 1970–71. The existing and funded capacity totals 3,096 students (FTE).

This budget provides the funds for the second increment of equipment for the biological science building, the physical science building and the first and only phase of equipment for the Corporation yard, construction of the library-classroom building, working drawings for a cafeteria, and a site development project of roads, storm drains, utilities and landscaping between the initial buildings and those to be completed this year.

STATE BUILDING PROGRAM EXPENDITURES	ACTUAL 1965–66	ESTIMATED 1966–67	PROPOSED 1967–68	PROJECTED 1968–69	PROJECTED 1969–70	PROJECTED 1970–71	PROJECTED 1971–72
MAJOR PROJECTS [a]							
Corporation yard I	–	$9,000 W	$49,000 E 141,000 C				
Funds for equipment are requested for 1967–68. This is the first and only phase of equipment for the corporation yard.							
Biological science building	$1,676,515 C	110,100 E 176,174 C	147,000 E	–	$125,000 E		
Funds for equipment are requested for 1967–68. This is the second phase of a 3-phase program to equip the biological science facilities.							
Physical science building	1,581,999 C	148,601 C 100,400 E	112,000 E	–	175,000 E		
Funds for equipment are requested for 1967–68. This is the second phase of a 3-phase program to equip the physical science facilities.							
Library—classroom building	–	158,900 W	4,589,000 C	$75,000 E	650,000 E		
This will provide construction funds in 1967–68 for the permanent Library and audio-visual facilities for an enrollment of 3,800 FTE and a capacity to accommodate 1,272 students FTE.							
Utilities and site development—1967	–	–	585,000 W C				
Funds are requested for working drawings and construction in 1967–68. Connector roads, utilities, storm drains, lighting fixtures and landscaping between the initial buildings, the physical education facilities, the 2 new science buildings and the corporation yard will be provided.							
Cafeteria	–	–	57,000 W	1,278,000 C	–	$125,000 E	
Funds for working drawings are requested for 1967–68. This will provide the first permanent cafeteria facilities for 3,400 FTE. The project will accommodate 615 seats and is scheduled for completion in May 1970.							
Parking	–	75,000 C 1	116,000 C 1	111,000 C 1	76,500 C 1		
Residence halls	–	–	150,000 P 1	3,775,000 C 1	–	360,000 E 1

San Diego State College

San Diego State College is located on a 268-acre site that will become the population center of metropolitan San Diego. The college offers 54 approved undergraduate majors, 33 master degree curriculums, and 1 joint doctorate. Enrollments have increased in all academic areas. An enrollment of 14,762 F.T.E. in regular students is anticipated for 1970–71. The existing capacity is 12,714 FTE.

A master plan figure of 20,000 FTE has been set for this campus and the incremental purchase of approximately 15 additional acres is anticipated by the Trustees to allow development to meet this figure.

The budget contains projects to provide construction funds for the art classroom building, working drawing and construction funds for the fire alarm system and working drawing funds for site development, and funds for land acquisition.

STATE BUILDING PROGRAM EXPENDITURES	ACTUAL 1965–66	ESTIMATED 1966–67	PROPOSED 1967–68	PROJECTED 1968–69	PROJECTED 1969–70	PROJECTED 1970–71	PROJECTED 1971–72
MAJOR PROJECTS [a]							
Art classroom building	–	$160,000 [W]	$2,574,000 [C]	–	$275,000 [E]		

Funds for construction are requested for 1967–68. The facility provides 688 student stations for a capacity of 364 FTE in 2 lecture rooms and 25 laboratories. Space is also provided for departmental offices, 27 faculty office stations and related service areas. The building has a gross area of approximately 81,800 square feet. The project is scheduled for completion in July 1969.

Fire alarm system	–	–	84,000[WC]				
Funds for working drawings and construction are requested for 1967–68. This project will modify and extend the existing fire alarm system to meet the needs of a large campus and the requirements of Title 19. The project is scheduled for completion by September 1968.							
Utilities and site development—1967	–	–	17,000[W] 346,900[WC]	$650,000[C]	150,000[WC]	$350,000[WC]	$175,000[WC]
Funds for working drawings and construction are requested for 1967–68. The project will update a portion of the existing campus utilities and will provide necessary utilities to the new music building and the library classroom building including storm drains, sanitary sewers, additional main electrical feeder lines with switch gear, and steam lines. The project will also provide for the installation of a concrete stairway with lighting from a parking lot near the corner of Highway 80 and College Avenue to the stairs leading to the chemistry geology building, walks with lighting from the upper east canyon parking lot to the pedestrian overpass and the provision for erosion control and landscaping with sprinklers on the raw slopes in the east canyon. The project is scheduled for completion by June 1969.							
Land acquisition—1967	$2,804[L]	372,196[L]	590,000[L]	550,000[L]			
Funds for acquisition are requested for 1967–68. These funds are for the purchase of 2.3 acre site for a future administration building. The land to be acquired is west of Campanile Road which is the main entrance to the campus, and is between Lindo Paseo and Hardy Avenues. The property is included in the approved master plan for the campus.

San Fernando Valley State College

San Fernando Valley State College became a separate state college July 1, 1958, by authority of Chapter 2265, Statutes of 1957. This college offers degrees at both the bachelor and master levels in teacher training, business, liberal arts, science and engineering. The campus, located in Northridge, currently comprises 317 acres, with the acquisition of an additional site of approximately 11 acres contemplated in order to develop this campus to its ultimate enrollment of 20,000 FTE.

An annual full-time equivalency enrollment of 11,967 is projected for 1970-71. Existing and funded capacity totals 9,371 students (FTE).

This budget provides for contract funds for utilities and site development, and planning funds for a new library building.

MAJOR PROJECTS [a]

Library building This project will provide the permanent library for the college designed for an enrollment of 14,020 FTE to be reached in 1973 or 3 years after the date of occupancy of the new facility.	$30 [E]	$1,620 [E]	$320,000 [W]	$5,458,000	$483,600 [E]	$400,000 [E]

For the list of standard (lettered) footnotes, see the end of the Capital Outlay section of the budget.

San Francisco State College

San Francisco State College, established in 1899, is a multipurpose coeducational institution which offers a full range of degree and credential programs at the baccalaureate and master's degree level.

The college moved to the present 93-acre site near Lake Merced in 1954 in order to be better able to meet the demands placed upon it by continually increasing student enrollments. The current master-planned ultimate enrollment figure is 16,000 FTE, however consideration is being given to the acquisition of approximately 7 additional acres of land which would increase this ultimate enrollment figure. A student enrollment of 12,327 (FTE) is anticipated for 1970–71. Funded and existing capacity totals 11,190 students (FTE). This budget includes funds for working drawings and construction for another phase of the music speech building and working drawings for the Administration Building Addition.

STATE BUILDING PROGRAM EXPENDITURES	ACTUAL 1965–66	ESTIMATED 1966–67	PROPOSED 1967–68	PROJECTED 1968–69	PROJECTED 1969–70	PROJECTED 1970–71	PROJECTED 1971–72
MAJOR PROJECTS [a]							
Complete music speech building	–	–	$371,000 [W] [C]	$59,000 [E]			
Funds for working drawings and construction are requested for 1967–68. This project will provide facilities for instruction in motion picture production in existing unfinished loft and basement space, within the recently completed Music Speech Building Addition project. The project is scheduled for completion in January 1969.							
Administration addition	–	–	145,000 [W]	3,654,000 [C]	–	$360,000 [E]	
Funds for working drawings are requested for 1967–68. The project is designed to provide administrative space for an ultimate campus of 16,000 FTE. This project will also include offices for 100 faculty and the necessary auxiliary areas plus a limited amount of underground parking. This project has a gross area of approximately 120,000 square feet and is scheduled for completion in September 1970.							
Utilities development—1967	–	$268,695 [W] [C]	150,000 [W] [C]				
Funds for working drawings and construction are requested for 1967–68. The project will provide electrical switch gear and primary distribution services and sewer line extension and sewer pumping expansion. This project is scheduled for completion in December 1968.							
Life Science Building	$198,000 [C] 240,000 [W]	4,926,300 [C] 1,000,000 [F] [C]	–	150,000 [E]	$750,000 [E]	750,000 [E]	$100,000 [E]

San Jose State College

San Jose State College was established in 1857. It is a 5-year accredited college which provides both undergraduate and graduate instruction in the liberal arts and sciences, applied fields, and in the professions, including the teaching profession. The college is located on a 139-acre site in the City of San Jose and is currently master planned for an ultimate enrollment of 17,000 students (FTE). To meet this ultimate enrollment, it is anticipated that some additional land will have to be acquired as well as additional buildings and equipment. An enrollment of 16,051 students (FTE) is anticipated for 1970–71. Existing and funded capacity totals 14,003 students (FTE). This budget contains equipment funds for the science building 2, phase I project as well as working drawings money for the library and remodel of Centennial Hall projects and construction funds for a new boiler plant and a site development project.

MAJOR PROJECTS[a]

Science building 2—phase I Funds for equipment are requested for 1967–68. This is the second and final phase of the equipment program for this project. The facility is scheduled for completion in May 1967.	–	$740,700 E	**$486,000 E**	$265,000 E			
Central library building Funds for working drawings are requested for 1967–68. This project will provide a building sized to accommodate the library needs of a campus of 17,000 FTE and instructional space for the library science program. It includes space for 800,000 library volumes, 4,250 reader stations, 130 student stations for a capacity of 145 FTE and 10 faculty office stations. The building has a gross area of approximately 328,000 sq. ft. The project is scheduled for completion by August 1970.	–	–	**325,000 W**	10,517,000 C	$100,000 E	$350,000 E	
Remodel Centennial Hall—phase I Funds for working drawings and construction are requested for 1967–68. This project will remodel approximately 20,000 sq. ft. of general classroom space within Centennial Hall to provide additional specialized facilities for instruction in psychology. Included in the project is the air conditioning of the complete building. The project is scheduled for completion by June 1969.	–	–	**33,000 W**	527,000 C	45,200 E		
Boiler—air conditioning plant Funds for working drawings and construction are requested for 1967–68. This project provides for the removal of the existing boiler plant in accordance with the master plan to make room for the central library, the construction of a new central heating and air conditioning plant and the construction of approximately 2,400 feet of service tunnel. The project is scheduled for completion in March 1969.	–	–	**3,065,000 C**				
Site development—1967 Funds for working drawings and construction are requested for 1967–68. This project will provide for the landscaping and development of the area around the business classroom building and San Antonio Street between 9th and 10th Streets. This project is scheduled for completion by September, 1968.	–	–	**134,000 W C**				
Business classroom building	–	3,563,000 E	–	420,000 E			
Science building II—phase II	–	250,000 W	**4,891,170 C**	750,000 E	750,000 E		
Science building III	–	–	**1,000,000 F C**	128,000 W	3,465,000 C	150,000 E	$750,000 E
Classroom building III	–	–	–	90,000 W	2,422,000 C	250,000 E	
Remodel library for classrooms	–	–	–	–	18,000 W	500,000 C	50,000 E
Physical education facilities—men's	–	–	–	–	84,000 W	2,400,000 C	200,000 E

For the list of standard (lettered) footnotes, see the end of the Capital Outlay section of the budget.

[1] Nonstate funds as submitted by the Trustees, State Colleges.

[4] Amounts reported as allocated from the Trustees are subject to either allocation to the college or expenditure by the Trustees. Expenditures may vary from the amounts reported in this budget as the need for either allocation or expenditure is determined by the Trustees.

Sonoma State College

Sonoma State College is a fully accredited 5-year institution with programs in the liberal arts and sciences and in the professional fields of teacher education and enterprise management. Its primary service area is Marin, Napa, Sonoma, and the southern parts of Lake, Mendocino and Solano Counties.

Sonoma State College was established by Chapter 66, Statutes of 1960, 1st Extraordinary Session of the California Legislature. It opened its doors in September of 1961 in rented quarters in what is now the City of Rohnert Park. The college moved from these steadily-expanding rented quarters to the permanent campus 2 miles east of Rohnert Park in August of 1966. Principal activity is concentrated in the Adlai E. Stevenson Classroom Building, the Darwin Hall of Science, the Field House and the necessary supporting utilities complex.

Steadily increasing enrollment, with corresponding increase in faculty, has permitted the orderly development in course offerings and in majors. Twenty-two majors were available in 1966 including a master's degree program in psychology and fifth-year programs for the Standard Teaching Credentials, Elementary and Secondary.

In addition to its regular academic year program on campus, Sonoma State College has an active summer program of instruction, workshops and institutes and a widespread extension program throughout its service area.

STATE BUILDING PROGRAM EXPENDITURES	ACTUAL 1965–66	ESTIMATED 1966–67	PROPOSED 1967–68	PROJECTED 1968–69	PROJECTED 1969–70	PROJECTED 1970–71	PROJECTED 1971–72
MAJOR PROJECTS [a]							
Library building Funds for equipment are requested for 1967–68. This is the first and only phase of equipment for this facility. The project is scheduled for completion by May 1968.	–	$1,880,000 [c]	$129,000 [E]				
Physical education facilities Funds for equipment are requested for 1967–68. This is the first and only phase of equipment for this facility. The project is scheduled for completion in March 1968.	–	2,021,800 [c]	123,000 [E]				

Funds for equipment are requested for 1967–68. These funds will provide the third and final phase of equipment for the Science Building No. 1 which is scheduled for completion in August 1966.			108,400 [E]				
Boiler plant	3,234 [E]	4,266 [E]	13,000 [E]				
Funds for equipment are requested for 1967–68. This is the second and final phase of equipment for the facility. The project will be scheduled for completion in July 1966.							
Remodel classroom building No. 1	–	–	14,000 [W]	$191,000 [C E]			
Funds for working drawings are requested for 1967–68. This project will provide for the remodeling of approximately 30,000 square feet in the classroom building temporarily used for the library function. The new library building is expected to be completed in May 1968 making this space available for instructional purposes. The remodeling will add 280 student stations for a capacity of 372 FTE in two lecture rooms and three activity rooms. This project will also provide 6 departmental suites and related service facilities. The project is scheduled for completion in August 1969.							
Speech drama building	–	–	60,000 [W]	1,470,000 [C]	$225,000 [E]		
Funds for working drawings are requested for 1967–68. This building will provide the first permanent speech drama facility for the campus. These functions have been temporarily housed in the music building and in rental facilities. The facility includes 164 student stations for a capacity of 156 FTE in 5 activity and laboratory rooms and 1 lecture room, a theatre with seating capacity for 500, 6 faculty office stations, departmental suites, and related auxiliary areas. The building has a gross area of approximately 33,000 square feet. The project is scheduled for completion in September 1970.							
Utilities and site development—1967	–	200,000 [W C] (460,000) [W C 3]	1,000,000 [W C]	250,000 [W C]	$400,000 [W C]	$250,000 [W C]	
Funds for working drawings and construction are requested for 1967–68. A portion of the project will provide for the construction of an arcade, walks, campus lighting, finish grading, drainage, and landscaping in the central campus core created by the area between the science building and the first parking lot. Working drawing funds in the amount of $23,400 were provided in the 1965-66 budget as a part of Site Development, Phase IV for the balance of the project. Construction funds are requested to provide a 4-lane divided entrance road from the expressway to the campus, the completion of the inter-loop road along the north edge of the campus, the grading and realignment of Copeland Creek which is necessary for proper flood control and will provide appropriate landscaping, irrigation, walks and lighting in these areas in accordance with the approved master plan. The project is scheduled for completion by May 1968.							
Central control system	–	–	85,000 [W C]				
Funds for working drawings, construction and equipment are requested for 1967–68. This project will provide for a central campus control system to monitor and control the heating, air conditioning, humidity, and fire detection systems located in each of the campus buildings from a central point on campus. The project is scheduled for completion by September 1968.							
Parking	–	74,550 [1]	70,000 [1]	53,550 [1]	49,000 [1]	51,450 [1]

Stanislaus State College

Stanislaus State College is an accredited institution with programs in the liberal arts and sciences and in the professional fields of teacher education and business administration. Its primary service area is Calaveras, Mariposa, Merced, San Joaquin, Stanislaus and Tuolumne Counties.

Stanislaus State College was established by Chapter 1681, Statutes of 1957, and opened its first classes in rented facilities on the Stanislaus County Fairgrounds on September 10, 1960. It began full operations on the permanent campus in July 1965. This campus is master planned for 12,000 (FTE) without any anticipated increase in the existing 220-acre site.

An enrollment of 1,455 students (FTE) is anticipated for 1970–71. Existing and funding capacity totals 1,472 students (FTE).

This budget provides construction funds for a performing arts complex, funds for site development to provide for utilities and a utility tunnel to the performing arts building, funds for working drawings for an administration building, and funds for preliminary planning for fiscal year 1968–69.

STATE BUILDING PROGRAM EXPENDITURES	ACTUAL 1965–66	ESTIMATED 1966–67	PROPOSED 1967–68	PROJECTED 1968–69	PROJECTED 1969–70	PROJECTED 1970–71	PROJECTED 1971–72
MAJOR PROJECTS[a]							
Performing arts complex This project will provide 374 FTE capacity as the initial phase of the permanent facilities for performing arts, serving art, music, and drama. The project will include a little theater and recital hall, rehearsal rooms for music and drama, a gallery, practice rooms, and 27 faculty stations. The complex will have a gross area of approximately 61,000 square feet, and is scheduled for occupancy in September 1969.	–	$80,000[W]	$2,144,000[C]	$250,000[E]			
Site development—1967 This project will provide for utilities and a utility tunnel to the performing arts building.	–	–	565,000[W C]				
Administration building This project will provide the initial phase of a new administration building to serve the executive, instructional, business, and student personnel functions of administration and provide data processing facilities. This initial structure will be designed in a manner to allow for an orderly expansion into the ultimate facility as the campus approaches 12,000 FTE. Occupancy is scheduled for September 1969.	–	–	45,000[W]	1,074,000[C]	$80,000[E]

California State Polytechnic College—San Luis Obispo

California State Polytechnic College provides accredited educational programs at the college level with emphasis on the applied fields of agriculture, engineering, business, and home economics, together with the closely related supporting fields of physical sciences, natural sciences and mathematics. A program of required general education courses and a strong co-curricular program combine with the college's occupationally centered instruction to prepare graduates for citizenship, leadership and constructive community living.

The college is located just outside San Luis Obispo at the foot of the Santa Lucia mountain range, 12 miles from the Pacific Ocean, on a campus which has been gradually agumented to its present 2,838 acres of which 374 acres comprise the main campus and the balance is agricultural land.

Including the existing and those facilities funded for construction, there is a capacity of 7550 students (FTE). An enrollment of 9300 students (FTE) is anticipated for 1970-71. The Trustees have set an ultimate enrollment of 12,000 students (FTE) for this campus. To accommodate the enrollment a five year major capital outlay improvement program is proposed to provide the necessary facilities and equipment

Groundbreaking for the previously approved Science North and Computer Science Buildings will occur during the late fall of 1966. These buildings will contain instructional facilities primarily for the biological sciences and drafting laboratories, general classrooms, and centralized computer and data processing functions for the entire campus. They are expected to be available for classes in the spring of 1969 with a capacity of 475 and 674 students respectively. Funds for equipment are requested.

The first phase of an extensive Residence Hall Complex (non-state funds) will be started in the spring of 1967 requiring the eventual relocation of the Ornamental Horticulture Unit presently occupying part of this site. The new O.H. Unit will be constructed on the northeastern edge of the academic center.

Starting during the summer of 1967 will be the construction of an outdoor swimming pool complex and the signalizing of California Boulevard at Foothill for improvement of the college's portion of California Boulevard. These projects were previously funded. This budget includes funds for working drawings for a new Library Addition and a new Women's Physical Education Building to replace Crandall Gymnasium, now classed as a temporary unit.

Funds have also been requested for working drawings, construction, and equipment for relocation of the athletic track and baseball field which are in areas programmed for an entrance road to provide for an expansion of vehicle accesses. This budget also includes a request for funds for a utilities development project to provide for reconstruction of the primary electrical source to the campus and a revised and improved domestic water supply; and a site development project for the construction of a two-lane access from the campus, reconstruction of other campus roads and conversion of a closed campus street to a pedestrian mall.

STATE BUILDING PROGRAM EXPENDITURES	ACTUAL 1965–66	ESTIMATED 1966–67	PROPOSED 1967–68	PROJECTED 1968–69	PROJECTED 1969–70	PROJECTED 1970–71	PROJECTED 1971–72
MAJOR PROJECTS[a]							
Engineering mathematics building Funds for equipment are requested for 1967–68. This is the first and only phase of equipment for this project. The building is scheduled for completion in March of 1968.	–	$1,627,400[C] 50,000[W C]	$228,000[E]				
Library addition Funds for working drawings are requested for 1967–68. This project provides for expansion of the present library building to provide book and reader station capacity for an enrollment of 10,000 FTE. This project will have a gross area of approximately 104,000 square feet and is	–	–	120,000[W]	$2,746,000[C]	$100,000[E]	$320,000[E]	

Women's physical education facilities							
Funds for working drawings are requested for 1967–68. This project will provide 3 physical education teaching stations, a laboratory and a classroom. Also included will be offices for 10 faculty, locker facilities and equipment and issue rooms. This facility has a gross area of approximately 35,000 square feet and a capacity of 45 FTE. The building is scheduled for completion in September 1970.							
Relocate track	–	–	278,000[W C] 5,000[E]				
Funds for working drawings, construction and equipment are requested for 1967–68. This project will provide for the physical relocation of the present track, which is in an area programmed for an entrance road from Santa Rosa Street (State Route 1), to an approved location in the Physical Education Complex. This project is scheduled for completion in December 1968.							
Relocate baseball field	–	–	180,000[W C] 5,000[E]				
Funds for working drawings, construction and equipment are requested for 1967–68. This project will provide for the physical relocation of the existing baseball field in order to provide for the expansion of vehicle accesses. The new location is within the planned physical education area. This project is scheduled for completion in December 1968.							
Utilities development—1967	–	–	748,000[W C]				
Funds for working drawings and construction are requested for 1967–68. This project provides for the reconstruction of the primary electrical source to the campus and the expansion of on-campus feeder lines. The project will also expand the on-campus water system by adding a new water storage reservoir and alterations and corrections to the booster pumps and supply lines. This project is scheduled for completion in December of 1968.							
Site development—1967	$351,289[W C]	235,050[W C]	800,000[W C]	195,000[W C]	250,000[W C]	100,000[W C]	$100,000[W C]
Funds for working drawings and construction are requested in 1967–68. This project provides for the construction of a 2-lane access roadway from the campus to State Sign Route 1, the reconstruction of North Campus Way, presently an unimproved roadway to the ornamental horticulture unit, relocated swine unit and thoroughbred horse unit, and the conversion of an existing closed campus street to a pedestrian mall. This project is scheduled for completion in December of 1968.

California State Polytechnic College—Kellogg-Voorhis

Pomona, California

California State Polytechnic College, Kellogg-Voorhis, provides accredited educational programs at the college level in agriculture, engineering, business, and the related applied arts and sciences.

The Kellogg campus is located on an 816-acre site west of the City of Pomona of which 180 acres comprise the main campus and the balance agricultural land. The ultimate enrollment for this campus has been set at 20,000 students (FTE). Existing and funding capacity totals 6,369 students (FTE). An enrollment of 6,719 students (FTE) is anticipated for 1970–71. To accommodate this enrollment, this budget includes equipment for the engineering addition and working drawings and construction for field laboratories, air conditioning aerospace I.E. building, and a site development project.

For the list of standard (lettered) footnotes, see the end of the Capital Outlay section of the budget.

CALIFORNIA MARITIME ACADEMY

The Maritime Academy is located in Vallejo near the north end of the Carquinez Bridges and will have an average enrollment of 242 students in 1967–68. The campus occupies 67 acres, and permanent facilities consist of 2 classroom buildings, engineering building, administration building, steamship building, messhall, residence hall, and a gymnasium with pool.

The construction program for 1967–68 consists of two minor projects totaling $7,500. The two projects proposed are for relocation of welding laboratory and to provide heating for the Seamanship Building.

GENERAL ANALYSIS

In 1961, the Legislature established a temporary program, the Junior College Tax Relief Act, and appropriated $5 million to fund it. The following year (1962–63) an additional $5 million was appropriated. This program provided grants to local districts to be used:

(a) For payment of interest and redemption of outstanding bonds issued for Junior College purposes or for loans from the County School Service Fund for Capital Outlay purposes.

(b) For purchase or improvement of junior college sites or the planning or construction for junior college buildings on a matching basis not to exceed 1 part state funds for 4 parts district funds.

This program was established on a relatively simple formula basis to provide some funds to every junior college district in the state.

While the 1962 Legislature was appropriating the second $5 million for this temporary plan, it was also adopting a bond issue proposal for $270 million to be used for higher education capital construction purposes. Twenty million dollars was included in this bond issue for junior college construction assistance, which was approved in November of 1962. The 1963 Legislature appropriated the $20 million and provided for its distribution through the Junior College Facility Construction Law of 1963 (SB 1515, Chapter 1790, Statutes of 1963) on a formula basis providing for state and local participation in the construction of necessary educational facilities on the basis of 1 state dollar for each 2 dollars of district funds.

Chapter 1808, Statutes of 1965, extended the dates by which districts might make application from September 1, 1966, to September 1, 1968, and the date the funds shall remain in reservation for the districts from June 30, 1967, to June 30, 1969. At June 30, 1966, there remained a balance of $5,897,993 from the original $20 million appropriation. The availability of this balance for junior college construction purposes beyond the June 30, 1966, date is unclear and legislative clarification will be required at the 1967 legislative session.

The Junior College Facility Construction Law further provided for a joint study to develop a continuing program of state financial assistance to junior college districts for the construction of facilities based upon ability, effort and need. This study committee was composed of representatives of the junior colleges, the Department of Education, the Legislative Analyst, the Coordinating Council for Higher Education and the Department of Finance. While the committee was preparing the report, the Legislature approved another bond issue proposal (Proposition 2) which the voters adopted in November, 1964. This $380 million bond construction act earmarked $50 million for the junior colleges.

The Legislature then enacted Chapter 1272 of 1965 known as the Junior College Construction Act of 1965 (SB 318) which provided for a construction assistance program in which state and local junior college districts share in the cost of educational facilities on the basis of 1 state dollar for each local dollar on a statewide average. Entitlements are computed by the local districts based on growth in estimated weekly student contact hours.

In 1965, SB 9 was passed by the Legislature amending Chapter 1272, Statutes of 1965, liberalizing district requirements for participation and limiting the use of federal funds in the determination of state entitlements. During the 1966 Budget Session, SB 4 was passed making additional revisions to the basic act but limiting the application of the changes to June 30, 1967.

Because of the difficulty in obtaining a program which met the needs of all parties involved in the junior college capital outlay process, Senate Concurrent Resolution 14 was adopted by the Legislature, directing the Coordinating Council for Higher Education to:

(1) Study the program of state aid for junior college construction assistance, (2) advise . . . as to the purposes and objectives of this program, (3) recommend changes . . . (4) prepare statutory proposals to carry out the recommendations . . . and to . . . give consideration to the inadequacies of Senate Bill 318, by considering the following factors, and any other factors the council deems relevant: (1) the need for state administrative review of junior college projects and proposed financing before funding by the Legislature, (2) the utilization of existing and new facilities, (3) the need to develop construction allowances based upon actual project costs, (4) the need for long-range construction planning, (5) the need for equalization of district ability, (6) the assessment of relative district need, (7) the amount of student growth, (8) the existence of inadequate or obsolete facilities, (9) the coordination of the state . . . program with federal construction assistance programs and, insofar as possible, other state construction and support programs, and (10) the need to consider all capital outlay requirements, including site acquisition, site development, new construction, initial equipment, renovation, and project planning. . . .

The report and recommendations of the council will be forwarded to the 1967 Legislature during January of 1967. In the past year, 60 districts submitted projects, and in the current year, 29 districts submitted projects. For this budget, 36 districts have submitted projects for approval.

GENERAL ANALYSIS

The Capital Outlay budget of the Department of Employment in 1965–66 and 1966–67 is primarily a continuation of a major departmental building program launched in 1964–65 with funds for site acquisitions in San Jose, Palo Alto, San Luis Obispo and Oroville. Construction at San Jose and Oroville, along with office alterations in Inglewood and Long Beach, constitute the estimated expenditures for major projects in the current year.

In addition to the building program, the budget reflects completion in 1965–66 of a parking lot for the Sacramento office and several ongoing current year alterations in various offices throughout the state.

The 1967–68 fiscal year contains no new budget request.

The costs of construction of buildings and building additions are amortized and recovered by the Department of Employment for the fund from which the capital expenditures were made through rental charges. In 1967–68 the Department of Employment Contingent Fund will recover $219,256, and the Unemployment Trust Fund $378,139, for a total of $597,395.

Facilities Financed by Loans From Treasury Funds

DEPARTMENT OF EMPLOYMENT BUILDING, LOS ANGELES

(Unemployment Compensation Disability Fund)

Investment of money from the Disability Fund was authorized by Chapter 16, Statutes of 1954 (First Extraordinary Session) for the acquisition of real property and the construction and equipment of a building or buildings and appurtenant facilities for the use of the Department of Employment as a branch office in Los Angeles. Expenditures will be repaid through rental payments by the occupying agency.

DEPARTMENT OF EMPLOYMENT BUILDING, SACRAMENTO

(Unemployment Compensation Disability Fund)

Investment of money from the Disability Fund was authorized by Chapter 1603, Statutes of 1951, for the construction and equipment of a building or buildings and appurtenant facilities for the use of the Department of Employment as a central office in Sacramento. Expenditures will be repaid through rental payments by occupying agencies.

Investment of money from the Disability Fund was authorized by Chapter 1814, Statutes of 1955, for the acquisition and development of a parking lot adjacent to the new central office building. Expenditures will be repaid through charges to persons using the parking lot.

DEPARTMENT OF FINANCE

General Activities

Commencing October 1, 1963, the Department of General Services assumed the position formerly held by the Department of Finance in the development of capital outlay programs for state office buildings, grounds, and related facilities. Expenditures in the past and current years are from appropriations made prior to 1964–65 and are reported in this budget. Land acquisition expenditures for the State Capitol plan are reported in this budget. Future appropriations for land acquisition, pursuant to the plan, will be made to the Department of General Services.

State Lands Division

GENERAL ANALYSIS

The State Lands Division administers policies established by the Legislature and the State Lands Commission in managing the lands belonging to the state. These consist of school lands, swamp and overflow lands, tide and submerged lands, lands underlying navigable rivers and lakes, and other sovereign lands.

Funds have been appropriated in the current year to remove beach and underwater obstructions from state-owned tidelands and submerged lands near Summerland, Santa Barbara County.

MAJOR CONSTRUCTION PROGRAM STATEMENT
1967–68—1971–72

The Department of Mental Hygiene operates facilities for the care and treatment of the mentally ill and mentally retarded with a June 30, 1966 capacity of 45,387 throughout the state. These facilities include: 7 hospitals exclusively for the mentally ill, 3 hospitals for the mentally ill and mentally retarded, 4 hospitals for the mentally retarded only, and 2 training and research institutes. Both Langley Porter Neuropsychiatric Institute and the Neuropsychiatric Institute at UCLA are operated in conjunction with the University of California and were established for teaching and research. The related clinical provisions connected with these functions are operated by the department in conjunction with the University's medical school at San Francisco and Los Angeles, respectively.

INTRODUCTION

Program Summary

The 5-year building program proposes a total expenditure of $94,444,490 for new construction, improvements and modernization of existing facilities. Because of the department's program of intensive care and early release master plan studies of the future size of the state hospitals are currently under way. These master plan studies will be the basis of a future program of structural remodeling that will be incorporated into the 5-year construction program.

Program Analysis

The Department of Mental Hygiene recognizes the need for and places special emphasis on diagnosis, research, training and education in the fields of mental retardation, mental illness, addiction and problems for the young and aged.

The proposal for the replacement of the present Langley Porter Neuropsychiatric Institute would provide a larger, more comprehensive institute for research into the causes and cures for mental illness and mental retardation and training of professional people in the field of mental health. It is proposed to be located adjacent to the University of California Hospital, San Francisco, and would increase the existing 105-bed capacity to 244-bed capacity. This Institute in northern California and the Neuropsychiatric Institute at the University of California at Los Angeles in southern California, where a 60-bed addition to the existing 188-bed institute is funded for construction, will help to meet the department's need for trained professional people as well as the University's need for training facilities in the psychiatric field.

The 4 institutes for the mentally retarded are being studied for the San Diego area, Los Angeles area (2) and Central Valley area. They are proposed to be located adjacent to, and operated in conjunction with the University of California schools of medicine in the area.

RECAPITULATION OF PROGRAM BY CATEGORY

	Amount	*Percent of total*
Patient Capacity:		
Construction to replace existing capacity	$22,586,500	23.9
Ward remodeling and air conditioning	17,231,440	18.2
Utilities, services, feeding and ancillary facilities	4,395,955	4.7
Chapels, schools, canteens, auditoriums, therapy and recreational facilities	4,480,500	4.8
Institute facilities	24,454,500	25.9
Mental Health, Institutes for Mentally Retarded and specialized retarded services	13,798,000	14.6
Minor construction and remodeling	7,497,595	7.9
Total	$94,444,490	100

The tables that follow set forth in detail actual and estimated population and indicate the latest estimates of capacity resulting from presently funded projects.

GENERAL PROGRAM ANALYSIS

The reduction in patient population for the mentally ill from a rate of 303.2 per 100,000 population on June 30, 1950 to 135.0 per 100,000 on June 30, 1966 is due to several factors. It is estimated the rate will continue to decline to 111.9 per 100,000 on June 30, 1967, and to 91.1 per 100,000 on June 30, 1968. It is anticipated that the number of beds in hospitals for the mentally ill will decline by 1,728 beds between June 30, 1966, and June 30, 1970. This reduction is a result of ward improvement projects and the deactivation of ward areas for other purposes and proposed ward improvement projects.

Mentally retarded patients continue to be admitted as bed capacity and treatment facilities become available. On June 30, 1966, there were 13,792 beds available. It is anticipated the bed capacity in hospitals for the mentally retarded will decline by 371 beds between June 30, 1966, and June 30, 1970. This reduction is the result of ward improvement projects and the deactivation of 3 old, unsafe cottages at Sonoma State Hospital.

PROJECTS PROPOSED FOR FINANCING IN 1967–68

The capital outlay program for the Department of Mental Hygiene for 1967–68 totals $1,682,195. The total amount is financed from the General Fund. Major construction projects account for $184,600. The balance of $1,497,595 pertains to minor construction projects.

Equipment

Equipment funds in the amount of $117,000 are included to partially equip the 60-bed mental retardation addition to the Neuropsychiatric Institute at the University of California at Los Angeles, a project funded for construction in the 1966–67 fiscal year. An additional $637,500, of which $543,000 will be federal funds, will be requested in 1968–69 to complete the purchase of equipment for this unit.

Improvements to the Physical Plants

The amount of $67,600 is included for improvements to the storm and sanitary sewer system at Napa State Hospital.

Minor Projects

Minor projects to correct deficiencies and to improve the physical plants total $1,497,595.

Neuropsychiatric Institutes

LANGLEY PORTER NEUROPSYCHIATRIC INSTITUTE

This institute, in conjunction with the University of California School of Medicine in San Francisco, operates a research, training and treatment center in northern California. It has a rated bed capacity of 105, and in addition operates a large outpatient clinic. Acquisition of a site to replace the existing institute has been completed.

MAJOR PROJECTS[a]

Construct new institute (project planning and working drawings)	–	–	–	$865,000 [W P]			
New Multi-story Institute:							
Construction	–	–	–	–	$17,727,500 [C]		
Construction- federal	–	–	–	–	2,000,000 [C]		
Construction (University of California)	–	–	–	–	(2,128,500) [C]		
Equipment	–	–	–	–	–	–	$3,307,500 [E]
Equipment (University of California)	–	–	–	–	–	–	(367,500) [E]
Site acquisition for new institute, phase II	$5,601 [L]						
Site acquisition for new institute, phase III	455,003 [L]	$186,405 [L]					
Preliminary plans for new institute	–	–	–	300,000 [P]			
Totals, Major Projects, Langley Porter Neuropsychiatric Institute	$460,604	$186,405	–	$1,165,000	$19,727,500	–	$3,307,500

MINOR PROJECTS[b]

Alteration and improvement projects of $20,000 or less	$5,880	$1,700					
(Number of projects by fiscal year)	(4)	(1)					
Totals, Capital Outlay, Langley Porter Neuropsychiatric Institute	$466,484	$188,105	–	$1,165,000	$19,727,500	–	$3,307,500

For the list of standard (lettered) footnotes, see the end of the Capital Outlay section of the budget.

[1] Capacity is currently based on a standard of approximately 55 square feet per patient in his immediate ward (bed) area. National standards for hospital construction require 80 square feet and the state requires private facilities in California to have 70 square feet per patient. The rated capacity with 70 square feet per patient is 22,308, based on a survey made by the State Department of Public Health.

[2] Plans are currently being developed for reevaluation of assigned square feet per patient in conjunction with a survey conducted by the Department of Public Health for the mentally retarded. A master plan is also being developed as to the continued use of certain older facilities in hospitals for the mentally retarded.

Neuropsychiatric Institutes—Continued

NEUROPSYCHIATRIC INSTITUTE AT UNIVERSITY OF CALIFORNIA, LOS ANGELES

This institute, constructed as a wing of the Medical School at the University of California at Los Angeles, operates a research, training and treatment center. It has a rated bed capacity of 188 and in addition, it operates a large outpatient clinic. The facility was activated in December 1960, with the first patient admissions in January 1961. Partial equipment funds in the amount of $117,000 are being proposed to equip the outpatient unit scheduled for completion in February 1968. Minor construction projects totaling $4,000 are included to correct deficiencies and to improve the physical plant.

Hospitals for the Mentally Ill

AGNEWS STATE HOSPITAL

This hospital for the mentally ill and the mentally retarded had a rated capacity of 3,253 for the mentally ill and a capacity of 528 for the mentally retarded as of June 30, 1966. As directed by the 1965 Legislature, the department converted buildings 51 and 52 from residential units for the mentally ill to residential units for 528 mentally retarded patients during the 1965–66 fiscal year.

A major construction project for phase I, remodeling of buildings 51 and 52 for the mentally retarded was funded by the Budget Act of 1966. A total of $135,030 is provided for minor construction projects in 1967–68 to correct deficiencies and improve the physical plant.

SONOMA STATE HOSPITAL

This hospital for the mentally retarded had a rated capacity of 3,655 as of June 30, 1966. This reflects a gain of 200 beds over the capacity of 3,455 on June 30, 1965 due to the activation of the severely handicapped unit. Three unsafe cottages will be deactivated in 1967–68, reducing the capacity to 3,505 on June 30, 1968.

There are no major construction projects proposed for the 1967–68 fiscal year. A total of $146,500 is provided for minor construction projects to correct deficiencies and improve the physical plant.

GENERAL ANALYSIS

The Department of Public Health, in cooperation with local health departments, is responsible for the prevention of disease and the provision of a healthful environment for the people of California.

The construction of a cancer research facility in Berkeley was completed in June 1966, with the major portion funded from federal sources.

Contracts were awarded in 1966 to replace the existing boilers and to provide a boiler annex to serve the departmental headquarters and laboratory building.

Projected Capital Outlay requirements call for an expansion of existing laboratory facilities to meet projected needs at Berkeley.

No Capital Outlay projects are proposed for 1967–68.

MAJOR CONSTRUCTION PROGRAM STATEMENT
1967–68—1971–72

The Department of Rehabilitation, formed in October, 1963, operates an Orientation Center for the Blind at Albany; Opportunity Work Centers for the Blind at Berkeley, Los Angeles and San Jose; and Industries for the Blind at Berkeley, Los Angeles and San Diego.

The 1965 Legislature passed legislation enabling the department to establish residential rehabilitation centers for the mentally retarded and appropriated $300,000 for working drawings for a center to be located at Agnews State Hospital. The 1968–69 budget will propose the construction of the center.

It is anticipated that future centers will be developed; however, the long-range plans necessary for such development have not been completed.

STATE BUILDING PROGRAM EXPENDITURES	ACTUAL 1965–66	ESTIMATED 1966–67	PROPOSED 1967–68	PROJECTED 1968–69	PROJECTED 1969–70	PROJECTED 1970–71	PROJECTED 1971–72

California Rehabilitation Center for the Mentally Retarded at San Jose

GENERAL ANALYSIS

The California Legislature in the 1965 Regular Session passed Chapter 1365 (AB 2855). In addition $300,000 was added in the Budget Act of 1965 to provide for the initial phase of a 500-bed rehabilitation center for the mentally retarded. The statute added Section 7000.1 to the Welfare and Institutions Code which permits the Department of Rehabilitation to establish residential rehabilitation centers for the mentally retarded. The law describes the purpose of such centers "to serve the mentally retarded who do not need intensive medical and psychiatric care but who do require a protected living environment. The goal of the resident rehabilitation centers will be to develop mentally retarded individuals being served to the maximum level of physical, psychological, social, and vocational functioning of which they are capable, and to provide a protected living environment as long as they require it. The resources and services of these centers may also be made available to retarded individuals living in the community who do not require residential care."

The center will provide quarters in the form of residential cottages rather than large ward or hospital-type buildings. Resident students will be separated into cottage living groups according to their developmental level and age.

The development of residential centers for the mentally retarded is in its formative stages. A master plan for the construction of additional centers, therefore, does not appear in this budget presentation.

Present planning will place the Rehabilitation Center facility on the grounds of Agnews State Hospital. The development of plans for the new facility will continue in 1966–67 and 1967–68. In addition, at Agnews the 1965 Legislature provided for the conversion of 500 beds for the mentally ill to make them available as beds for mentally retarded patients. This latter program is managed by the Department of Mental Hygiene. Between Mental Hygiene and the Department of Rehabilitation, 1,000 mentally retarded patients will be accommodated at Agnews.

GENERAL ANALYSIS

The Military Department organizes and administers the State Militia which, in the form of the National Guard, is immediately available to the Governor in the event of major civil disturbances, or for military support to civil authority in local or statewide disasters. It also stands ready to augment the federal military forces during national emergencies.

The Capital Outlay program of the Military Department comprises the construction of armories, warehouses, rifle ranges, and other facilities essential to the organization, training, and morale of the California National Guard and the California Air National Guard. The long-range construction program will provide armories and other facilities to adequately house and train all units.

Since the 1951–52 fiscal year, the federal government under Public Law 783, 81st Congress, has participated in the construction of armories on a cost-sharing basis. Federal funds have been made available on the basis of up to 75 percent of qualifying phases of the construction. In addition to federal participation in the construction of armories, certain facilities such as motor vehicle storage buildings, warehouses, airplane hangars, and shop buildings primarily for the care and maintenance of federal equipment issued for state use are financed entirely from federal funds except for the cost of planning and supervision of construction which is provided by the state. Federal expenditures for this purpose are: 1964–65, $258,000; 1965–66, $606,294, and estimated 1966–67, $2,113,437.

The Capital Outlay program for 1967–68 provides for minor projects which include repairs to various existing armories, paving of yards and related work.

Departmental Administration

GENERAL ANALYSIS

The purpose of this department is to protect the public health, welfare and safety by licensing only persons and firms of demonstrated knowledge and abilities to perform services for the public, to prevent unauthorized practices upon the public, and to discipline those licensees who fail in their public trust.

There are 30 boards, bureaus and commissions of this department which are responsibe for regulating in excess of 700,000 persons practicing more than 50 professions and vocations in the State of California.

The departmental administration coordinates and supervises the administrative and financial affairs of its member boards, bureaus and commissions.

Section 403 of the Business and Professions Code provides that the costs of building operations, maintenance, repairs and other reasonable and necessary expenses shall be paid from rentals and that the building will be subject to the supervision of the Department of Professional and Vocational Standards in accordance with rules and regulations established by the department and the Department of General Services.

The department operates 2 state office buildings in Sacramento. These buildings house a majority of the member boards, bureaus and commissions and also the Division of Corporations and the State Board of Equalization.

The 1967–68 Budget contains no capital outlay request.

Facilities Financed by Loans From Treasury Funds

BUSINESS AND PROFESSIONS BUILDING ANNEX, SACRAMENTO

(Various Funds)

This building was constructed by advances from special funds and the General Fund in accordance with Sections 400 to 404 of the Business and Professions Code. The cost of operating and maintaining the building is defrayed out of the rentals from the state boards occupying space in the building and fees paid by users of the parking facilities. Generally, the remaining receipts are apportioned back to the boards contributing to the cost of the building in proportion to their respective investments.

Repayments to investing boards are estimated on an accrual basis. Actual repayments are made semiannually, after the close of the period in which net rentals occurred.

Investing Agencies	Investment as of July 1, 1966	Estimated Repayments 1966-67	1967-68
Department of Professional and Vocational Standards:			
Board of Accountancy	$164,976	$3,350	$3,351

TOTAL, FIVE-YEAR BUILDING PROGRAM							$19,956,333

GENERAL ANALYSIS

Program and Objectives

The Division of Forestry is charged with the protection of over 38,000,000 acres of state and private lands having statewide interest with regard to timber production, rangeland, recreational use and watershed value. Direct fire protection is provided for approximately 29,000,000 of the above acres as well as protection of 6,000,000 additional acres of rural agricultural land under contract with 26 counties which provide for reimbursement of costs.

The Division of Forestry's construction needs are governed by the authorized level of personnel and equipment. At the present time, the division operates 234 forest fire stations, 81 lookouts and 15 primary and 14 secondary air attack bases. The division maintains 32 ranger unit headquarters (all but Owens Valley have fire stations), 6 district headquarters, 38 conservation camps, a headquarters nursery at Davis along with 3 branch nurseries, equipment shops, 7 state forests and numerous radio repeater sites. In addition, the division is responsible for maintenance of 1,793 miles of telephone lines, 3,723 miles of fire access roads, 67 bridges and 16.3 miles of powerlines.

The Division of Forestry constructs and maintains forestry conservation camps for the use of the Department of Corrections and Department of Youth Authority. Inmates living in these special camps engage in conservation work projects such as fire hazard reduction; construction and maintenance of fire access roads and trails, as well as powerlines and other projects beneficial to the enhancement and management of natural resources. The inmate capacities of these camps are reflected in the capacity figures for the respective departments.

The 1967–68 budget proposes a total of $400,000 for 31 minor projects that will provide for the most essential construction required by the Division of Forestry's field activities.

FORESTRY FIELD FACILITIES

MAJOR PROJECTS [b]

District I

District I Headquarters, Santa Rosa—additional facilities Construction approximately 3,500 square feet of additional office space. Initially the present 5,200 square feet housed 22 people. Now space is needed for 38 positions.	–	–	–	$103,840 [C] 5,000 [E]			
Klamath Forest Fire Station—new facility on new site Construct standard 10-man forest fire station. Existing station is leased from U.S.F.S. and was originally built to house CCC personnel.	–	–	–	97,400 [C] 2,485 [E]			
Leesville Forest Fire Station—replace barracks Construct standard 10-man barracks-messhall. This will replace a military surplus metal structure erected in 1948.	–	–	–	93,700 [C] 1,629 [E]			
Mendosoma Forest Fire Station—replace facility To acquire 3 acres as existing site is poorly located and of inadequate size.	–	–	–	5,000 [L]	$115,000 [C]		
Fernwood Forest Fire Station—replace barracks and messhall	–	–	–	–	65,000 [C]		
Elk Camp Forest Fire Station—replace facility	–	–	–	–	–	$105,000 [C]	
North Coast Nursery—replace Parlin Fork facility	–	–	–	–	–	201,000 [C]	$300,000 [C] 25,000 [E]
Occidental Forest Fire Station—replace facility	–	–	–	–	–	–	80,000 [C]
Mattole Forest Fire Station—new facilities on new site	–	–	–	–	–	–	95,000 [C]
Additions to Boggs Mountain and Jackson State Forests	–	$9,600 [L]					
Santa Rosa district headquarters—additional warehouse and storage buildings	$89,385 [C]	4,000 [C]					
Leggett Valley Forest Fire Station *(State Construction Program Fund)*	–3,636 [C] 574 [E]						

For the list of standard (lettered) footnotes, see the end of the Capital Outlay section of the budget.

Sunshine Forest Fire Station—new facility	–	–	–	133,950 C 10,000 E			
Smith Creek Forest Fire Station	$63,923 C 1,100 E	2,900 C 273 E					
Cayucos Forest Fire Station *(State Construction Program Fund)*	–324 C 92 E						
District VI							
Campo Forest Fire Station—replace facility	–	–	–	140,550 C 3,315 E			
Construct a standard 14-man barracks-messhall and 3-bedroom residence. This project will replace a 30-year-old CCC constructed building built to house 6-men.							
Etiwanda Forest Fire Station—site acquisition	–	–	–	15,000 L			
To acquire 0.22 acres to allow for necessary expansion.							
Potrero Forest Fire Station—replace facility	–	–	–	3,000 L	–	80,000 C	
To acquire 3.96 acres presently leased.							
Yucaipa Forest Fire Station—replace facility on new site	–	–	–	25,000 L	–	95,000 C	
To acquire 3 acres for new site. Present location poorly located and too small for planned expansion.							
District VI Headquarters—expansion	–	–	–	–	128,000 C		
Dulzura Forest Fire Station—replace facility on new site	–	–	–	–	110,000 C		
San Jacinto Forest Fire Station—replace facility	–	–	–	–	95,000 C		
Cajalco Forest Fire Station—new facility	–	–	–	–	–	65,000 C	
San Marcos Forest Fire Station—replace facility on new site	–	–	–	–	–	105,000 C	
Cuyamaca Forest Fire Station—replace facility	–	–	–	–	–	110,000 C	
Southern California Training Center—replace facility on new site	–	–	–	–	–	–	850,000 C
Miramar Forest Fire Station—replace facility on new site	–	–	–	–	–	–	50,000 C
Beaumont Forest Fire Station—replace facility on new site	–	–	–	–	–	–	110,000 C
Deluz Forest Fire Station—replace facility	–	–	–	–	–	–	110,000 C
San Juan Capistrano Forest Fire Station—replace barracks, messhall, equipment building	–	–	–	146,350 C 3,795 E			
San Bernardino Ranger Unit Headquarters—replace office *(State Construction Program Fund)*	–	194,200 C 5,075 E					
Red Mountain Forest Fire Station—replace barracks, messhall, and equipment building	–	132,600 C 2,855 E					

site *(State Contruction Program Fund)*	709,981 [C]	20,243 [C] 18,438 [E]					
Orange Ranger Unit Headquarters—office building *(State Construction Program Fund)*	11,872 [C] 785 [E]	1,711 [C] 913 [E]					
Davis Warehouse and Shops—replace warehouse, office; provide master plan	–	–	–	–	–	400,000 [C]	
Divisionwide							
Lookouts and forest fire stations—various	21,599 [L]	110,458 [L]	–	128,000 [L]	165,000 [L]	175,000 [L]	200,000 [L]
State Construction Program Fund	2,103 [L]	5,435 [L]					
Statewide Engineering, Planning and Inspection Services	124,984	159,991					
To provide 8 technical positions, a survey crew, 1 clerical position, employee benefits and operating expenses required in connection with the division's capital outlay program.[1]							
Totals, Forestry Field Facilities	$1,866,060	$1,942,855	–	$2,017,967	$1,903,400	$2,997,000	$2,730,000
General Fund	*469,640*	*654,862*	–				
State Construction Program Fund [E]	*1,396,420*	*1,287,993*	–				
CONSERVATION CAMPS							
Bratton Valley Conservation Camp (Minnewawa)—replace facility on new site	–	$7,422 [L]		$881,300 [C] 59,548 [E]			
State Construction Program Fund	$8,034 [L]	51,966 [L]					
Construct standard 80-man camp. This project will replace old structures that are in urgent need of replacement. This is the last of 4 camps projected for replacement by the master planning commenced in 1959.							
Murietta Conservation Camp replacement (Waterloo)—replace facility on new site	–	–	–	903,100 [LC] 36,997 [E]			
Construct standard 80-man camp. This project will replace old county prison buildings on leased property (Murietta).							
Cuesta Conservation Camp	–	–	–	40,000 [L]	$815,000 [C] 30,000 [E]		
Purchase 158 acres and construct new facilities for a permanent site for the camp.							
Youth Conservation Camp—acquire control and possession of existing government land near San Luis Reservoir	–	–	–	13,500 [L]	–	$850,000 [C] 200,000 [E]	
Purchase site with a minimum of 100 acres for standard 80-ward permanent camp. This project will replace the 20-man Coarsegold Spike Camp and the 20-man Blasingame Spike Camp.							
Mt. Bullion Youth Conservation Camp—site acquisition	–	–	–	25,000 [L]	83,800 [C] 6,589 [E]		
Purchase presently leased 20 acres plus spring and right-of-way at camp site and construct new office.							
Smartville Youth Conservation Camp—replace facility and expand to 30-ward capacity	–	–	–	–	419,980 [C] 35,140 [E]		
Beaver Creek Conservation Camp—replace facility on new site, expand to 80-man capacity	–	–	–	–	815,000 [C] 55,000 [E]		
Pine Grove Youth Conservation Camp *(State Construction Program Fund)*	–	689,800 [C] 66,737 [E]					
Vallecito Conservation Camp *(State Construction Program Fund)*	–	40,000 [L]					
Statewide—various locations *(State Construction Program Fund)*	6,054 [L]	69,113 [L]					
Ortega Youth Conservation Camp *(State Construction Program Fund)*	30,143 [C] 146,617 [E]	690,742 [C] 106,677 [E]					
Tamarack Conservation Camp *(State Construction Program Fund)*	96 [C] 25,671 [E]	684,989 [C] 187,439 [E]

GENERAL ANALYSIS

The California Highway Patrol is a statewide law enforcement organization charged with the responsibility of providing adequate patrol of the highways at all times of the day and night to assure the safe, lawful, rapid and economical use of the highway system of the State of California. The department is headquartered in Sacramento and has one or more field offices in all but three of the state's 58 counties. Its jurisdiction is principally limited to streets and highways outside incorporated areas and with certain exceptions, freeways transversing incorporated areas. The general policy is to lease field offices wherever possible and the department contemplates the continuation of this leasing policy.

The 1967–68 budget request includes an annex to the Headquarters office building to provide for expansion, an area office building at Yreka where highway relocation has forced abandonment of the present building, working drawings for a shops and stores building in Los Angeles for equipping vehicles and for the development of a new motor transport shop facility to replace the inadequate present facility as well as program planning funds.

Minor construction funds are proposed to re-work the shoulders and drainage ditches for the emergency vehicle operations course at the Academy, cover sidewalks that interconnect the dormitories and classrooms at the Academy, add a **prefabricated carwash and paint building to the shops building.** In addition, $15,000 is proposed for miscellaneous alterations to field offices and other facilities as needed for the improvement of operating conditions.

Future projects contemplate the construction of area office buildings at Sacramento, San Leandro, San Mateo, West Los Angeles, East Los Angeles, Long Beach and Baldwin Park. Construction for additional area and substation offices are planned in other areas of the state.

MAJOR PROJECTS

STATE BUILDING PROGRAM EXPENDITURES	ACTUAL 1965–66	ESTIMATED 1966–67	PROPOSED 1967–68	PROJECTED 1968–69	PROJECTED 1969–70	PROJECTED 1970–71	PROJECTED 1971–72
Headquarters office building annex	–	–	**$3,370,300^{C}**				
This project is for the purpose of providing funds for the construction of the Headquarters Office Building Annex.							
Area office building—Yreka	–	$20,000^{L}	**337,600^{C}**				
This project is for the purpose of providing a new operating facility in the vicinity of Yreka for the use of the California Highway Patrol and the Department of Motor Vehicles.							
Shop and stores building—Los Angeles	–	460,000^{L}	**40,000^{W}**	$610,000^{C}			
This project is to provide space for equipping vehicles, selling out-of-service vehicles, storage of supplies, and communications equipment repair shop for the Los Angeles vicinity.							
Motor transport shop—Sacramento	–	–	**45,000^{W}**	580,325^{C}			
This project is for the purpose of a new motor transport shop facility to replace the present motor transport store facility. The present facility will not be of adequate size to house both operations.

DEPARTMENT OF THE CALIFORNIA HIGHWAY PATROL—Continued

STATE BUILDING PROGRAM EXPENDITURES	ACTUAL 1965–66	ESTIMATED 1966–67	PROPOSED 1967–68	PROJECTED 1968–69	PROJECTED 1969–70	PROJECTED 1970–71	PROJECTED 1971–72

Facilities Financed by Loans From Treasury Funds

HIGHWAY PATROL ACADEMY, SACRAMENTO

(General Fund formerly School Land Fund [2])

Funds were loaned for the construction of the Highway Patrol Academy from the School Land Fund under the provisions of Chapter 1597, Statutes of 1951. Under a contract between the Governor, Director of Finance, and the Commissioner of the California Highway Patrol, the costs of these facilities are being repaid with interest at 2¾ percent per annum by the respective agencies in 240 equal monthly installments. Legislation will be introduced in the 1967 Session of the Legislature to authorize full repayment of this loan.

HIGHWAY PATROL BUILDING, SACRAMENTO

(General Fund formerly School Land Fund [2])

Pursuant to the authority contained in Chapter 11, Statutes of 1951, a loan was made available to the Department of the California Highway Patrol from the School Land Fund for the construction of a new office building in Sacramento.

The loan is being repaid in a series of 240 monthly payments together with interest at the rate of 2½ percent per annum on the unpaid balance. Provision for these payments is made in the support budget of the Department of California Highway Patrol. Legislation will be introduced in the 1967 Session of the Legislature to authorize repayment of this loan.

A summary of the facilities financed by loans is as follows:	PROGRAM AMOUNT AUTHORIZED	AMOUNT OF LOAN	ESTIMATE OF PRINCIPAL BALANCE JUNE 30, 1967
Highway Patrol Academy, Sacramento	$625,000	$618,830	$299,535
Highway Patrol Building, Sacramento	700,000	684,869	318,437
Totals	$1,325,000	$1,303,699	$617,972

---

[2] School Land Fund abolished by proposition approved in November 1964 and assets and liabilities transferred to the General Fund effective July 1, 1965.

TOTAL, FIVE-YEAR BUILDING PROGRAM							$17,402,658

GENERAL ANALYSIS

This service and tax collection agency, headquartered in Sacramento, functions through a network of field offices located in population centers throughout the state. During the budget year, the department will register and collect taxes and fees on 12,386,000 vehicles and issue new and renewal drivers licenses to approximately 3,400,000 applicants.

The department's capital outlay program provides for state owned buildings where it has been determined that adequate privately owned lease facilities are not available at a reasonable cost. The budget for the 1967–68 fiscal year provides for acquisition of land for an office building and parking facilities at Winnetka and for additional parking facilities at the Sacramento Headquarters. Remodeling of the San Francisco office is also proposed for the budget year.

Continuation of the expansion program at the Sacramento Headquarters, including an emergency power source, is projected. A major projected requirement will be an addition to the existing West Headquarters building. Completion will be required sometime after 1970 when registration and license volume will make additional space necessary. Prior to that time, the existing space leased to other agencies will be renovated and used by the department.

MAJOR PROJECTS[1]

Office building and parking facilities—Winnetka	–	–	$361,500 [L]	$457,000 [C]			
The present quarters and parking area are inadequate. Surveys in the area indicate rental properties would be more costly and it would be to the State's best interest to purchase property and construct a building of adequate size for the workload of this area.							
Additional parking facilities—Sacramento Headquarters	$24,117 [L] −65,303 [C]	$51,500 [C] 268,832 [L] 437,000 [L] 369,180 [L] 267,496 [L]	382,000 [L]				
This proposed project will continue the acquisition of land for future expansion of the Highway Transportation complex. It is necessary to acquire this property in advance to prevent adverse development. The land will be used for a future perimeter road and parking facilities, awaiting development.							
Construction program planning	50,023	2,977 20,000	30,000	21,000	$20,000	$20,000	$20,000
Funds are provided for preparation of preliminary plans for the 1968-69 capital outlay budget.							
Office building—San Mateo	–	500,000 [L]	–	342,900 [C]			
This proposed project will replace the existing office which is inadequate. Surveys in this area indicate that adequate leasing facilities would not be economically feasible.							
Office building—Inglewood	–	447,000 [L]	–	423,158 [C]			
This proposed project will replace the existing office which is inadequate. Investigation into leasing indicates that adequate rented facilities are not readily available.							
Office building—Hayward	–	330,000 [L]	–	353,400 [C]			
This proposed project requests funds to provide adequate office space for the Department's operations in Hayward. The present lease facilities has become inadequate due to workload increase and adequate lease facilities are not economically feasible.							
Office building—Westside Office—Los Angeles County	–	575,000 [L]	–	417,800 [C]			
This proposed project will provide adequate office space for the Department's operations in the Westside Office. The present lease facilities has become inadequate due to workload increases. Lease facilities in the Santa Monica area are not adequate for the Department's needs.							
Office building—Monterey	–	197,000 [L]	–	483,000 [C]			
The proposed funds are to provide new quarters for the Department's operations in the Monterey bay area. The present lease facilities has become inadequate due to workload increases. Surveys have shown adequate lease facilities are not available in this area at reasonable prices.							

For the list of standard (lettered) footnotes, see the end of the Capital Outlay section of the Budget.

GENERAL ANALYSIS

The Veterans' Home, a 2,413-bed facility, is located in Napa County. It is a home for aged and disabled, honorably discharged former members of the armed forces. The site of the home is on a hillside with both single and 2-story buildings and a 4-story hospital. Bed vacancies are in domiciliary sections only. Hospital and intermediate care facilities are totally occupied by applicants for this type of care.

A major project is proposed to replace a broken sewage effluent line. Several minor projects are also proposed.

Projected Capital Outlay needs are for additions, alterations, or improvements to present construction including a 170-bed geriatric wing, a social service center in the hospital, some additional road work to eliminate a hazardous traffic condition, complete vocational training center, alteration, additions, and improvements to the main culinary building, complete and equip hostess house. Future plans also include construction and equipment of a 50-bed women's section with a kitchen and dining area.

[1] Does not include any allowance for vacancies due to members on pass, or for turnover. Excess capacity is in domiciliary sections only.

[2] Twenty-eight additional beds estimated January 1, 1968.

DEPARTMENT OF VETERANS AFFAIRS—Continued

Facilities Financed by Loans From Treasury Funds

VETERANS AFFAIRS BUILDING, SACRAMENTO

(Veterans' Farm and Home Building Fund of 1943)[1]

This office building, constructed under the provisions of the Veterans Affairs Construction Fund Act of 1943, was completed in March, 1957. Occupying agencies including the Department of Veterans Affairs, were to pay rent sufficient to repay the amount advanced by the Veterans' Farm and Home Building Fund of 1943, together with interest thereon. Chapter 1902, Statutes of 1959, abolished the Veterans'Affairs Construction Fund. At that time the loan was converted to a fixed asset of the Veterans' Farm and Home Building Fund of 1943 and rent is received as revenue to the fund.

An appropriation for acquisition and improvement of a parking lot was included in the Budget Act of 1956, subject to the provisions of the Veterans Affairs Construction Fund Act. The parking lot with a capacity of 153 automobiles was put into operation during the month of June, 1958. Additional property was purchased to increase the capacity of the parking lot by approximately one-third. A second appropriation for acquisition and development of parking facilities was included in the Budget Act of 1964, again subject to the Veterans' Affairs Construction Act. Acquisition is currently underway and construction is scheduled for 1967.

UNALLOCATED

GENERAL ANALYSIS

Lump sum appropriations for project planning and miscellaneous repairs, improvements and equipment have been provided from which allocations to agencies are made as needed. The expenditures from such allocations are included in the individual agency budgets. That part which has not been allocated but which is estimated to be needed for further allocations, is included here as an expenditure.

Funds for preparation of complete project planning are proposed to continue the presently authorized procedures for securing sound cost estimates for subsequently budgeted projects.

Expenditures from available appropriations are estimated for allocation to state agencies upon approval of the State Public Works Board as prescribed by Sections 16409 and 16354 of the Government Code for increased cost of construction when the lowest bid on a project is in excess of the available funds for such project. Savings from completed projects are transferred to these funds and are available by law for such allocations.

An appropriation of $1,000,000 is proposed to finance increases in cost during 1967–68 fiscal year, estimated savings returned to Section 16409 of the Government Code will offset allocations made for price increases on construction.

Unallocated construction funds appropriated by Item 397.5, Budget Act of 1963, have been allocated by the Director of Finance for providing laundry facilities to serve Camarillo State Hospital by enlarging the facilities at the California Men's Colony East Facility, in order to expand the contractual service rendered to Camarillo.

Funds are proposed for miscellaneous repairs, improvements and equipment to be allocated to agencies upon subsequent determination of requirements.

[a] This amount is composed of: (1) $650,000 Special Security Facility, Corrections (Item 401(h), Chapter 2/66); (2) $3,074,500, $7,187,200 and $8,690,100 Southern California Youth Center, Youth Authority (Item 402(h) and (i), and 402.5(a) Chapter 2/66); (3) $521,800 Northern California Youth Center, Youth Authority (Item 402(g) Chapter 2/66); (4) $300,000 Langley Porter Neuropsychiatric Institute and $410,000 Modesto State Hospital, Mental Hygiene (Item 411(a) and 412(f), Chapter 2/66); (5) $8,000 Mentally retarded hospital facility, Rehabilitation (Item 414(a), Chapter 2/66); (6) $882,462 unallocated increased cost of construction (Section 16354, Government Code); and (7) $77,400 and $81,400—Youth Authority Camps for Boys (Item 402(a)(b), Chapter 2/66.

[b] Chapter 1808, Statutes of 1965 extended the dates by which districts might make application from September 1, 1966 to September 1, 1968 and the date the funds shall remain in reservation for the districts from June 30, 1967 to June 30, 1969. At June 30, 1966, there remained a balance of $5,897,993 from the original $20 million appropriation. The availability of this balance for junior college construction purposes beyond the June 30, 1966 date is unclear and legislative clarification will be required at the 1967 Legislative Session.

District Agricultural Associations

GENERAL ANALYSIS

Section 80 of the Agricultural Code fixes the boundaries of 51 agricultural districts. There are 50 districts organized and holding fairs in addition to the California Museum of Science and Industry which maintains a permanent exhibit in Los Angeles.

Each of the district agricultural associations is a state institution administered by a board of 9 directors appointed by the Governor. The organization and operation of district agricultural associations are governed by Sections 80 to 98 of the Agricultural Code. District agricultural associations are subject to the laws and administrative regulations which apply to state agencies generally and to specific rules and regulations which apply only to district agricultural associations or to district and county fairs. District fairs are conducted under allocations approved by the Director of Agriculture and budgets approved by the Department of Finance. The Audits Division of the Department of Finance audits the premium awards made at the fairs and makes postaudits as well.

DISTRICT FAIR CONSTRUCTION PROGRAM

Expenditures for Capital Outlay at district agricultural fairs are met from the continuing appropriation made by Business and Professions Code Section 19630, the allocation of which is approved by the State Public Works Board. These funds were augmented by Budget Act appropriations to meet increases for capital expenditure at fairs during 1964–65, 1965–66, and 1966–67.

The amount budgeted for Capital Outlay at county agricultural fairs and citrus fruit fairs is reported in Local Assistance, Subventions for Agriculture.

See Budget Supplement for District, County, and Citrus Fruit Fairs for budget detail.

Totals, Subventions and Other Expenditures	$185,050,199	$156,547,551	$159,342,452	$2,794,901
Totals, Division of Highways	$950,187,672	$1,059,171,522	$939,088,201	–$120,083,321
PUBLIC UTILITIES COMMISSION				
Local Assistance:				
Grade crossing protection—Chapter 1739, Statutes of 1953; Chapter 1, Statutes of 1956; Chapter 1, Statutes of 1958; Chapter 2042, Statutes of 1959 and Chapter 1, Statutes of 1960	$560,437	$614,758	$550,000	–$64,758
City and county maintenance of automatic grade crossing protection; Chapter 1644, Statutes of 1965	–	250,000	260,000	10,000
TOTAL EXPENDITURES AND OBLIGATIONS	$950,748,109	$1,060,036,280	$939,898,201	–$120,138,079

NOTE: In order to conform with the arrangement of the Governor's Budget as between Current Expenditures and Capital Outlay, this report submitted to the Governor as required by Sections 143.1 and 143.2 of the Streets and Highways Code has been segregated according to those categories. This schedule has been included to show in one place the total expenditures of the Division of Highways from all sources including Federal Aid.

---

[a] Section 186 of the Streets and Highways Code limits highway maintenance and general administration expenditures out of the money available each year in the State Highway Fund to an amount not exceeding the net revenue derived from 1¢ per gallon tax on motor vehicle fuel and on the use of fuel.

Comparison of $0.01 per gallon tax revenue received with subject expenditures:

Revenue	$73,629,562
Subject expenditures	–70,424,295
Excess Revenue Over Net Subject Expense	$3,205,267

[b] The 1966–67 and 1967–68 fiscal year budgets provide $255,000 and $250,000 respectively which amounts were appropriated from the Motor Vehicle Transportation Tax Fund to continue the Highways Research Program first authorized by the Legislature in 1961. The Administrator of the Highway Transportation Agency, in conjunction with the California Highway Transportation Research Council, has made an intensive study of the highway safety problem and developed a 5-year plan to collect essential data which is necessary before substantial progress can be made. Annually, the highway safety research plan will be reviewed and brought up to date. Actual research is carried out by the Department of Public Works, California Highway Patrol, Department of Motor Vehicles and the University of California.

[c] For support of activities of the Bay Area Transportation Study Commission, the 1965–66 fiscal year Highway Planning Budget Item provided $2,480,000 as the Division of Highways' initial participation to finance the streets and roads portion of the study. The 1966–67 Highway Planning Budget Item provides $473,300 as the Department of Public Works, Division of Highways' estimated continuing financial participation.

GENERAL ANALYSIS

The proposed expenditure program for highways is related to allocations of Federal Aid Subventions and increased rates and fees for motor vehicle fuel and motor vehicle registration and weight fees enacted by the 1965 Legislature.

Department of Public Works

Recapitulation of Proposed Expenditures and Obligations for Construction of State Highways for 1967–68 Fiscal Year, Showing Allocation of Construction Funds by County Group, Pursuant to Section 188, Streets and Highways Code as of December 1, 1966

EXPENDITURE CATEGORY	NORTHERN COUNTY GROUP	SOUTHERN COUNTY GROUP	TOTAL
Major construction and improvement projects	$170,933,800	$189,501,000	$360,434,800
Thin blanket program and deferred seal coats	2,700,000	1,800,000	4,500,000
Traffic stripe, pavement markings and signs	2,250,000	2,750,000	5,000,000
Traffic safety projects	1,800,000	2,200,000	4,000,000
Minor improvement and betterment projects	1,000,000	500,000	1,500,000
Preliminary Engineering:			
Preliminary engineering—planning	4,700,000	5,650,000	10,350,000
Preliminary engineering—design	18,950,000	21,750,000	40,700,000
Construction engineering	22,375,000	24,125,000	46,500,000
Highway planning	1,400,000	2,240,000	3,640,000
Rights-of-Way:			
Rights-of-way—acquisition	62,841,317	105,030,644	167,871,961
Rights-of-way—support	10,450,000	12,100,000	22,550,000
Contingencies	5,443,045	5,985,943	11,428,988
Totals, reconditioning, resurfacing and construction of state highways [a]	$304,843,162	$373,632,587	$678,475,749
Land and buildings	2,000,000	3,000,000	5,000,000
State aid county highways, federal and matching funds [b]	2,900,000	1,300,000	4,200,000
Federal aid secondary urban extensions [c]	1,121,000	2,012,500	3,133,500
Railroad grade separations [d]	2,250,000	2,750,000	5,000,000
Totals, expenditures subject to allocations under Section 188, Streets and Highways Code	$313,114,162 (45%)	$382,695,087 (55%)	$695,809,249 (100%)

RECONCILIATION WITH APPROPRIATIONS

State Highway Fund

EXPENDITURES	ACTUAL 1965-66	ESTIMATED 1966-67	PROPOSED 1967-68
APPROPRIATIONS			
Continuing appropriation prescribed by Section 183, Streets and Highways Code (Expenditures)	$331,727,981	$454,490,577	$308,736,500
San Diego-Coronado Crossing Engineering and Design Studies:

Budget Act appropriation of 1964, Item 321.1	–	–	–
Prior year balance available	49,604	45,666	–
Balance available in subsequent year	45,666	–	–
Total Expenditures, Feasibility Study	$3,938	$45,666	–
TOTAL EXPENDITURES *(State funds)*	$332,455,868	$455,036,243	$308,736,500

---

[a] Excludes convict labor construction which is not subject to allocation by county group pursuant to Section 188.7, Streets and Highways Code.

[b] Included in county group allocation pursuant to Section 2210.5, Streets and Highways Code.

[c] Included in county group allocation pursuant to Section 143.3, Streets and Highways Code.

[d] Budgeted for allocation to cities and counties pursuant to Section 190, Streets and Highways Code.

Department of Public Works

EXPENDITURES	ACTUAL 1965-66	ESTIMATED 1966-67	PROPOSED 1967-68
RECONCILIATION WITH APPROPRIATIONS—Continued			
State Highway Fund—Continued			
NOTE: In addition to the amounts expended for state highways, the following amounts are expended for or on behalf of local streets and highways and other agencies:			
LOCAL STREETS AND HIGHWAYS			
State Funds:			
City streets, construction and maintenance (Sections 194 and 2107, Streets and Highways Code)	$50,828,996	$52,900,000	$55,000,000
City streets, engineering and administration (Section 2107.5, Streets and Highways Code)	1,469,126	1,500,000	1,500,000
Grade crossing protection, Chapter 1739, Statutes of 1953, Budget Acts of 1956 and 1958 and Chapter 2042, Statutes of 1959, Budget Act of 1960	560,437	614,758	550,000
Maintenance of Automatic Grade Crossing Protection, Chapter 1644, Statutes of 1965	–	250,000	260,000
Railroad grade separation, Chapter 2091, Statutes of 1957	4,991,909	5,000,000	5,000,000
Aid to counties federal aid matching (2210.5, Streets and Highways Code)	4,191,743	4,200,000	4,200,000
Federal aid secondary urban extensions (Section 143.3 of Streets and Highways Code)	3,683,216	4,162,700	3,133,500
City streets and county roads (Section 186.1 of Streets and Highways Code)	72,560,713	76,100,000	78,900,000
Totals, State Funds	$138,286,140	$144,727,458	$148,543,500
Other Funds:			
County Highway Construction—Federal Aid Secondary:			
Federal funds	9,318,121	3,629,491	8,551,421
Contribution—FAS project (counties)	3,318,745	931,813	–
Contribution—FAS urban extension (cities)	967,075	247,630	–
Totals, County Highway Construction—FAS	$13,603,941	$4,808,934	$8,551,421

Department of Public Works

Detail of Major Project Allocations for Construction of Highways and Bridges as Recommended by the California Highway Commission for the 1967–68 Fiscal Year

COUNTY	ROUTE & POST MI.	DESCRIPTION	APPROXIMATE MILEAGE	ESTIMATED COST
		NORTHERN GROUP OF COUNTIES		
Alameda	17 13.3/15.2	0.1 mile north of Alvarado-Niles Road to south of Tennyson Road; add lanes for 6-lane freeway, Industrial Parkway Interchange and scale installation (cooperative project, total estimate $1,945,000) (state's share)	2.0	$1,775,000
Alameda, Contra Costa	17 34.9/5.8	Route 80 to Richmond-San Rafael Bridge in Richmond (portions); base and surface	6.2	400,000
Alameda	24 2.7/4.6	North of 51st Street to 1.2 miles east of Landvale Road in Oakland (portions), and north of 51st Street to 0.1 mile east of Golden Gate Avenue; 8-lane freeway (total estimate $16,000,000, $4,700,000 1968–69 fiscal year) (cooperative project with BARTD) (state's share)	1.9	5,000,000
Alameda, Contra Costa	24 5.1; 1.9	0.5 mile east of Route 13 to 0.4 mile west of Orinda Interchange (portions); landscape	2.4	179,000
Alameda	24 580 1.0/2.8 45.2	South of 27th Street to east of Route 13 in Oakland (portions); south of 27th Street to north of 51st Street, 8-lane freeway (total estimate $23,131,764, $5,875,000 1966–67 fiscal year) (cooperative project—BARTD $6,245,902, other agency $36,862) (state's share)	1.8	10,974,000
Alameda, Contra Costa	80 7.3/8.0 0.0/5.3	El Cerrito Overhead to County Road 20; median barrier, 6-lane freeway	6.0	300,000
Alameda	185 0.0/2.9	Route 92 to Ashland Avenue in Hayward (portions); resurface, 4-lane conventional	2.9	125,000
Alameda	580 0.9/9.4	0.9 mile west of San Joaquin County Line to 0.5 mile east of Vasco Road; 8-lane freeway (total estimate $14,700,000, $5,000,000 1966–67 fiscal year)	8.5	9,700,000
Alameda	580 34.4/42.7	Joaquin Avenue in San Leandro to Park Boulevard in Oakland (portions); resurface MacArthur Boulevard prior to relinquishment	8.3	210,000
Alpine	4 1.2/3.2	1.2 miles east to 3.2 miles east of Calaveras county line; 2-lane expressway; second stage	2.0	1,110,000
Amador	49 4.3/6.0	Main Street in Jackson to Martell; 4-lane city street (portion) and truck climbing lanes (portion) (cooperative project, total estimate $420,000) (state's share)	1.7	414,000
Butte	32 6.2/6.5	At Lindo Channel, about 2.0 miles west of Chico; 2-lane bridge and approaches	0.3	200,000
Butte	99 33.1/37.5	Palmetto Avenue in Chico to 0.3 mile north of Mud Creek; landscape, functional and tree planting	4.4	360,000
Colusa	5 1.5/15.3	5.5 miles south of Arbuckle to Husted Road south of Williams; 4-lane freeway (total estimate $6,725,000, $4,400,000 1966–67 fiscal year)	13.4	2,325,000
Colusa, Sutter	20 39.3/0.1	Sacramento River Bridge No. 18-8 at Meridian; redeck 2-lane bridge	0.2	300,000
Colusa	45 20.7/25.3	0.9 mile north to 5.5 miles north of Colusa (portions); 2-lane conventional; curve corrections	4.6	140,000
Contra Costa, Solano	80	Carquinez Bridge; lighting	–	115,000
Contra Costa, Solano	80	Carquinez Bridge; railing for west bridge	–	143,000
Contra Costa	680 1.0/6.5	1.0 mile north of Alameda county line to Sycamore Valley Road; tree and functional planting and landscape storage building	5.5	180,000
Del Norte	101 R4.7/T6.1	Route 101/169 Interchange to 1.4 miles north; 2-lane expressway (grading for 4 lanes)	1.4	1,950,000
El Dorado	49 12.8	Weber Creek Bridge No. 25-31; 2-lane bridge and approaches	–	75,000
El Dorado	50 7.7/15.2	0.8 mile west of Shingle Springs to 0.4 mile east of Missouri Flat Road; 4-lane freeway (total estimate $9,030,000, $3,000,000 1966–67 fiscal year)	7.5	6,030,000
El Dorado	193 8.9/9.2	9.0 mile east of Cool; widen and realign (casual labor) 2-lane conventional	0.3	65,000
Fresno	5 17.8/45.5	0.2 mile south of Fresno-Coalinga Road to 0.3 mile south of Manning Avenue; grade and structures for 4-lane freeway (total estimate $5,484,000, $3,145,000 1966–67 fiscal year)	27.7	2,339,000
Fresno	69 7.5/8.0	0.4 mile south to 0.1 mile north of Mill Creek Bridge; 2-lane conventional, widen (casual labor)	0.5	100,000
Fresno	99 22.7	Belmont Avenue Overcrossing (bridge No. 42-186); widen to 4 lanes (cooperative project) (total estimate $350,000) (state's share)	–	80,000
Glenn	5 6.9/28.9	2.0 miles south of Willows to Tehama county line; median screen and tree planting at interchanges	22.0	165,000
Humboldt	36 26.1/34.8	1.3 miles east and 10.0 miles east of Bridgeville (portions); (casual labor) (curve correction). 2-lane conventional	2.0	100,000
Humboldt	101 5.5/9.0	1.8 miles south of Benbow to 0.7 mile south of Garberville; 4-lane freeway	2.9	6,300,000

Additional Statements of Expenditures and Obligations and Revenues for 1965–66 and 1966–67 Fiscal Years, Submitted Pursuant to Section 143.2, Streets and Highways Code

Statement 1—Comparison of proposed expenditures and obligations to be incurred for the 1966–67 fiscal year in the current budget with proposed expenditures and obligations to be incurred for the 1966–67 fiscal year as shown in the budget submitted to the 1966 Session of the Legislature.

Statement 2—Expenditures and obligations incurred for the 1965–66 fiscal year, compared to budget allocations presented to the 1965 and 1966 Sessions of the Legislature.

Statement 3—Detail of major project allocations for construction of highways and bridges for the 1966–67 fiscal year, compared to budget allocations.

Statement 4—Detail of major project allocations for construction of highways and bridges for the 1965–66 fiscal year, as revised to June 30, 1966, compared to budget allocations.

Statement 5[a]—Expenditures for maintenance by routes for the 1965–66 fiscal year.

Statement 6—Comparison of revised revenue estimates for the 1966–67 fiscal year with budget estimates submitted to the 1966 Session of the Legislature.

---

[a] Expenditures by route were not available at the time of the printing of the budget.

Department of Public Works

Statement No. 3—Detail of Major Project Allocations for Construction of Highways and Bridges for the 1966–67 Fiscal Year, Compared to Budget Allocations

COUNTY	ROUTE	DESCRIPTION	APPROX. MILEAGE	ESTIMATED COST ORIGINAL	ESTIMATED COST REVISED AS OF 11-1-66	DIFFERENCE
NORTHERN GROUP OF COUNTIES						
Alameda	13 4.2/5.5	Route 580 to Redwood Road in Oakland; landscape	1.3	$148,000	$148,000	–
Alameda	17 9.6/15.2	0.4 mile south of Jarvis Avenue to 0.4 mile south of Tennyson Road in Hayward; median barrier	5.6	100,000	100,000	–
Alameda	17 15.1/16.8	0.5 mile south of Tennyson Road to 0.1 mile north of Route 92; widen to 6 lanes and signs	1.7	490,000	442,903	–$47,097 [a]
Alameda	17 17.6	Winton Avenue Interchange; additional ramps and structure	–	720,000	945,926	225,926 [f, g]
		Contribution by City of Hayward			(78,359)	
Alameda	17 25.8/27.8	0.4 mile north of Hegenberger Road to High Street in Oakland; 66th Avenue Interchange	2.0	1,800,000	1,800,000	–
Alameda	24, 580 1.0/2.8 45.2	South of 27th Street to east of Route 13 in Oakland (portions); south of 27th Street to north of 51st Street; 8-lane freeway (total estimate $23,131,423, $10,973,659 1967–68 fiscal year)	1.8	7,875,000	5,875,000	–2,000,000 [a]
		Contributions by Alameda County Flood Control and Water Construction District and Bay Area Rapid Transit District			(6,282,764)	
Alameda	80 3.1/4.5	Distribution Structure in Oakland to Ashby Avenue Interchange; add auxiliary lanes	1.4	765,000	696,345	–68,655 [a]
Alameda	84 5.3	At Newark Grade Crossing No. L-30.4, on Thornton Avenue (Route 84) at Dairy Avenue; install automatic gates (State's share)	–	–	14,500	14,500 [m]
Alameda	84 18.0/25.2	Route 680 near Scotts Corner to Livermore; construct shoulders	7.2	100,000	100,000	–
Alameda	238 12.2/12.6	Highland Boulevard (Sycamore Avenue) to Route 92, Jackson Street, Hayward; widen to 4-lane conventional	0.4	165,000	144,226	–20,774 [a]
		Contribution by City of Hayward			(20,319)	
Alameda	580 0.9/9.4	0.9 mile west of San Joaquin County Line to 0.5 mile east of Vasco Road; 8-lane freeway and roadside rest at Grant Line Road and truck stop at North Flynn Road Interchange (total estimate $14,500,000; $9,500,000 1967–68 fiscal year)	8.5	5,000,000	5,000,000	–
Alameda	580 31.2/34.1	0.2 mile west of 173rd Avenue to 0.4 mile west of Gabriel Court in and near San Leandro; landscape	2.9	300,000	300,000	–
Alameda	580 33.9/35.6	0.2 mile west of Gabriel Court in San Leandro to 0.1 mile west of 108th Avenue in Oakland; landscape	1.7	–	212,847	212,847 [h]
Alameda	580 35.6/40.0	0.1 mile west of 108th Avenue to Birdsall Avenue in Oakland (portions); landscape	4.4	623,000	623,000	–
Alameda	580 37.5/37.7	At two locations approximately 0.1 mile south of Fontaine Street Overcrossing in the City of Oakland; correct slides	–	–	70,000	70,000 [r]
Alameda	680 6.3/6.8	At the Mission San Jose Interchange in the City of Fremont; construct a separation structure and reconstruct the existing separation	0.5	–	310,112	310,112 [i]
Alameda	680 10.5/19.2	Route 84 near Scotts Corner to south of Route 580; 4-lane freeway (total estimate $8,360,000; $4,115,000 1965–66 fiscal year)	8.7	4,245,000	4,245,000	–
Alameda, Contra Costa	680 19.7/1.0	0.4 mile south of Route 580 to 1.0 mile north of Alameda-Contra Costa county line near Dublin; landscape	3.2	380,000	380,000	–
Alpine	4 0.6/3.2	0.6 mile east of Calaveras county line to 3.2 miles east of Calaveras county line; 2-lane expressway, first stage	2.6	250,000	191,477	–58,523 [a]
Alpine	4 28.8/29.2	8.1 miles to 7.7 miles west of Markleeville; widen and resurface	0.4	–	10,000	10,000 [j]
Amador	88 68.1/69.8	On the easterly side of Route 88 between Martin Meadows and Carson Spur; construct a range fence	1.7	–	12,700	12,700 [k]

For footnotes see end of Statement No. 3.

Department of Public Works

Statement No. 3—Detail of Major Project Allocations for Construction of Highways and Bridges for th 1966–67 Fiscal Year, Compared to Budget Allocations—Continued

County	Route	Description	Approx. Mileage	Estimated Cost Original	Estimated Cost Revised as of 11-1-66	Difference
		NORTHERN GROUP OF COUNTIES—Continued				
Butte Butte	32 8.1/R9.7 99 32.6/33.2	Route 32—0.1 mile north of Big Chico Creek to Main Street in Chico; Route 99 (southbound) Little Chico Creek to Big Chico Creek; 4-lane conventional and resurface	1.9	$360,000	$429,561	$69,561 [g]
		Contribution by City of Chico			(156,602)	
Butte	70 28.8	0.1 mile east of West Branch Bridge; safety roadside rest	–	–	65,000	65,000 [h]
Butte	99 35.9/38.3	Between Shasta Avenue north of Chico and 0.5 mile north of Garner Lane (portions); resurface	–	–	15,000	15,000 [s]
Calaveras, Tuolumne	4, 108 58.3/R63.7 6.8/26.0	At various locations on Route 4 between Ganns Meadow and Tamarack and on Route 108 between 6.1 mile east of Sonora and 5.8 miles east of Long Barn; stabilize slopes	12.0	–	20,000	20,000 [r]
Colusa	5 1.5/16.0	5.5 miles south of Arbuckle to Husted Road south of Williams; 4-lane freeway (total estimate $7,500,000; $3,100,000 1967–68 fiscal year)	13.4	4,400,000	4,400,000	–
Contra Costa	242 R0.0/2.6	North of junction of Routes 680/242 Interchange to Olivera Road in Concord; landscape	2.6	–	219,470	219,470 [h]
Contra Costa	680 1.0/5.1	1.0 mile north of Alameda county line to 1.6 miles south of Sycamore Valley Road (portions); drainage and resurface	3.2	58,000	58,000	–
Del Norte	101 15.7/23.6	3.1 miles north of Wilson Creek to 2.1 miles south of Crescent City (portions); truck lanes	7.9	680,000	563,135	–116,865 [a]
Del Norte	199 33.3/34.0	At Collier Tunnel; improve existing roadside rest	–	–	52,000	52,000 [z]
El Dorado	50 7.7/15.2	0.8 mile west of Shingle Springs to 0.4 mile east of Missouri Flat Road; 4-lane freeway (total estimate $7,700,000; $4,700,000 1967–68 fiscal year)	7.5	3,000,000	3,000,000	–
El Dorado	89 5.6	Above Christmas Valley on Luther Pass; Vista point	–	–	10,000	10,000 [h]
Fresno	5 0.0/17.8	Kings County Line to 0.2 mile south of Fresno-Coalinga Road; grading and structures for 4-lane freeway	17.8	3,235,000	3,599,359	364,359 [g]
Fresno	5 17.8/45.5	0.2 mile south of Fresno-Coalinga Road to 0.3 mile south of Manning Avenue; grading and structures for 4-lane freeway (total estimate $5,646,000; $2,501,000)	27.7	3,145,000	3,145,000	–
Fresno	33 43.4/43.5	At 3.6 miles and at 3.7 miles north of the Route 33/5 separation (north); raise the grade	–	–	6,000	6,000 [i]
Fresno, Merced	33 79.9/1.6	Laguna Canal to 700-ft. north of Dos Palos North City Limits and Colony Canal Bridge No. 42-28; 2- and 4-lane conventional highway	5.0	908,000	716,403	–191,597 [a]
		Contribution by City of Dos Palos 1967–68 fiscal year			(19,694)	
Fresno	41 26.7/27.2	Between East Shields Avenue and East Dakota Avenue in Fresno; construct storm drain facilities (state's share)	–	–	6,000	6,000 [j]
Fresno	99 0.0/17.0	Tulare county line to 0.2 mile south of Church Avenue; landscaping and functional and tree planting	19.0	–	466,000	466,000 [h]
Fresno	99 20.5/21.9	Kern Street to 0.1 mile northwest of Thorne Avenue in Fresno; landscaping	1.4	85,000	85,000	–
Humboldt	36 26.1/34.8	1.3 miles east and 10.0 miles east of Bridgeville (portions); (casual labor) curve correction (2-lane conventional)	2.0	100,000	100,000	–
Humboldt	101 9.1/14.7	0.8 mile south of Garberville to 0.4 mile north of Dean Creek (4-lane freeway); grade, surface and structures	4.3	6,250,000	6,234,859	–15,141 [a]
Humboldt	101 15.7/20.5	At 3 locations between 1.4 miles and 6.2 miles north of Dean Creek; correct slides	–	–	19,600	19,600 [r]
Humboldt	101 23.9/25.0	Between Salmon Creek Bridge and Salmon Creek Road Overcrossing; improve drainage	–	–	7,200	7,200 [j]
Humboldt	101 58.9/74.6	1.7 miles south of Fortuna to Elk River; functional and tree planting	15.7	–	28,253	28,253 [h]

Statement No. 3—Detail of Major Project Allocations for Construction of Highways and Bridges for the 1966–67 Fiscal Year, Compared to Budget Allocations—Continued

NORTHERN GROUP OF COUNTIES—Continued

COUNTY	ROUTE	DESCRIPTION	APPROX. MILEAGE	ESTIMATED COST ORIGINAL	ESTIMATED COST REVISED AS OF 11-1-66	DIFFERENCE
Humboldt	101 89.6/97.5	Mad River, approximately 0.3 mile north of Arcata, to 0.2 mile north of Little River; functional and tree planting	8.0	–	$12,000	$12,000 [h]
Humboldt	299 16.8/18.0	10.4 miles east to 11.6 miles east of Blue Lake (portions); grade and culverts for 2-lane expressway	1.0	$300,000	252,868	–47,132 [a]
Kings	41 41.2	At West Lemoore Grade Crossing No. BD-262.1 approximately 0.5 mile west of Lemoore; install automatic gates (state's share)	–	–	5,500	5,500 [m]
Lake	20 15.8/16.0	At Elliott Creek approximately 2 miles west of Lucerne; construct a culvert	–	–	31,108	31,108 [g]
Lake	29, 53 20.2/0.2, 20.7	Between 0.1 mile south of Lower Lake on Route 29 and 0.2 mile north of Route 29 on Route 53 and at 0.3 mile west of Lower Lake on Route 29; grade, surface, illumination and structure	0.4	100,000	119,049	19,049 [g]
Lake	29 34.4/41.3	0.9 mile south of Kelseyville to Route 175; blanket existing highway prior to relinquishment	6.8	95,000	70,857	–24,143 [a]
Lake	175 21.7/21.9	Between 2.4 miles south and 2.2 miles south of Cobb Post Office; correct a slipout	0.2	–	45,000	45,000 [r]
Lassen	139 16.8/17.1	At Meadow Channel Bridge No. 7-61 and at Willow Creek Bridge No. 7-62; 2-lane conventional; bridges and approaches	0.3	60,000	80,100	20,100 [g]
Lassen	395 49.6	7.7 miles north of Milford; safety roadside rest	–	–	99,500	99,500 [h]
Lassen	395 134.3	Approximately 4.8 miles north of Madeline; safety roadside rest facilities	–	–	55,000	55,000 [h]
Marin	101 4.6/8.5	Richardson Bay Bridge to Corte Madera Creek (portions); resurface	3.9	275,000	295,000	20,000 [f]
Marin	101 10.5/10.8	Between Rice Street and 0.1 mile south of Second Street in the City of San Rafael; construct temporary one-way connecting road	0.3	–	21,500	21,500 [k]
Marin	101, 37 18.7/19.3 11.2/11.9	At the Route 101/37 Interchange in and near the City of Novato; functional and tree planting	–	–	11,200	11,200 [v]
Marin, Sonoma	101 22.9/2.4	0.7 mile north of Atherton Avenue to 0.9 mile south of Petaluma Overhead north of Novato (portions); resurface	6.0	175,000	175,000	–
Marin, Sonoma	101 24.6/2.4	Between 0.7 mile north of Atherton Avenue and 0.9 mile south of Petaluma Overhead (portions); reconstruct and widen median shoulders	–	–	18,000	18,000 [l]
Marin	131 R0.9/R1.6	Blackfield Drive to Reed Ranch Road in Tiburon; landscape	0.7	–	15,000	15,000 [h]
Mariposa	49 8.7/13.9	0.7 mile west of Usona Road to 0.1 mile west of Allred Road; 2-line expressway	5.2	1,685,000	1,685,000	–
Mariposa	49 R34.2/R34.8	Across the Merced River at Bagby; remove existing bridge	–	–	6,000	6,000 [y]
		Contributions by Merced Irrigation District			(12,060)	
Mariposa, Tuolumne	132 7.1/14.7	0.5 mile west of Tuolumne-Mariposa county line to 4.1 miles west of Coulterville; 2-lane conventional	5.4	1,180,000	1,231,430	51,430 [g]
Mariposa	140 29.8/30.0	1.9 miles to 2.1 miles north of Midpines; curve correction; 2-lane conventional	0.2	90,000	90,000	–
Mendocino	20, 101 36.6/33.2, 46.2,46.4	0.6 mile west of Route 101 on Route 20 and CWRR Crossing to 0.2 mile north on Route 101 in Willits; grade, surface and structure	0.6	210,000	217,594	7,594 [g]
Mendocino	20 37.3/42.5	0.7 mile west of Potter Valley Road to 0.6 mile east of North Fork Cold Creek (initial 2-lane expressway); grade, surface and structures	5.1	2,100,000	2,303,228	203,228 [g]
Mendocino	101 16.9/31.4	6.0 miles north of Hopeland to 0.5 mile east of Forsythe Creek; functional and tree planting	14.5	–	53,600	53,600 [h]
Mendocino	101 39.6/82.1	Approximately 9 miles north of Calpella and approximately 2.9 miles south of Cummings Post Office; construct stabilization trenches and install horizontal drains	–	–	145,000	145,000 [r]

For footnotes see end of Statement No. 3.

COUNTY	ROUTE	DESCRIPTION	APPROX. MILEAGE	ESTIMATED COST ORIGINAL	ESTIMATED COST REVISED AS OF 11-1-66	DIFFERENCE
		NORTHERN GROUP OF COUNTIES—Continued				
Mendocino	101 58.9 Lt.	At Moss Cove, approximately 10.5 miles south of Laytonville; safety roadside rest	–	–	$119,000	$119,000 [h]
Mendocino	101 61.5 Rt.	At Irving Lodge, approximately 7.9 miles south of Laytonville; safety roadside rest	–	–	100,000	100,000 [h]
Mendocino	101 81.5	Approximately 12.1 miles north of Laytonville; stabilize a slide	–	–	90,000	90,000 [r]
Mendocino	101 82.5 Rt.	At Empire Camp, approximately 2.6 miles south of Cummings Post Office; safety roadside rest	–	–	120,000	120,000 [h]
Mendocino	101 83.8/88.3	1.2 miles south of Cummings Post Office to 1.0 mile south of Panther Springs (portions); 4-lane freeway	2.1	$5,800,000	5,000,000	–800,000 [b]
Merced	5 18.4	Bridge No. 39-162 R/L across the San Luis Canal approximately 0.7 mile north of Route 152; improve riding qualities	–	–	55,000	55,000 [h]
Merced, Stanislaus	5 24.6/32.5, 0.0/5.9	2.8 miles north of Route 33 to 0.4 mile north of Stuhr Road; 4-lane freeway	13.8	890,000	890,000	–
Merced	59 14.9	At "V" Street Grade Crossing No. B-149.7 in the City of Merced; install automatic gates (state's share)	–	–	7,000	7,000 [m]
Merced	152 0.0/R15.0	Santa Clara county line to Route 207; tree planting	15.0	–	31,000	31,000 [h]
Merced	152 8.7/10.3	At three locations between 1.9 mile west of Route 207 and Route 207; improve drainage	–	–	7,266	7,266 [j]
Merced	152 15.7/19.3	0.3 mile east of Highline Canal to Ortigalita Road; 4-lane expressway (2.6 miles) and 4-lane street (1.0 mile)	3.6	690,000	690,000	–
Merced, Madera	152 40.2/41.0 0.0/6.5	0.8 mile west of Merced-Madera county line to 0.6 mile west of County Road 10; 4-lane freeway and expressway	7.3	1,650,000	1,759,394	109,394 [g]
Modoc	139 0.2/7.9	Route 299 near Canby to 8.2 miles northerly; 2-lane expressway (stage construction)	7.7	1,430,000	1,400,387	–29,613 [a]
Modoc	299 9.1	8.9 miles northeast of Adin; safety roadside rest	–	–	93,000	93,000 [h]
Monterey	1 27.2	1.3 miles north of Vicente Creek; vista point	–	–	15,000	15,000 [h]
Monterey	1, 68 74.7/81.6 4.0/4.8	Viejo Road (south city limits Monterey) to Fort Ord; 4-lane freeway	6.7	7,400,000	7,400,000	–
		Contributions by Southern Pacific Company			(1,200)	
Monterey	1 86.1	At Palm Avenue in the community of Marina; construct pedestrian overcrossing (state's share)	–	–	24,250	24,250 [k]
Monterey, Santa Cruz	1 100.8/5.6	Route 1—1.2 miles south of Pajaro River to 2.3 miles northwest of Watsonville (portions); Route 129—Route 1 to 0.1 mile east of Main Street: 4-lane freeway on Route 1 and 4-lane conventional on Route 129	6.9	–	3,962,082	3,962,082 [h]
Santa Cruz	129 0.0/1.6					
		Contributions by Southern Pacific Company			(2,315)	
Monterey	101 3.3	2.5 miles north of Camp Roberts Overcrossing; safety roadside rest	–	–	148,000	148,000 [h]
Monterey	101 8.0	Salinas River Bridge at Bradley; repair bridge	–	–	7,500	7,500 [n]
Monterey	101 21.1	Bridge No. 44-06 across the Salinas River at San Ardo; strengthen	–	–	5,600	5,600 [i]
Monterey	101 39.0/43.2	1.0 mile south of King City to 1.0 mile north of Salinas River (King City bypass); 4-lane freeway (total estimate $4,200,000; $1,700,000 1967–68 fiscal year)	3.1	2,500,000	2,500,000	–
Monterey	101 88.0/91.3	Sherwood Drive Overcrossing in Salinas to 0.5 mile south of Espinosa Road; functional and tree planting	3.3	105,000	126,421	21,421 [f]
Monterey	156 1.3	Near Giel Street in the City of Castroville; construct a pedestrian overcrossing	–	–	70,000	70,000 [k]
Napa	29 10.7/11.7	Old Sonoma Road to Napa Creek in the City of Napa; landscape	1.0	105,000	113,052	8,052 [g]

Department of Public Works

Statement No. 3—Detail of Major Project Allocations for Construction of Highways and Bridges for the 1966–67 Fiscal Year, Compared to Budget Allocations—Continued

County	Route	Description	Approx. mileage	Estimated cost: Original	Estimated cost: Revised as of 11-1-66	Difference
		NORTHERN GROUP OF COUNTIES—Continued				
San Joaquin	4 16.5/18.1	Center Street to "B" Street; reconstruct portions	1.5	$150,000	$191,226	$41,226 [f, g]
San Joaquin	5, 580 0.0/5.2	Stanislaus county line to 0.7 miles north of Route 132, 6 miles west of Vernalis; 4-lane freeway	5.8	–	2,957,099	2,957,099 [a]
San Joaquin	5 24.1/25.7	Charter Way to Pershing Avenue (first stage); bridge and bridge substructure for 8-lane freeway	1.5	3,040,000	3,040,000	–
San Joaquin	5 25.5/27.3	Stockton Channel to Country Club Boulevard; 8-lane freeway (total estimate $5,850,000; $3,350,000 1967–68 fiscal year)	1.7	2,500,000	2,500,000	–
San Joaquin	5 26.8/29.8	0.2 mile south of Smith's Canal to Swain Road (portions); structures and approaches at Smith's Canal, Calaveras River, and Fourteen Mile Slough; 6 and 8-lane freeway	3.0	–	2,685,000	2,685,000 [h]
San Joaquin	5 27.2/28.7	Country Club Boulevard to March Lane; 6-lane freeway (total estimate $3,400,000; $1,555,000 1967–68 fiscal year)	1.5	1,845,000	1,845,000	–
San Joaquin	99 21.8/28.7	Calaveras River to 0.3 mile north of Harney Lane Overcossing near Lodi; functional and tree planting and median barrier	6.9	–	366,209	366,209 [a]
San Joaquin	132 0.2/6.3	0.2 mile east of Route 580 to 0.5 mile east of Route 33; grade, pave and structures, 4-lane freeway for first mile, remainder 2 lanes of ultimate 4-lane freeway (state's share)	6.1	–	1,901,905	1,901,905 [h]
San Joaquin, Stanislaus	132 6.2/7.1, 0.0/13.4	Welty Road to west city limits of Modesto at Carpenter Road; construct shoulders	14.3	700,000	723,500	23,500 [g]
San Mateo	1 35.2/35.7	On Vallemar Street (a frontage road), 6.2 miles to 6.7 miles north of Route 92; reconstruct and resurface	0.5	–	28,000	28,000 [h]
San Mateo	1 42.8/45.3	0.5 mile south of Sharp Park Road to 0.4 mile north of Manor Drive (portions): landscape	1.4	250,000	266,930	16,930 [g]
San Mateo	35 23.4/28.6	0.3 mile north of Crystal Springs Road to Route 1 in Daly City; resurface	5.2	300,000	300,000	–
San Mateo	82 2.8, 3.2	Intersections of El Camino Real (Route 82) with Center Street and with Oakwood Drive-Dumbarton Avenue in Redwood City; traffic signals and channelization	–	–	57,000	57,000 [h]
		Contributions by San Mateo County and Redwood City			(40,315)	
San Mateo	84 2.2/8.4	2.2 miles east of Route 1 to La Honda; resurface	6.2	175,000	175,000	–
San Mateo	92, 101 7.4/9.7 12.2/14.3 10.8/11.5	On Route 92 from Route 280 to 0.3 mile north of West Hillsdale Boulevard and 0.2 mile west of Norfolk Street to San Mateo-Hayward Bridge (portions); 4-lane freeway, and on Route 101 at East Hillsdale Boulevard Interchange; additional ramps and revise signing	5.1	4,500,000	4,500,000	–
		Contributions by San Mateo County			(67,133)	
San Mateeo	101 3.6	Marsh Road Interchange in Menlo Park; functional and tree planting	–	–	25,000	25,000 [h]
San Mateo	114 R2.9/4.0	Cypress Avenue to Route 101; landscape	1.1	–	15,000	15,000 [h]
San Mateo	280 3.2/5.7	0.1 mile south of Woodside Road (Route 114) to 0.1 mile north of Raymundo Drive in Woodside; 8-lane freeway (total estimate $5,980,000; $1,600,000 1967–68 fiscal year)	2.5	4,380,000	4,380,000	–
San Mateo	280 12.4/19.0	0.1 mile south of Bunker Hill Drive to 0.4 mile north of Larkspur Drive in Millbrae; 8-lane freeway and roadside rest north of San Mateo Creek (total estimate $8,800,000; $3,900,000 1967–68 fiscal year)	6.6	4,900,000	4,900,000	–

Statement No. 3—Detail of Major Project Allocations for Construction of Highways and Bridges for the 1966–67 Fiscal Year, Compared to Budget Allocations—Continued

County	Route	Description	Approx. Mileage	Estimated Cost Original	Estimated Cost Revised as of 11-1-66	Difference
		SOUTHERN GROUP OF COUNTIES—Continued				
Ventura	126 1.5	Route 126 Freeway—Victoria Avenue Interchange; additional ramps and install signals	–	–	$405,000	$405,000 [b]
Ventura	126 4.9/13.4	Route 126 Freeway—0.1 mile west of Wells Road (Route 118) to 0.7 mile east of Santa Paula east city limits; landscape, functional and tree planting and maintenance building	8.5	$363,000	338,365	–24,635 [a]
Ventura	126 10.4/12.2 R10.3/R11.6	On Harvard Boulevard (Route 126) between the west city limits of Santa Paula and 10th Street and on the Route 126 Freeway between Acacia Road and Fifth Street; resurface, construct drainage facilities and install chain link fence and guard railing	–	–	19,800	19,800 [r]
Ventura	232 0.0/0.4	Vineyard Avenue — Oxnard Boulevard (Route 1) to Ventura Freeway (Route 101); widen to 4-lane conventional	0.4	200,000	200,000	–
		Totals, Southern Group of Counties		$193,730,000	$223,209,418	$29,479,418
		Totals, Northern Group of Counties		$164,441,000	$183,577,704	$19,136,704
		Totals, Southern Group of Counties		193,730,000	223,209,418	29,479,418
		TOTALS, MAJOR PROJECT ALLOCATIONS		$358,171,000	$406,787,122	$48,616,122

REASONS FOR REVISIONS

[a] Savings—funds in excess of project requirements.
[b] Project or portion of project deferred.
[c] Decrease due to change in scope of work.
[d] Decrease project or portion of project financed from other funds.
[e] Additional funds to cover increases in project costs or to advance construction.
[f] Additional funds required because of revision of design standards or scope of work.
[g] Additional funds required because of low budget estimate or higher construction costs.
[h] Additional project; transfer from prior budget.
[i] Additional project to improve deficient roadway or structure.
[j] Additional project to improve drainage.
[k] Additional project to improve traffic safety or traffic service.
[l] Additional project to relieve traffic congestion.
[m] Additional project to install or revise traffic regulatory or safety devices.
[n] Additional project to repair, replace or remove a deteriorated roadway or structure.
[o] Additional project to restore or reconstruct roadway at slipout.
[p] Additional project for freeway or expressway construction.
[q] Additional project for erosion control and/or restoration.
[r] Additional project to stabilize slide area or remove underground water.
[s] Additional project to place roadway in acceptable condition for relinquishment.
[t] Additional project to construct weighing facilities or loadometer stations.
[u] Additional project to acquire material site or disposal site for use on construction.
[v] Additional project for landscaping.
[w] Additional project to comply with fish and game requirements.
[x] Additional project for archaeological salvages.
[y] Additional project for commemorative markers.
[z] Additional project for roadside rests.

Department of Public Works

Statement No. 4—Detail of Major Project Allocations for Construction of Highways and Bridges for the 1965–66 Fiscal Year, Compared to Budget Allocations

County	Route	Description	Approximate Mileage	Estimated Cost Original	Estimated Cost Revised as of 9-1-65	Expenditures and Contract Obligations 6-30-66	Difference
		NORTHERN GROUP OF COUNTIES					
Alameda	17 R1.7/12.5	South of Route 262 to north city limits of Fremont (portions); functional and tree planting	8.2	–	–	$56,915	$56,915 [v]
Alameda	17 16.7/20.9	Route 92 (Jackson Street) to Washington Street; expand to 6 lanes	4.2	$1,300,000	$1,465,355	1,465,355	–
Alameda	17 22.2/23.9	4.1 miles north of Washington Avenue to 0.3 mile north of Davis Street in San Leandro; resurface pavement and shoulders	1.7	300,000	296,817	296,817	–
Alameda	17 24.8, 25.5	On the Nimitz Freeway at the 98th Avenue Interchange and at the Hegenberger Road Interchange in City of Oakland; modify highway lighting	–	–	8,600	7,155	–1,445 [a]
Alameda	17 27.6/30.4	High Street to Fifth Avenue in the City of Oakland (portions); landscaping	2.8	–	–	31,657	31,657 [v]
Alameda	84 6.5/6.9	On Thornton Avenue (Route 84), Cedar Boulevard to Route 17 in City of Newark; traffic signals and highway lighting and widen. Contributions by City of Newark	–	–	56,338	56,338 (15,900)	–
Alameda	84 7.1	At intersection of Thornton Avenue (Route 84) with Blacow Road in City of Fremont; traffic signals, highway lighting, channelization. Contributions by City of Fremont	–	–	68,549	68,549 (7,668)	–
Alameda	185 0.3	On Mission Boulevard (Route 185) at "B" Street in City of Hayward; construct drainage facilities (state's share)	–	–	–	9,000	9,000 [j]
Alameda	185 3.2	At Ora Loma Ditch in the City of San Leandro; construct a culvert	–	–	56,300	57,953	1,653 [e]
Alameda	185 4.6	At intersection of East 14th Street (Route 185) with 136th Avenue in City of San Leandro; install traffic signals and modify highway lighting. Contributions by City of San Leandro	–	–	4,664	4,664 (5,464)	–
Alameda	238 7.1	Mission Boulevard at Driscoll Road, Fremont; 4-lane widening and traffic signal (right-of-way furnished by city); Contributions by City of Fremont	–	100,000	72,730	55,881 (19,728)	–16,849 [a]
Alameda	238 10.2/10.5	On Mission Boulevard (Route 238), Tennyson Road to Webster Street in City of Hayward; install drainage facilities (state's share)	–	–	9,000	9,000	–
Alameda	238, 680	At the Bell Quarry in the vicinity of Irvington; paleontological salvage	–	–	18,550	18,550	–
Alameda	580	On east 33rd Street, Bruce Street to 14th Avenue in City of Oakland; reconstruct base and surface	–	–	–	7,000	7,000 [n]
Alameda, San Joaquin	580, 205 1.3/11.4 0.0/0.3	Route 580, 1.3 miles west to 3.8 miles southeast (Western Pacific Railroad) of the Alameda-San Joaquin county line and on Route 205, Route 580 to 0.3 mile east of the Alameda-San Joaquin county line; 8- and 4-lane freeways and interchange (transfer from 64–65 fiscal year)	6.3	–	4,413,992	4,413,992	–
Alameda	580 1.5	At the Grant Line Undercrossing; drill and test a well	–	–	7,875	2,342	–5,533 [a]
Alameda	580 29.2/27.8	0.7 mile west to 0.7 mile east of Crow Canyon Road (portions); grade, construct channel change and functional planting	–	–	135,820	135,820	–
Alameda	580 33.7/35.6	Gabriel Court, San Leandro, to 0.1 mile west of 108th Avenue, Oakland; landscape	1.9	200,000	200,000	–	–200,000 [b]
Alameda	580 39.0/39.9	Seminary Avenue to MacArthur Boulevard in City of Oakland; landscaping	–	–	90,000	82,606	–7,394 [a]
Alameda	680 10.5/19.2	Route 84 near Scotts Corner to south of Route 580; 4-lane freeway (total estimate $8,450,000; $4,335,000 1966–67 fiscal year)	8.7	4,115,000	4,115,000	4,115,000	–

County	Route	Description	Approximate mileage	Estimated cost Original	Estimated cost Revised as of 9-1-65	Expenditures and contract obligations 6-30-66	Difference
NORTHERN GROUP OF COUNTIES—Continued							
Amador	16 8.0/9.0	1.4 miles to 0.4 mile west of Route 49 (portions); install underdrains	6.3	–	$29,163	$29,163	–
Amador	88 54.9/69.4	2.0 miles east of Peddler Hill to 2.5 miles west of Alpine county line (portions); plant slopes and construct log barrier	–	–	21,000	19,146	–$1,854 [a]
Amador	104 3.6	At Bridge No. 26-07 across Dry Creek approximately 1.8 miles west of Ione; place rock slope protection	–	–	12,000	10,633	–1,367 [a]
Amador	124 2.3/4.9	Ione to 2.4 miles north of Ione; 2-lane expressway	2.6	$700,000	629,924	586,353	–43,571 [a]
Butte	70 14.8	At bridges No. 12-141 R/L across the Feather River at Oroville; construct cutoff walls	–	–	20,000	17,537	–2,463 [a]
Butte	99 3.0/4.8	West Liberty Road to 0.2 mile north of Gridley; widen existing highway; contributed by Butte County and City of Gridley	1.4	290,000	290,000	272,389 (6,180)	–17,611 [a]
Butte	99 7.5/7.9, 24.1/24.5	Intersections of Route 99 with Biggs Road approximately 3.0 miles north of Gridley, and with Durham Road, approximately 7.0 miles south of Chico; improve intersections	–	–	39,400	30,361	–9,039 [a]
Calaveras, Alpine	4 66.0/0.6	2.1 miles west of Alpine county line to 0.6 mile east of Calaveras county line; 2-lane expressway	2.7	820,000	1,113,623	1,113,623	–
Calaveras	12 14.8/16.0	0.9 mile east of Junction Route 26 north to 2.1 miles east of Junction Route 26 north; truck climbing lanes	1.2	115,000	131,780	139,780	8,000 [a]
Calaveras	49 19.4/22.1	San Andreas to 0.3 mile northwest of the North Fork of the Calaveras River; place seal coat	2.7	–	6,000	5,675	–325 [a]
Calaveras	49 20.5/27.1	Murray Creek to 0.6 mile south of Route 26; apply rock seal	6.6	–	13,500	13,408	–92 [a]
Colusa	20 29.7	At West Colusa Grade Crossing No. AJ–132.0; construct automatic protection (state's share)	–	–	7,000	7,000	–
Contra Costa	4 27.1/27.3	East of "L" Street to "H" Street in Antioch; landscape	0.2	–	–	19,256	19,256 [v]
Contra Costa	17 3.9	At Fourth Street Spur Grade Crossing No. 2K-1.15-C in City of Richmond; flashing light signals (state's share)	–	–	5,750	5,750	–
Contra Costa, Solano	80	On the Carquinez Bridge; construct safety ladders	–	–	10,000	6,404	–3,596 [a]
Contra Costa	80 5.2	At Road 20; construct 2 northerly ramps (transfer from 1964–65 fiscal year)	–	–	410,000	363,784	–46,216 [a]
Contra Costa	680 0.9/6.4	0.9 mile north of Alameda county line to 0.3 mile south of Sycamore Valley Road; 6-lane freeway (total estimate $7,000,000; $4,700,000 1964–65 fiscal year)	5.5	2,300,000	711,887	711,887	–
Contra Costa	680 6.2/12.7	0.3 mile south of Sycamore Valley Road to 0.2 mile north of Crest Avenue in Walnut Creek (portions); tree and functional planting	6.5	150,000	165,000	143,852	–21,148 [a]
Contra Costa	680 15.6	Southbound Off-Ramp to North Main Street in City of Walnut Creek; widen	–	–	17,300	14,959	–2,341 [a]
Contra Costa	680 15.7/18.9	Walden Road to south city limits of Concord; landscape	3.2	235,000	235,000	254,173	19,173 [f]
Contra Costa	680 24.2	At the Mococo Overhead in vicinity of Escobar Street in and near City of Martinez; reconstruct ramps	–	–	41,000	33,241	–7,759 [a]
Del Norte	199 16.7/19.8	2.5 miles to 5.6 miles north of Gasquet Post Office; grade, pave, structures	3.1	–	30,000	27,720	–2,280 [a]
Del Norte	199 28.4	Approximately 0.5 mile east of Idlewild; remove slide material and reconstruct on a minor line change	–	–	–	18,200	18,200 [r]
El Dorado	50 18.4	Adjacent to the Placerville Fruit Growers' Association property in City of Placerville; extend a retaining wall	–	–	–	14,362	14,362 [q]
El Dorado	50 25.5	Adjacent to Snows Road south of Camino; erosion control	–	–	–	4,437	4,437 [q]
El Dorado	50 39.7/62.2	At 26 locations between Riverton and 4.3 miles east of Strawberry; base and surface	–	–	–	30,000	30,000 [i]

Statement No. 4—Detail of Major Project Allocations for Construction of Highways and Bridges for the 1965–66 Fiscal Year, Compared to Budget Allocations—Continued

LINE	COUNTY	ROUTE	DESCRIPTION	APPROXIMATE MILEAGE	ESTIMATED COST		EXPENDITURES AND CONTRACT OBLIGATIONS 6-30-66	DIFFERENCE
					ORIGINAL	REVISED AS OF 9-1-65		

REASONS FOR REVISIONS

[a] Savings—funds in excess of project requirements.
[b] Project or portion of project deferred.
[c] Decrease due to change in scope of work.
[d] Decrease project or portion of project financed from other funds.
[e] Additional funds to cover increases in project costs or to advance construction.
[f] Additional funds required because of revision of design standards or scope of work.
[g] Additional funds required because of low budget estimate or higher construction costs.
[h] Additional project; transfer from prior budget.
[i] Additional project to improve deficient roadway or structure.
[j] Additional project to improve drainage.
[k] Additional project to improve traffic safety or traffic service.
[l] Additional project to relieve traffic congestion.
[m] Additional project to install or revise traffic regulatory or safety devices.
[n] Additional project to repair, replace or remove deteriorated roadway or structure.
[o] Additional project to restore or reconstruct roadway at slipout.
[p] Additional project for freeway or expressway construction.
[q] Additional project for erosion control and/or restoration.
[r] Additional project to stabilize slide area or remove underground water.
[s] Additional project to place roadway in acceptable condition for relinquishment.
[t] Additional project to construct weighing facilities or loadometer stations.
[u] Additional project to acquire material site or disposal site for use on construction.
[v] Additional project for landscaping.
[w] Additional project to comply with fish and game requirements.
[x] Additional project for archaeological salvages.
[y] Additional project for commemorative markers.
[z] Additional project for roadside rests.

Statement No. 6—Comparison of Revised Revenue Estimates for the 1966–67 Fiscal Year With Budget Estimates Submitted to the 1966 Session of the Legislature

ESTIMATED REVENUES AND RECEIPTS	1966-67 BUDGET 1966 SESSION	REVISED ESTIMATED	DIFFERENCES
STATE HIGHWAY FUND			
State Funds:			
Apportionment from State Revenue Collected by Other Agencies:			
Transfer from Highway Users Tax Fund	$537,800,000	$583,460,000 [a]	$45,660,000
Transfer from Motor Vehicle Transportation Tax Fund	255,000	255,000	–
Revenue:			
Supervision of Outdoor Advertising:			
License fees	$56,800	$56,800	–
Permits and penalties	85,200	85,200	–
Totals, Supervision of Outdoor Advertising	$142,000	$142,000	–
Interest from investments	3,000,000	3,000,000	–
Interest from condemnation deposits	1,000,000	1,000,000	–
Lease area collections	–	500,000	500,000
Totals, State Funds	$542,197,000	$588,357,000	$46,160,000
Federal and Other Funds:			
Federal Aid Subventions:			
For state highways	$339,409,355	$339,409,355	–
For county highways	8,513,325	8,513,325	–
Totals, Federal Aid Subventions	$347,922,680	$347,922,680	–
Miscellaneous Contributions:			
For state highways	–	$14,345,422	$14,345,422
For county highways—federal aid secondary	–	1,001,194	1,001,194
For 1965 emergency storm damage repair	–	1,072,600	1,072,600
Totals, Miscellaneous Contributions	–	$16,419,216	$16,419,216
Reimbursements—work for other agencies	–	2,328,415	2,328,415
Totals, Federal and Other Funds	$347,922,680	$366,670,311	$18,747,631
TOTALS, REVENUE AND RECEIPTS, STATE HIGHWAY FUND	$890,119,680	$955,027,311	$64,907,631

---

[a] Includes accrual revenue estimated in amount of $62,560,000 as of June 30, 1967.

Department of Public Works

TOLL BRIDGE CONSTRUCTION AND REVENUE FUNDS

Toll bridge construction funds consist of proceeds from sale of revenue bonds, the issuance of which is authorized by the California Toll Bridge Authority; and, as in the case of the Vincent Thomas Bridge, such other funds as are provided by statute. Such funds are expended for construction, reconstruction or improvements of toll bridges in accordance with the applicable bond resolutions and/or statutes.

Toll revenue funds consist of toll collections, rents, roadway service collections and interest on investments. Such funds are expended for operating expenses, for debt service, and for improvements not financed by construction funds.

The physical maintenance of all toll bridges is financed from the State Highway Fund pursuant to Section 188.3 of the Streets and Highways Code.

San Francisco-Oakland Bay Bridge

The California Toll Bridge Authority issued $100,000,000 in bonds in January 1966 to finance construction of a rapid transit tube between the City and County of San Francisco and the County of Alameda under provisions of Sections 30770–30782 of the Streets and Highways Code. Additional bond issues will be necessary to complete financing of this project. Section 30778 of the Streets and Highways Code pledged revenues received since February 1, 1966 of the San Francisco-Oakland Bay Bridge, the San Mateo-Hayward Bridge and the Dumbarton Bridge to finance repayment of tube bonds. Revenues of these bridges received between January 1, 1965 and January 31, 1966 were likewise obligated for tube construction costs in accordance with Sections 30770–30782 of the Streets and Highways Code. Revenues received prior to January 1, 1965, are continuing to pay for the cost of alterations and improvements to the bridge authorized by Chapter 2316, Statutes of 1957, and the rehabilitation and improvement of the San Mateo-Hayward Bridge pursuant to Chapter 1784, Statutes of 1959. Revenues prior to January 1, 1965, were also used to pay for a planning study for a Southern Crossing pursuant to Chapter 2138, Statutes of 1959, and Chapter 970, Statutes of 1965, a planning study for alterations or reconstruction of the Dumbarton Bridge pursuant to Chapter 1870, Statutes of 1965, and a planning study for a Marin Crossing pursuant to Chapter 1885, Statutes of 1965. A portion of the cost of planning and design of a proposed Southern Crossing will be financed from this same source of funds pursuant to Item 389.5, Chapter 2, of the Budget Act of 1966.

The cost of constructing the rapid transit tube including approaches has been estimated as $180,000,000 of which the San Francisco Bay Area Rapid Transit District will repay the state the cost of approaches estimated to be $40,000,000.

In addition to toll revenues of the San Francisco-Oakland Bay Bridge received prior to January 1, 1965, is the residue of bond proceeds, in a separate fund designated as the San Francisco-Oakland Bay Bridge Construction Fund which is being used for improvements to the San Francisco-Oakland Bay Bridge.

Carquinez Strait Bridges

The Carquinez Strait Bridges comprise the two parallel Carquinez Bridges and the Benicia-Martinez Bridge, and are operated as a unit.

Construction of the additional Carquinez Bridge and improvement of the original bridge were financed by the issuance of $46,000,000 of toll revenue bonds pursuant to a resolution of the California Toll Bridge Authority dated October 4, 1955. Construction of the Benicia-Martinez Bridge was financed by the issuance of $34,000,000 of toll revenue bonds pursuant to a supplemental resolution of the Authority dated April 23, 1959.

Carquinez Strait Bridges Series "A" Refunding Toll Revenue Bonds in the amount of $75,000,000 authorized by California Toll Bridge Authority Resolution adopted September 25, 1963, were issued on December 1, 1963. In addition to providing funds to retire the outstanding Series "A" and "B" bonds, the refunding issue provided $10,000,000 to construct a northerly freeway approach from Interstate Route 80 at Cordelia to the Benicia-Martinez Bridge. The freeway approach is now under construction.

Although the construction work on the bridges has been completed for several years, residual bond funds are being held in the Carquinez Strait Bridges Construction Fund to cover several right-of-way contingent liabilities and miscellaneous construction projects.

Vincent Thomas Bridge (formerly named San Pedro-Terminal Island Bridge)

Chapter 74/1958 as amended by Chapter 1961/59 (Sections 30680–30684 of the Streets and Highways Code) authorized the construction of this bridge and provided for its financing. Toll revenue bonds amounting to $5,000,000 were sold pursuant to resolution of the California Toll Bridge Authority dated February 28, 1961, and $16,400,000 were advanced from the Highways Users Tax Fund and the State Highway Fund, as authorized by the statute. Construction is completed and the bridge was opened to traffic on November 15, 1963. On June 1, 1964, $1,400,000 of excess Construction Fund money was returned to the State Highway Fund. The remaining balance in the Construction Fund is reserved for miscellaneous construction work.

GENERAL ANALYSIS

The Department of Fish and Game is the agency responsible for the protection, propagation, preservation and investigation of the state's fish and game resources, including ocean fisheries and marine products, for the utilization, general benefit and recreation of the people of California.

The 1966–67 budget provided design funds for the replacement of the research vessel Scofield which is no longer adequate for modern research activities.

In the 1967–68 budget, $1,575,000 is proposed for construction of this vessel.

Minor projects are proposed to provide for fish screens, concreting brood stock ponds, an addition to a water system, storage buildings, and gas heat and electricity installations. Also included is a combination shop, garage, and office building at the Mojave River Hatchery; two settling ponds at the San Joaquin Hatchery; and a fish trapping facility at Caspar Creek.

Projected requirements are designed to fulfill the department's responsibilities and include replacement of aircraft and boats as well as additional vessels. Also proposed are building additions at various field locations, hatchery improvement and minor projects.

MAJOR PROJECTS[1]

	ACTUAL 1965–66	ESTIMATED 1966–67	PROPOSED 1967–68	PROJECTED 1968–69	PROJECTED 1969–70	PROJECTED 1970–71	PROJECTED 1971–72
Replace radio system	$9,314	$740,686					
Replace motor vessel *SCOFIELD*	–	35,000 [P]	$1,575,000 [C]				
The *SCOFIELD* was constructed in 1938 and has been used continuously for marine research operations. It has now reached the age where future maintenance and repair needed to maintain minimum safety will be too expensive. In addition the vessel is not suited to modern research and investigation purposes since it has inadequate sleeping space, laboratory, storage and range. To correct this deficiency a new vessel is proposed for construction. The new boat is programmed to be about 100 feet long and will be specifically designed for research operations.							
Construction of office addition—Terminal Island	–	10,000 [P]	–	$200,000 [C]			
Bioassay laboratory—Nimbus	39,332 [C E]	12,303 [E]					
Replacement of water supply system—Kern River hatchery	5,971 [C]

TOTAL, FIVE-YEAR PROGRAM							$7,632,708

GENERAL ANALYSIS

The Wildlife Conservation Board is authorized to acquire, restore and maintain in a high state of productivity, areas which can successfully sustain wildlife and provide adequate and suitable recreation for the people of the state. Two programs have been carried out by the board. With the approval by the voters of the State Beach, Park, Recreational and Historical Facilities Bond Act of 1964, the board was allotted $5,000,000 under this program to be used for acquisition and development of real property. It is administered in addition to their regular program authorized under the Wildlife Conservation Law of 1947. The 2 programs are shown separately in the discussions below.

WILDLIFE CONSERVATION PROGRAM

Continuation of the acquisition, construction and improvements of wildlife conservation projects is planned. The $9,000,000 appropriated by Chapter 1327, Statutes of 1947, the $3,000,000 in revenue provided by Chapter 1401, Statutes of 1951, and the revenue of $750,000 each fiscal year provided by subsequent legislation such as Chapter 1313, Statutes of 1955, and Chapter 1828, Statutes of 1959, has been or will be allocated to projects by the Wildlife Conservation Board. The budget reflects the actual and estimated expenditures of funds allocated by Wildlife Conservation Board action previous to June 30, 1966, and reflects expenditures based on anticipated allocations by the Wildlife Conservation Board for fiscal years 1966–67 and 1967-68.

The budget for the 1966–67 fiscal year provides that federal Land and Water Conservation Act funds will also be utilized to finance this program.

In 1962–63 and 1963-64 fiscal years, a total of $668,190 was allocated for projects qualifying under the federal Accelerated Public Works Act, Public Law 97-658. This act provided for 50 percent reimbursement ($334,095) for construction costs on these projects. This program was concluded in the 1965–66 fiscal year with 14 projects completed at a total cost of $677,539 (including land purchases) expended from state funds; a total of $312,860 was reimbursed from the federal government; leaving $364,679 as the state's share of expenditures. Project costs were less than allocations in that $21,235 of federal moneys were not expended.

The $1,322,784 in unexpended project allocations shown below consists of allocations made by the Wildlife Conservation Board for specific projects not yet completed by June 30, 1966. These include 5 fish hatchery and stocking projects at $53,700; 21 fish habitat and improvement projects totalling $488,947; 32 fishing access projects totalling $530,615; 2 game habitat and improvement projects totalling $3,047; 5 hunting access projects totalling $226,552; and various special projects totalling $19,923.

MAJOR PROJECTS [2]

Fish hatchery and stocking projects For construction and equipping of facilities for fish hatching and stocking.	$6,280	$45,000	
Fish habitat development and improvement projects For acquisition and development of warmwater lakes for reservoir construction or improvements; stream clearance and improvements; stream flow maintenance dams; marine habitat; fish screen, ladder and weir projects.	69,908	100,000	$125,000
Federal share—Accelerated Public Works Act	32,520		
Fishing access projects For the preservation and restoration of coastal access; river, stream and bay access; lake, reservoir and Salton Sea access; piers.	594,951	670,150	530,000
Federal share—Accelerated Public Works Act	24,119		
Federal Land and Water Conservation Fund	–	347,620	
Game habitat and development projects For the preservation and restoration of waterfowl management areas and other wildlife areas.	–	114,750	50,000
Federal Land and Water Conservation Fund	–	114,750	
Hunting access projects To provide access to popular hunting areas.	–25,212	50,000	108,450
Federal share—Accelerated Public Works Act	21,967		

For the list of standard (lettered) footnotes, see the end of the Capital Outlay section of the budget.

STATE BEACH, PARK, RECREATIONAL AND HISTORICAL FACILITIES BOND ACT PROGRAM

The $5,000,000 of this bond act made available to the Wildlife Conservation Board has been programmed for: (1) modernization and expansion of fish hatcheries; (2) acquisition of key lands for preservation of wildlife and recreational access; and (3) construction of artificial reefs around piers in southern California.

The 1965 session of the Legislature authorized a total of $980,000 toward this program. The 1966 session of the Legislature authorized a total of $1,616,031; combined total, $2,596,031.

It appears that legislative authorizations already made are adequate to proceed with approved capital outlay projects at the desired rate for the 1967–68 fiscal year. It is anticipated that additional projects will be submitted for the 1968–69 legislative session.

WILDLIFE CONSERVATION PROGRAM EXPENDITURES	ACTUAL 1965–66	ESTIMATED 1966–67	PROPOSED 1967–68	PROJECTED 1968–69	PROJECTED 1969–70	PROJECTED 1970–71	PROJECTED 1971–72
MAJOR PROJECTS [2]							
Fish Hatchery Projects:							
Fillmore Hatchery	$168,987 [L W]	$326,013 [L W C]	$181,000 [C]				
This project provides for ponds and related work to increase production of trout.							
American River Hatchery	71,900 [W]	608,400 [W C]	350,000 [C]				
This project will provide a new, modern trout hatchery at Nimbus Dam. It is designed to produce 6,000,000 fingerling trout annually as well as 1,000,000 catchable size fish.							
Mad River Hatchery	–	138,000 [W]	–	$862,000 [C]			
Federal Funds	–	–	–	1,000,000 [C]			
This project will provide a new hatchery to produce 5,000,000 fingerling king salmon and 1,000,000 yearling silver salmon and steelhead annually. It will replace the Cedar Creek Hatchery destroyed by flood in December 1964. It is expected federal funds will be available on a matching basis from the anadromous fish program.							
Bishop Creek Hatchery	–	81,500 [W]	–	918,500 [C]			
This project will produce annually 1,000,000 catchable trout, 2,000,000 fingerling trout, and 16,000,000 eggs. It is designed to double the output of the Mt. Whitney-Black Rock hatchery unit and increase egg production.							
Warmwater Hatchery, Imperial County	–	–	–	$500,000 [C]			
This new hatchery will produce 100,000 10-inch catfish annually for stocking in southern California lakes and reservoirs.							

San Joaquin Hatchery	**$97,500[C]**	**$2,500[C]**					
Expansion of existing hatchery.

GENERAL ANALYSIS

Program and Objectives

The Division of Beaches and Parks, under policy direction from the State Park Commission, is responsible for the acquisition, development, and operation of the state park system. A number of units of this system are operated under agreement by other governmental agencies. In carrying out this responsibility, the division is administered through a Sacramento headquarters office with district and field locations throughout the state. The 3 essential objectives of the division in administering the state park system are to make the necessary plans, investigations, and surveys which will enable them to acquire and develop areas of statewide importance.

Department proposals for the acquisition of additional state park property and for the development of recreational facilities are the product of the Statewide Recreation Planning program, which considers both the demand for outdoor recreation facilities and the supply. The program identifies the general recreation needs throughout the state, regardless of particular source of supply that is, state, local, private, or federal.

Within the framework established by the Statewide Recreation Planning program, a State Park System Plan is being developed to provide five-year and twenty-year projections, project priorities, and project development requirements. Pursuant to this, specific project plans can be prepared that lead directly to proposals for acquisition and development of units to be added to the State Park System. Once a unit is established as part of the State Park System, capital outlay expenditures for maintenance and upkeep are necessary.

Budget Year Discussion

This budget proposes $1,137,541 for the purpose of providing for the essential planning, opportunity purchases, and development necessary to meet the minimal needs of the State Park System for the 1967–68 fiscal year.

Projected Requirements

The estimates for park acquisition and development for the four years following the budget year were based on current evaluations of the ability of the State Park System to meet future outdoor recreation demands. Our current estimates show that this is also the projected level of development for the next 20 years, at a cost of $500 million if the state is to keep abreast of the pressures that increases in population, mobility, expendable income, and leisure time will bring.

MAJOR PROJECTS[b]

Admiral William Standley Recreation Area The projected estimate is for initial development, restrooms, and parking.	–	–	–	–	$15,000 [c]		
Alameda Memorial State Beach The past and current year amounts provide for initial development.	$20,600 [c]	$278,331 [c]					
Angel Island State Park The past and current year amounts provide for area restoration, water system survey, and pier replacement. The projected estimates provide for completion of all development.	137,329 [c]	200,430 [c]	–	–	975,000 [c]	$1,400,000 [c]	$600,000 [c]
Water system This projected project consists of making necessary improvements to the existing water system. The improved system will provide sufficient ground water supply and storage through a basic loop distribution system connecting, or adjacent to all major use areas.	–	–	–	$298,200 [c]			
Area restoration This projected project is a continuation of the present program for reduction of fire hazards, stabilization of historic buildings, and development of trails, footbridges, and scenic overlooks. The project includes equipment operation and maintenance, materials and supplies for fences, barriers, structure stabilization and partial restoration.	–	–	–	102,000 [c]			

For the list of standard (lettered) footnotes, see the end of the Capital Outlay section of the budget.

PARKS AND RECREATION ACQUISITION AND DEVELOPMENT PROGRAM EXPENDITURES	ACTUAL 1965–66	ESTIMATED 1966–67	PROPOSED 1967–68	PROJECTED 1968–69	PROJECTED 1969–70	PROJECTED 1970–71	PROJECTED 1971–72
Division of Beaches and Parks—Continued							
MAJOR PROJECTS—Continued							
Ano Nuevo State Reserve	–	–	–	–	–	$\$450,000^{C}$	
The projected estimate provides for the construction of interpretive facilities and improvements on the island.							
Anza-Borrego Desert State Park	$\$213,100^{C}$ $-127,270^{L}$	$\$337,770^{L}$	–	$\$363,600^{C}$			
The projected estimate is for the construction of a 58-unit, class "A" campground in the Culp Valley area. Facilities will include 1 utility building, 2 comfort stations, roads and parking spurs, sanitary facilities, and utilities.							
Atascadero State Beach	$10,000^{C}$	$51,300^{C}$	–	$106,700^{C}$			
The past and current year amounts provide for the construction of an entrance road.							
Austin Creek State Recreation Area	$200,606^{L}$	$145,000^{L}$	–	–	–	$800,000^{C}$	
Projected estimate provides for the relocation of administrative and public use facilities from Armstrong Redwoods and the construction of additional camp and picnic units.							
Benbow Lake State Recreation Area	–	–	–	$252,000^{C}$	–	$66,000^{C}$	$\$660,000^{C}$
The projected estimate for 1968–69 is the final phase of work necessary to restore the dam to a safe condition. The project also consists of complete reconstruction of the 230-foot-long reinforced concrete fish ladder at the dam's left abutment. The estimates for 1970–72 provide for planning funds and subsequent campground development with construction of roads, parking, utilities, and summer river crossing for a campground.							
Bidwell Mansion State Historical Monument	218^{L}	$5,746^{L}$					
Big Basin Redwoods State Park	$437,651^{L}$	$87,899^{C}$	–	$517,809^{C}$	–	$800,000^{C}$	
The past year amounts provide for continuing development of Huckleberry Campground. The projected estimates provide for utilities connections to proposed concession facilities at Sky Meadow, and initial access to Elk Paddock; and for development of the Elk Paddock Campground, extension of utilities, redevelopment of Main Basin area.							
Bodie State Historic Park	–	–	–	–	–	$500,000^{C}$	
The projected estimate provides for campground and picnic development, and interpretive facilities.							
Bolsa Chica State Beach	$29,000^{C}$						
Brannan Island State Recreation Area	–	–	–	$318,838^{C}$			
The projected project is for the construction of a 97-unit campground, and continuing area development including comfort stations, combination buildings, tree planting, roads, parking areas, and necessary utilities.							
Buena Vista Aquatic Recreation Area[1]	–	–	–	–	–	$80,000^{C}$	$30,000^{C}$
The projected estimates provide for tree planting and maintenance, access road, boat ramps, camp and picnic units, group camp area, parking and beach area development.							
Butano State Park	–	–	–	$357,000^{C}$	–	–	$550,000^{C}$
The projected estimates augment the original 1962–63 proposal by providing for construction of 46 camp units, service facilities, parking and roads, and necessary utilities; and in 1971–72 for additional camp and picnic facilities and a group picnic area.							
Calaveras Big Trees State Park	–	$100,000^{C}$	–	$1,052,000^{C}$	$\$180,000^{C}$	$200,000^{C}$	$250,000^{C}$
The current year amount provides for participation in the local water district to provide adequate water supply to the North Grove Area. The projected estimates provide for picnic units, waterline extension to Squaw Hollow Campground, roads and utilities for the lodge, and a 2.7 mile extension of the South Grove Parkway.							

Peace Valley	–	–	–	–	–	–	530,000 [C]
Projected estimates provide for camp and picnic units, tree planting and maintenance, parking, and utilities.							
Ritter Canyon	–	–	–	–	–	–	390,000 [C]
Projected estimates provide for picnic units, tree planting and maintenance, access road, parking, and utilities.							
Carlsbad State Beach	–2 [L]						
Carpinteria State Beach	389,900 [C]	5,143 [C]	–	591,000 [C]	–	875,000 [C]	
The past year funds provide for the construction of a 73-unit campground, bridge relocation, rock revetment, parking area, entrance gate and fencing. The projected projects will provide for Phase I redevelopment of the day-use area and includes 300-car parking, lifeguard facilities, relocation of structures, all necessary utilities, and completion of day-use development.							
Castaic Reservoir [1]	102,147 [C]	122,933 [C]	–	–	3,544,000 [C]	2,327,000 [C]	3,500,000 [C]
The projected estimates provide for camping, picnicking, boating facilities, beaches, roads, parking, and utilities.							
Access road	–	–	–	648,700 [C]			
The projection is for the department's share of the total cost of a four-lane access road from US 99 to the Castaic Canyon Area of Castaic Reservoir.							
Project planning	–	–	–	34,275 [C]	15,000 [C]	15,000 [C]	
These estimates will continue the planning and design of these facilities by the County of Los Angeles for the development of Castaic Reservoir. Work will include planning to complete a General Development Plan, Developed Area Plans, capital outlay construction program, cost estimates, and budget request plans.							
Tree planting, Phase IV	–	–	–	38,000 [C]	65,000 [C]	45,000 [C]	
This project is for the maintenance of trees planted during the three previous phases of tree planting and area enhancement. Approximately 48,200 trees have been planted under the initial three phases.							
Castle Crags State Park	145,186 [L]	–	–	–	550,000 [C]	450,000 [C]	
The projected estimates are to provide funds for construction of a major camp, development, and related facilities.							
Cedar Springs Reservoir [1]	5,000 [C]	–	–	34,000 [C]	25,000 [C]	2,299,000 [C]	2,054,000 [C]
The past year funds provided for preliminary planning required for ultimate development of public use facilities. Projected estimates provide for selective removal of trees and brush from 85 acres of proposed camping and day-use areas, tree planting and maintenance, construction of camping and picnic areas, boating facilities, beaches, roads, parking, and utilities.							
Clear Lake State Park	134,650 [C]	–	–	517,937 [C]			
The past year amount provided for continuing development. The 1968 69 project would provide the funds necessary to complete the original development, by building 65 campsites, road system, water system additions, and related boating and day-use facilities. The addition of a trailer sanitation station is the only new proposal.							
Clifton Court Forebay [1]	17,500 [C]	–	–	2,000,000 [C]	700,000 [C]		
The projected estimate for 1968–69 provides for a portion of the land fill and related drainage facilities construction required for first phase recreation development. The 1969–70 estimate provides for the balance of the land fill, drainage and related facilities for first phase construction. Recreation facilities are to be provided by the East Bay Regional Park District.							
Columbia State Historic Park	290,710 [C]	137,805 [C]					
The past and current years' funds provide for the continuing restoration program.							
Utility area	–	–	–	105,418 [C]			
This project is for utility area improvement through: paving utility area and access road, construction of an equipment storage building, fencing, sewer connection, and extension of the water supply system.							

For the list of standard (lettered) footnotes, see the end of the Capital Outlay section of the budget.

[1] Project proposed pursuant to the Davis-Dolwig Act.

Division of Beaches and Parks—Continued							
MAJOR PROJECTS—Continued							
Columbia State Historic Park (continued)							
Restoration	–	–	–	$100,000 c	$100,000 c	$100,000 c	$100,000 c
These projects are to provide continuing restoration work, plus funds for interpretive displays.							
Cuyamaca Rancho State Park	–	–	–	448,100 c	–	150,000 c	
These projects are for the construction and redevelopment of the Los Caballos (Horse) Camp (it will provide 44 family camp sites, parking, sanitary facilities, utilities, horse stalls, and relocation of horse trails), and consolidation of all radio functions on Cuyamaca Peak.							
Del Norte Coast Redwoods State Park	$419,822 c	$682,400 c					
The past and current years' funds provide for the completion of 146 camp units with all necessary facilities and access road.							
Del Valle Reservoir (Venados and Arroyo Mocho areas) 1							
General Fund	15,000 c	35,000 c	–	1,488,700 c	1,500,000 c	1,000,000 c	
Harbors and Watercraft Revolving Fund 1	–	–	–	126,300 c			
The past year amounts provide for development planning. The projected estimate for 1968-69 provides for Venados Area—Phase I. It includes construction of access roads, car parking at beach and day-use areas, 4-lane boat launching ramp, car and boat trailer parking area and curbs and barriers for necessary traffic control. The other projected estimates provide for picnic units, tree planting, and maintenance, and other day-use facilities in the Arroyo Mocho Area, and utilities in both areas.							
Doheny State Beach	293,200 c	858,325 c	–	767,900 c	300,000 c	800,000 c	500,000 c
The past and current years' funds provide for the initial phases of redevelopment of the north area. The projected estimates will continue redevelopment which will include: 365-car parking, promenade, landscaping, irrigation, 112 picnic sites and access road to the south area, bridge access, and removal of residences.							
Donner Memorial State Park	73,256 c						
The past years' funds provide for the completion of the museum building.							
Dry Lagoon State Park	188,868 c	–	–	302,350 c	–	225,000 c	
The past amount and 1968–69 projection provide for initial and Phase I development. The projected estimate for 1970 is to provide boat launching, parking, picnic and sanitary facilities.							
El Capitan State Beach	785 c	–	–	–	–	500,000 c	
The projected estimate is for the development of picnicking and parking facilities.							
Folsom Lake State Recreation Area							
General Fund	194,030 c	7,263 c	–	–	–	70,000 c	630,000 c
Harbors and Watercraft Revolving Fund 1	91,600 c	99,400 c	–				
The past and current year amounts provide for general development and construction in the Granite Bay area, and administrative facilities, and sanitary facilities for the Peninsula Area. The projected estimates provide for the construction of camp units and boating facilities.							
Forest of Nisene Marks State Park	–	–	–	–	–	460,000 c	
The projected estimate provides for the construction of interim use facilities and permanent facilities consisting of entrance road, camp and picnic units, and necessary service facilities.							
Fort Ross State Historic Park	5,500 c	–	–	237,200 c			
The 1968–69 project will be possible after the relocation of Highway 1, by the Division of Highways and allows for the relocation of entrance and parking areas, removal of							

power lines, restoration of fort structure, and construction of water system.							
Frank's Tract State Recreation Area	–	93,800 [C]	–	–	90,000 [C]		
The projected amount is for the completion of the levee repair work.							
Gaviota State Beach	155 [L]						
Grizzly Valley Reservoir State Recreation Area [1]	23,000 [C]	100,000 [C]	–	1,473,350 [C]			
The past and current funds provide for the construction of sanitary facilities. The projected estimate provides for campgrounds and picnic areas with utilities, boat ramps, and improvements to the access road.							
Grover Hot Springs State Park	3,000 [C]	–	–	–	–	215,000 [C]	
The past year amount provides for initial development, repair of pool and construction of sanitary facilities. The projected estimate is for additional campground facilities, campfire center, office, and interpretive displays.							
Hearst San Simeon State Historical Monument	99,150 [C]	127,650 [C]	–	100,000 [C]	450,000 [C]	500,000 [C]	100,000 [C]
The past and current year amounts provide for continuing rehabilitation of the castle complex. The projected amounts provide for continuing rehabilitation, an orientation-interpretive building, and completion of the visitor center development.							
Water system	–	–	–	194,000 [C]			
This project is for the construction of a water system from the San Simeon Acres Water District System near Little Pico Creek, to a storage tank at the visitor staging area. The project will provide a booster pump and zeolite water softener.							
Sewer system	–	–	–	194,700 [C]			
This project is for the construction of a sewer system at the visitor staging area to replace the present system of septic tanks and leaching wells which cannot handle the sewerage disposal problem created by increasing numbers of visitors to the monument.							
Parking	–	–	–	366,100 [C]			
This project is for Phase I construction of a 190-car parking area.							
Heart Bar State Park	–220,010 [L]						
Henry Cowell Redwoods State Park	156,397 [C]	–	–	293,300 [C]	250,000 [C]		
The past year amount provided for continuing development. The projected fund provides for construction of 84 campsites, roads and parking, sanitary facilities, signs, fencing, and utilities.							
Henry W. Coe State Park	166,581 [C]	–	–	–	250,000 [C]		
The past year amount provides for continuing development. The projected estimate provides for the completion of campground facilities.							
Humboldt Redwoods State Park	278,632 [C] 89 [L]	202,415 [C] 845 [L]	–	175,000 [C]	703,250 [C]	100,000 [C]	75,000 [C]
The past year amount provides for acquisition, continuing development, erosion control, rehabilitation, and repairs. The current year project provides for area restoration as part of a continuing program to protect the redwood forests, to prevent further erosion, and protect banks and channels which have been eroded due to excessive logging. Ultimately the areas protected and restored will be used for the installation of public use facilities. The projected estimate for 1968–69 is part of a continuing program of bank protection, fire, and road improvement in redwood forest areas. In particular, this project is for work in the Rockefeller Forest along Bull Creek through the flats. The other estimates provide for continuing the program of area restoration, channel erosion control and bank protection.							
Huntington State Beach	–	–	–	–	300,000 [C]	500,000 [C]	
The projected estimates provide temporary parking on former railroad lands until construction of the new freeway. After construction of the new freeway, permanent facilities would be constructed on the newly acquired land.							

For the list of standard (lettered) footnotes, see the end of the Capital Outlay section of the budget.

MAJOR PROJECTS—Continued							
Imperial Sands Hills	$210 L	$69,598 L					
Indian Grinding Rock State Historical Monument	–	–	–	–	$50,000 C		
The projected estimate is for the construction of interim facilities, such as visitor parking, and sanitary facilities.							
Joshua Trees State Park	255,800 C	1,289 L	–	$207,000 C			
The past year and current year amounts provided for acquisition and initial development. The 1968–69 project will provide for completion of campground facilities, and construction of office, interpretive building and sanitary facilities.							
Julia Pfeiffer Burns State Park	257,800 C						
La Purisima Mission State Historic Park	–	–	–	–	–	$750,000 C	
The projected estimate provides for construction of access road, park entrance, parking area, picnic units and interpretive facilities.							
Leo Carrillo State Beach	–	–	–	158,400 C			
This project is for the construction of a group camp area. This facility will include a camp area which will accommodate 75 campers. It will include a barbecue area, combination building, parking area, camp trails, access road, planting and irrigation, and all necessary utilities.							
Los Coches Rancho State Historical Monument	–	–	–	–	–	300,000 C	
The projected estimate provides for historic building restoration and campground development.							
Los Encinos State Historical Monument	15,774 C	–	–	–	85,000 C	250,000 C	$85,000 C
The projected estimates provide for restoration and construction of a visitor center and sanitary facilities.							
Mackerricher State Beach	5,384 L	16,263 L					
Malakoff Diggins State Historic Park	112,875 L	596,931 L	–	–	450,000 C	300,000 C	66,000 C
The projected estimates provide for construction of campground, picnic, and group camp facilities. Also anticipated is a continuing program for stabilization and restoration of historic structures.							
Manchester State Beach	–	–	–	–	300,000 C		
The projected estimate provides for Phase I development consisting of camp and picnic units complete with roads, parking, windbreaks and screen planting.							
Marin Headlands State Park	–	–	–	–	–	–	200,000 C
The projected estimate provides for picnic development at Kirby Cove consisting of 100 units, 150-car parking, entrance road improvement, and utilities development.							
Marshall Gold Discovery State Historic Park	–	125,900 C	–	–	120,000 C	–	66,000 C
The current funds provide for the completion of Sutter's Mill and improvements to the water system. The projected estimates are for campground facilities and construction, stabilization and restoration, hazard reduction, and interpretive facilities.							
McGrath State Beach	–	–	–	778,600 C	–	–	765,000 C
The 1968–69 projection provides for construction of a 166-unit campground. The 1971 estimate provides for the construction of picnic units, beach access and parking facilities.							
Millerton Lake State Recreation Area	297,200 C	60,000 C	–	–	98,000 C		
The past, current and projected estimates provide for completion of courthouse restoration, construction of parking and sanitary facilities, campground and picnic facilities, lifeguard facilities, riding and hiking trails, service facilities and boat launching facilities.							
Mitchell Caverns State Reserve	3,225 C 939 L	17,487 L					

Montana de Oro State Park	20,098 L	271,079 L	–	150,000 C	–	665,000 C	
The 1968–69 project provides for the installation of a water system at lower Islay Creek complete with well, pumps, electric power, underground concrete storage tank, pipe, and chlorinator if necessary. Projected estimates provide for initial camp and picnic development, service area and entrance station, group camps, and water system.							
Monterey State Historical Monument	–	–	–	442,000 C			
This project is for the construction of Phase I developments at the Custom House Plaza which includes: Main Plaza Area, Historic Pedestrian Streets, Custom House Park Area, and Pacific Building Garden Wall.							
Morro Strand State Beach	–	–	–	–	–	–	450,000 C
The projected estimate provides for construction of picnic units, parking, sanitary facilities and beach access.							
Mount Diablo State Park	665,893 L	14,000 L	–	–	–	275,000 C	
The projected estimates provide for the construction of additional campground facilities and summit building improvement.							
Mount San Jacinto Wilderness State Park	–	–	–	358,700 C	–	–	250,000 C
The estimated projects provide for the development of a 50-unit campground in the Lower Stone Creek Area, with sanitary facilities, entrance and park roads, signs, water system, and necessary utilities, and in 1971–72 for picnic units, parking and sanitary facilities.							
Mount St. Helena State Park	–	–	–	–	–	815,000 C	
Projected estimate provides for construction of campground and picnic facilities.							
Mount Tamalpais State Park	–	–	–	–	–	–	500,000 C
The projected estimate provides for the construction of campsites, picnic units, parking area, necessary utilities, and sanitary facilities.							
Natural Bridges State Beach	–	–	–	100,000 C			
This project is for participation by the state in two assessment districts adjacent to Natural Bridges State Beach for the purpose of providing paved streets, improved water service, sanitary sewer service and storm drains in the vicinity around the beach.							
Orestimba Fish Access	–	–	–	–	–	60,000 C	
The projected estimate provides for the construction of picnic units, tree planting, and utilities.							
Orestimba Wayside Park	2,480 L	13,225 L	–	984,750 C			
This project provides for the completion of a 100-unit campground, as part of Phase I development.							
Oroville Reservoir State Recreation Area:[1]							
Project planning	70,000 C	–	–				
Area cleanup and trail construction	–	–	–	38,000 C	38,000 C	38,000 C	38,000 C
The projected estimates provide for fire protection, cleanup, and poison oak eradication in several areas of the Oroville project.							
Floating sanitary facilities	–	–	–	55,600 C			
This project is to supply and install six floating sanitary facilities at strategic positions around the reservoir.							
Fencing	–	–	–	18,220 C	10,000 C	10,000 C	
These estimated amounts are to construct fencing at recreation areas. It is required at the spillway boat ramp area as a condition to approval of the area for public use. The remainder of the fencing requested is to assure control of use; preservation of park values; protection against fire from unrestricted use; and to avoid conflicts with contiguous private developments.							
Bloomer Primitive Area	–	–	–	–	–	55,000 C	
The projected estimate provides for camp units, sanitary facilities, and service access road for boat access camping.							

For the list of standard (lettered) footnotes, see the end of the Capital Outlay section of the budget.

[1] Project proposed pursuant to the Davis-Dolwig Act.

DEPARTMENT OF PARKS AND RECREATION—Continued

PARKS AND RECREATION ACQUISITION AND DEVELOPMENT PROGRAM EXPENDITURES	ACTUAL 1965–66	ESTIMATED 1966–67	PROPOSED 1967–68	PROJECTED 1968–69	PROJECTED 1969–70	PROJECTED 1970–71	PROJECTED 1971–72
Division of Beaches and Parks—Continued							
MAJOR PROJECTS—Continued							
Borrow Area	–	–	–	–	$2,050,000 [c]		
The projected estimate provides for excavation of waterways to connect existing ponds and enlargement of existing ponds to provide for fishing and wildlife enhancement, hunting, picnic units, parking areas, camp units, utilities, service area, trails, and landscaping.							
Feather Falls Area	–	–	–	$21,500 [c]			
This project is for construction of area boating facilities, informational and directional signs, and trail improvement to provide access from Oroville Reservoir to Feather Falls.							
Goat Ranch	–	–	–	–	45,000 [c]		
The projected estimate provides for camp units, sanitary facilities, service access road, and docking facilities for boat access camping.							
Lime Saddle Area	–	–	–	–	38,000 [c]		
General Fund	$27,830 [c]	$658,520 [c]	–	430,700 [c]			
Harbors and Watercraft Revolving Fund[1]	–	267,750 [c]	–	60,200 [c]			
This project includes completion of roads and parking, 71 camp units, 80 picnic units, and office-checking station, sanitary facilities, trail development, landscaping, and a fish cleaning table; and in 1969–70 a park residence and extension of utilities.							
Loafer Creek Area	–	–	–	3,429,500 [c]			
This projection provides for initial development including 300 campsites.							
Offsite utilities	–	–	–	631,000 [c]	–	–	$520,000 [c]
This project is for the completion of the offsite utilities to serve the future Loafer Creek development, the Kelly Ridge visitor facilities, and, ultimately, the Bidwell Canyon Area.							
Service area	–	–	–	435,000 [c]			
Harbors and Watercraft Revolving Fund[1]	–	274,500 [c]					
This project is for the construction of a water-oriented service area. Facilities will include 1 utility building, boating facilities, roads and parking, and all utilities.							
Overlook	–	–	–	44,000 [c]			
This project will provide 20-car paved parking, a 600-foot paved trail, 5 picnic tables, signs, and landscaping.							
Kelly Ridge	–	–	–	896,700 [c]	386,000 [c]		
This project provides for picnic units, parking, utilities, walks, and landscaping. The projected estimate is for an access road, sanitary facilities, on-site utilities, and additional landscaping and picnic units.							
Potter Ravine	–	–	–	576,000 [c]	519,600 [c]		
This project will provide construction of: 2-stage boat launching ramp, 900-car parking, sanitary facilities, signs and navigational aids, utilities, and access road.							
Thermalito Afterbay	–	–	–	250,300 [c]	592,240 [c]		
This project is for Phase I construction of recreation facilities at this area. They will include a boat launching ramp, floating boat dock, access road and entrance gate, culverts and control gate for the lagoon, portable sanitary facilities, an entrance kiosk with sanitary facilities, and all necessary utilities. The projected estimate provides picnic units, swimming lagoon, tree planting, sanitary facilities, and utilities.							

Thermalito Forebay—South	–	–	–	546,300 [C]			
Harbors and Watercraft Revolving Fund [1]	–	46,650 [C]	–				
This project is for initial recreation development of day-use facilities and service yard. This will include extensive road and grading work, landscaping, 25 picnic units, sanitary facilities, utilities, and parking.							
Theramalito Forebay—North							
General Fund	371,170 [C]	–	–	224,100 [C]			
Harbors and Watercraft Revolving Fund [1]	–	12,075 [C]	–				
This proposed project is for Phase II development of initial recreation development which includes roads, parking, sanitary facilities, picnic units, walks, grading, and landscaping.							
Palomar Mountain State Park	–	–	–	–	–	–	975,000 [C]
The projected estimate provides for the construction of camp and picnic units, campfire center with parking and interpretive displays.							
Pelican State Park	–	–	–	–	–	–	100,000 [C]
The projected amount is for development of a north entrance to the park, displays, sanitary facilities, picnic units, and parking.							
Perris Reservoir [1]							
Tree planting	20,000 [C]	–	–	69,700 [C]	118,160 [C]	$135,080 [C]	104,500 [C]
This project is for continued tree planting and maintenance under Phase II development. This project will furnish and install approximatey 1,600 one-gallon can trees and 1,200 five-gallon can trees (approximately 40 acres) including fertilizing, mulching, and staking. It will provide 10 months' maintenance for these trees. It will provide 8 months' maintenance for trees planted in Phase I planting. The projected estimates provide for continuation of this area improvement program.							
Facilities development	–	–	–	–	–	–	3,458,000 [C]
Projected estimates provide for construction of camp and picnic facilities, boat ramps, beach areas, roads, parking, sanitary facilities, utilities and service area.							
Pfeiffer Big Sur State Park	228,500 [C]	37,975 [C]	–	251,800 [C]	–	–	200,000 [C]
The past year amount provided for additional development and a sewage disposal system. The estimated projects provide construction of concession utilities, roads, parking, further development, and entrance relocation and additional concession services.							
Picacho State Recreation Area	63,813 [C]	285,683 [L]	–	604,800 [C]	–	250,000 [C]	150,000 [C]
This estimated project is for construction of Phase II facilities and will include: one 75-unit class "A" campground, one 25-unit picnic area, boat launching area, roads, parking, sanitary facilities, utilities, a new entrance road, service facilities, and interpretive museum.							
Pio Pico State Historical Monument	–	25,000 [C]	–	–	100,000 [C]	100,000 [C]	150,000 [C]
The projected estimates provide for restoration, a visitor center, sanitary facilities, parking, and for the relocation of city pumping facilities.							
Plumas-Eureka State Park	–	–	–	83,250 [C]	500,000 [C]	–	70,000 [C]
Anticipated projects provide for the continued construction and installation of a water supply and storage system, including tank, lines, and hydrants; and for the construction of roads and utilities for the winter sports area. Also in the future a group camp area, service facilities, and additional camp units will be provided.							
Portola State Park	–	–	–	–	–	750,000 [C]	
Projected estimates provide for the construction of access roads, entrance station, campfire center, and additional camp units.							
Prairie Creek Redwoods State Park	–	237 [L]	–	334,600 [C]	340,000 [C]		
This project is for construction of roads, utilities, area restoration and cleanup in preparation and for an 84-unit campground, and the construction of additional camp units and residence relocation.							

For the list of standard (lettered) footnotes, see the end of the Capital Outlay section of the budget.

[1] Project proposed pursuant to the Davis-Dolwig Act.

DEPARTMENT OF PARKS AND RECREATION—Continued

LINE	PARKS AND RECREATION ACQUISITION AND DEVELOPMENT PROGRAM EXPENDITURES	ACTUAL 1965–66	ESTIMATED 1966–67	PROPOSED 1967–68	PROJECTED 1968–69	PROJECTED 1969–70	PROJECTED 1970–71	PROJECTED 1971–72
1	**Division of Beaches and Parks—Continued**							
3	MAJOR PROJECTS—Continued							
5	Puddingstone Reservoir State Recreation Area	$933,611 L	–	–				
6	Pueblo de Los Angeles State Historical Monument	548,930 C	–	–	$2,000,000 C			
7	This project is for the Historic Building Program and will complete restoration of the entire Pico-Garnier Block.							
9	Russian Gulch State Park	7,535 L	–	–	–	$950,000 C		
10	The projected estimate is for campground development, entrance bridge, residence and service area relocation, and redevelopment of utilities.							
13	Salton Sea State Recreation Area (Mecca Beach)	10,959 C	–	–	851,781 C	–	–	$830,000 C
14	This project provides for construction of a 154-unit campground, roads, comfort stations, underground utilities, new park entrance, planting and irrigation, and additional camp and picnic units, boat ramps, and service facilities.							
19	San Buenaventura State Beach	129,860 C	–	–	237,500 C	–	$1,500,000 C	
20	This project is to provide funds for a group picnic area with all attendant facilities and utilities, and parking areas, parking structures, and sanitary facilities in the pier area.							
24	San Clemente State Beach	–1,183 C	$1,183 C	–	–	–	850,000 C	
25	Projected estimates provide for redevelopment of bluffs for picnicking and day-use parking and the construction of camp units.							
28	San Diego Coast State Beaches:							
29	Carlsbad Beach	–	–	–	502,345 C	250,000 C		
30	This project is for the construction of additional day-use facilities at the north and south developments of the beach. The north area development will include a comfort station-dressing room facility, 20-car parking area with walkway, sitting area, and paving of the existing beach areas. The south end will be expanded to include parking for an additional 156 cars, a comfort station-dressing room, and all required utilities. Four lifeguard stands will be provided and equipped with telephones. The estimated project for 1968–69 provides for additional day-use facilities at 2 separate locations. The north area will consist of a 24-unit parking area, sanitary facilities and beach access. The existing development at the south end will be expanded to include an additional 144-car parking area, comfort station-dressing room complex, beach access ways, and four lifeguard stands.							
47	Moonlight Beach	–	–	–	–	–	850,000 C	
48	The projected estimate provides for construction of additional parking, picnicking, lifeguard and sanitary facilities, beach access stairways, and landscaping.							
51	Ponto Beach	–	–	–	–	118,190 C		
52	This project provides for parking, beach access, retaining walls, cribbing and landscaping.							
54	San Elijo Beach	243,400 C	65,150 C					
55	The past and current year funds provide for a 76-car parking area comfort station-dressing room, erosion control, and utilities.							
58	South Carlsbad	85,438 C	–	–	–	–	–	–
59	San Francisco Maritime State Historic Park	35,424 C	15,089 C	–				
60	San Francisco Palace of Fine Arts	4,955 C	–	–				
61	San Juan Bautista State Historic Park	–	–	–	98,800 C	100,000 C		
62	The projected funds provide for parking facilities and for continuing the program of restoration and stabilization of the existing Plaza Hotel Building.							

San Luis Creek Area	376,823[C]	519,100[C]	–	1,257,732[C]			
Past and current amounts provide for initial recreation facilities development. The 1968–69 projection provides for continuing development.							
Basalt Area:							
General Fund	–	–	–	64,000[C]			
Harbors and Watercraft Revolving Fund[1]	815[C]	108,265[C]	–	252,000[C]			
Federal funds[h]	–	2,284,390[C]					
The current project will complete the state share in the state-federal funding of the initial cooperative recreation facilities project. This will provide camping, boat launching, access road, parking, sanitary facilities, utilities, service area, landscaping and residence. The projected estimates are for construction of recreation facilities which include: 80-unit campground, group camp for 75 persons, boat launching ramp, floating boathouse, utilities, signs, roads, and parking for cars and trailers.							
Tree planting and maintenance	47,620[C]	49,550[C]	–	30,000[C]			
Approximately 5,675 trees have been planted in a three-phase program to provide shade and wind protection at proposed recreation areas around the reservoir.							
Los Banos Creek Reservoir Area	–	–	–	–	318,860[C]	409,890[C]	
Federal funds[h]	–	–	–	–	260,890[F]	335,360[F]	
The projected estimate provides for the construction of access roads, utilities, boat launching and parking facilities, picnic units, and tree planting.							
San Luis Canal	–	–	–	–	–	–	220,000[C]
Federal funds[h]	–	–	–	–	–	–	180,000[F]
The projected estimates provide for construction of riding and hiking facilities.							
Medeiros Area	–	–	–	–	175,000[C]		
The projected estimate provides for boat launching ramps, parking, sanitary facilities, and utilities.							
San Mateo Coast State Beaches	83,843[C] –516,051[L]	1,212,828[L]	–	267,300[C]	400,000[C]	250,000[C]	525,000[C]
The past year amounts provide for continuing development. The projected estimates provide for continuing development of Dunes Beach consisting of construction of parking area, additional picnic units, access ramps, and landscaping; and for completion of the Francis Beach development, construction of residence and service areas, park office and lifeguard center at Dunes Beach; Bean Hollow development consisting of parking and picnicking; San Gregorio development consisting of parking, picnic sites, highway underpass, beach access ramps, and the first phase of Pescadero Beach development consisting of parking, picnic sites, highway underpass; Pomponio Beach development.							
San Simeon State Beach	22,210[L]	550,577[L]	–	–	–	–	850,000[C]
The projected estimate provides for the construction of an entrance road and additional camp units.							
Santa Cruz Coast State Beaches	4,343[L]	868,365[L]					
Twin Lakes Beach	–	–	–	114,700[C]			
This project provides for the construction of sanitary facilities and dressing rooms.							
Santa Monica State Beach	–	–	–	300,000[C]			
The projected estimate provides for bay dredging and beach improvement.							
Seacliff State Beach	–12,407[L]	12,407[L]	–	–	–	500,000[C]	
The projected estimate is for completion of the main area parking and construction of parking and sanitary facilities for the Rio del Mar area.							
Shasta State Historical Monument	–	–	–	217,600[C]	–	–	230,000[C]
This project is for the second and final stage of reconstruction of the Litsch Store and Whaley Brewery, the construction of a museum, restoration of the courthouse and displays for both buildings.							

For the list of standard (lettered) footnotes, see the end of the Capital Outlay section of the budget.

[1] Project proposed pursuant to the Davis-Dolwig Act.

DEPARTMENT OF PARKS AND RECREATION—Continued

PARKS AND RECREATION ACQUISITION AND DEVELOPMENT PROGRAM EXPENDITURES	ACTUAL 1965–66	ESTIMATED 1966–67	PROPOSED 1967–68	PROJECTED 1968–69	PROJECTED 1969–70	PROJECTED 1970–71	PROJECTED 1971–72
Division of Beaches and Parks—Continued							
MAJOR PROJECTS—Continued							
Silver Strand State Beach This project is to provide areas for shrub and tree planting, plus the installation of an irrigation system to service these planted areas. The 1971-72 estimate provides for planning and redevelopment of the bay side.	–	–	–	$223,000 C	–	–	$150,000 C
Smithe Redwoods State Reserve This project is for initial development which includes a 24-car parking area, replacement of the existing comfort station, utilities, trails, and interpretive services.	$4,212 L	–	–	59,700 C			
Sonoma Coast State Beach The past amount provides for continuing development. The projected amount is for the construction of 50 camp units, 50 picnic units, 225-car beach parking, roads, landscaping, utilities, comfort and sanitary facilities.	378,980 C	–	–	484,266 C			
Sonoma State Historic Park This project is for Phase II restoration of the Sonoma Barracks Building, and to provide for continuing the historic building restoration generally.	–	–	–	98,700 C	–	$100,000 C	
Squaw Valley State Recreation Area							
Speed skating oval This project is for grading, paving, and landscaping of a new parking area, which the State is legally required to develop.	5,500 C	–	–	139,600 C			
Blythe Arena Area This project is for construction of two islands in the parking area. Landscaping, irrigation, and paving will be provided.	–	–	–	72,200 C			
Statewide							
DEFERRED MAINTENANCE These amounts provide for deferred maintenance on State park facilities. This includes repairs to public use facilities that have suffered physical depreciation beyond the reach of normal maintenance.	–	$902,577 C	–	884,322 C	$1,000,000 C		
PLANNING, ACQUISITION AND DEVELOPMENT These funds are to be used for essential planning, opportunity purchases, and development necessary to meet the minimal needs of the State Park System.	–	–	$1,000,000 P C L				
IMMEDIATE PUBLIC USE FACILITIES This project is for the immediate construction of temporary public use facilities which will allow for interim use of newly acquired park units during the time necessary for planning, budgeting, and constructing permanent facilities.	–	900,000 C	–	460,450 C	450,000 C		
RESERVOIR RECREATION DEVELOPMENT PLANNING—STATE WATER FACILTIES [1] The projected estimates provide for continuation of preliminary and development planning for state water project recreational facilities pursuant to the provisions of the Davis-Dolwig Act.	18,883 C	237,501 C	–	322,244 C	338,250 C	354,250 C	370,250 C
RIDERS' AND HIKERS' TRAILS	–148 C	315 C	–	–	300,000 C	300,000 C	300,000 C

Throughout the year various parcels of land which are critical to the State Park System become aavilable at favorable prices. This item provides funds to take advantage of these opportunities.

STATE BOND PROJECTS							
Project Planning:							
State Beach, Park, Recreational, and Historical Facilities Fund [g]	179,976 [L]	175,918 [L]	137,541 [C]				
General Fund	−46,733 [L]						
Land Acquisition:							
State Beach, Park, Recreational, and Historical Facilities Fund [g]	–	59,037,500 [L] [2]					
Augmentations:							
State Beach, Park, Recreational, and Historical Facilities Fund [g]	–	7,495,000 [L]					
Acquisition Costs:							
State Beach, Park, Recreational, and Historical Facilities Fund [g]	–	803,597 [L]					
The current year amount represents anticipated expenditures for the acquisition phase of the program.							
Ano Nuevo State Reserve—expansion	–	–	–	–	400,000 [C]	200,000 [C]	200,000 [C]
State Beach, Park, Recreational, and Historical Facilities Fund [g]	–	X [L]					
The funded acquisition project provides for approximately a 400-acre acquisition for additional upland for recreation development and beach area and to fully interpret the unique seal and sea lion breeding grounds on Ano Nuevo Island. Projected estimates will provide 150-car parking area, 50 picnic units with appropriate utilities, restrooms, and new entrance road.							
Bolso Chica State Beach—expansion	–	–	–	–	250,000 [C]	250,000 [C]	250,000 [C]
State Beach, Park, Recreational, and Historical Facilities Fund [g]	–	X [L]					
The funded acquisition project provides for approximately 39 acres of beach and upland area to be added to the existing state unit. This project is within 30 miles of the principal user demand area—a major metropolitan area in the Southern California region. Projected estimates are for beach parking, lifeguard facilities, picnicking, concession development, and service area.							
Calaveras Big Trees State Park—expansion	–	–	–	–	200,000 [C]	–	200,000 [C]
State Beach, Park, Recreational, and Historical Facilities Fund [g]	–	X [L]					
This project provides for approximately 1,734 acres of high, multiple use, recreational lands, in the Beaver Creek drainage. This will provide additional public use facilities in an area that has an extremely short supply and will provide a fire protection zone for the resources within the North and South Calaveras Groves. Projected estimates are for access, camping facilities, and trails.							
Camp Pendleton-San Onofre Project:							
State Beach, Park, Recreational, and Historical Facilities Fund [g]	–	X [L]					
This project contemplated the acquisition of beach and upland at San Onofre by lease from the federal government. The site is a part of the Camp Pendleton Marine training unit. Due to present world conditions, negotiations on the lease have been suspended.							

For the list of standard (lettered) footnotes, see the end of the Capital Outlay section of the budget.

[1] Project proposed pursuant to the Davis-Dolwig Act.

[2] Includes $1,000,000 of federal matching funds appropriated from State Beach, Park, Recreational, and Historical Facilities Fund for the Pepperwood Grove, Humboldt Redwoods State Park.

X Expenditures for bond program acquisition included in totals shown on page 323.

PARKS AND RECREATION ACQUISITION AND DEVELOPMENT PROGRAM EXPENDITURES	ACTUAL 1965–66	ESTIMATED 1966–67	PROPOSED 1967–68	PROJECTED 1968–69	PROJECTED 1969–70	PROJECTED 1970–71	PROJECTED 1971–72
Division of Beaches and Parks—Continued							
MAJOR PROJECTS—Continued							
Statewide—Continued							
STATE BOND PROJECTS—Continued							
Cima Dome Project	–	–	–	–	$200,000 [C]	$100,000 [C]	$100,000 [C]
State Beach, Park, Recreational, and Historical Facilities Fund [g]	–	X [L]					
The funded acquisition project provides for a large desert recreation complex which will help satisfy the demand for desert associated recreation. This demand is generated mainly in the Los Angeles Metropolitan area. The State Park System is deficient in this type of recreation area. Projected estimates will provide for camping, picnicking, trails, access, and service facilities.							
Coyote River Parkway Project:							
State Beach, Park, Recreational, and Historical Facilities Fund [g]	–	X [L]					
The funded acquisition project provides for a portion of the acquisition of a 17-mile-long river complex, multiple use recreation area which serves the San Jose-San Francisco Metropolitan areas. A critical need to be met in this project is the en route camping for the intrastate and the interstate traveler. The City of San Jose and County of Santa Clara will share in the acquisition and provide the development funds for this project.							
Delta Meadows Project	–	–	–	–	1,550,000 [C]		
State Beach, Park, Recreational, and Historical Facilities Fund [g]	$5,349 [L]	$100,000 [W] X [L]					
The funded acquisition project will provide 1,265 acres of an outstanding example of original delta landscape including 14 miles of waterways. Public use facilities proposed are: 245 camp units, 210 picnic units, 280 additional parking spaces, 1.5 miles of nature trails and 9 miles of bicycle and hiking trails. The current year development funds will be used for working drawings for a 170-unit boat campground, docks, comfort stations, and related facilities.							
Fort Funston	–	–	–	–	$50,000 [C]	$50,000 [C]	$50,000 [C]
State Beach, Park, Recreational, and Historical Facilities Fund [g]	–	X [L]					
This funded acquisition project provides for this valuable beach property to be obtained by the City of San Francisco from the Federal Government as a holding agent for the State of California. The amount to be paid for this property is half the appraised value and represents an economical purchase on the part of the state. Projected estimates are for area cleanup, historic restoration, parking, trails, and picnic facilities.							
Gaviota-Refugio Complex—expansion	–	–	–	–	500,000 [C]	500,000 [C]	500,000 [C]
State Beach, Park, Recreational, and Historical Facilities Fund [g]	–	X [L]					
The project provides for a coordinated acquisition plan at the Gaviota-Refugio State Beach area.							
Huntington State Beach—Additions:							
State Beach, Park, Recreational, and Historical Facilities Fund [g]	2,194 [L]	X [L]					
The funded acquisition program will provide for fuller utilization of the existing beach area by adding criti-							

cally needed upland upon which to develop parking the beach capacity by approximately 10,000 persons.							
MacKerricher State Park—expansion	–	–	–	–	50,000 [c]		
State Beach, Park, Recreational, and Historical Facilities Fund [g]	–	X [L]					
The funded acquisition will provide for an extremely important 10-acre inholding within the park. Besides removing a particularly annoying operational problem, this land will be developed for picnicking with hiking trails.							
Malibu Lagoon State Beach—additions:							
State Beach, Park, Recreational, and Historical Facilities Fund [g]	26,471 [L]	X [L]					
The funded acquisition project will complete the acquisition at this unit by joining the 2 existing parcels into 1 continuous unit. 11.6 acres will be acquired which has 1,090 lineal feet of ocean frontage. Facilities to be placed on the property by the County of Los Angeles are a 330 car parking area and a 20 unit picnic area.							
Marin Headlands State Park—additions	–	–	–	–	200,000 [c]		
State Beach, Park, Recreational, and Historical Facilities Fund [g]	1,653 [L] –	15,000 [w] X [L]					
The funded acquisition project will provide for an addition of 320 acres to the present park. This acquisition is made possible through the Federal Surplus Property program and the surplus property falls within the master plan of acquisition of Marin Headlands State Park. An application with the federal government has been filed for the state by Property Acquisition Service, Department of General Services.							
Mitchell Caverns State Reserve—expansion	–	–	–	–	50,000 [c]	50,000 [c]	50,000 [c]
State Beach, Park, Recreational, and Historical Facilities Fund [g]	–	X [L]					
The funded acquisition project provides for 6,400 acres of extremely scenic and usable "high desert" land in the Providence Mountains. Projected estimates are for camping sites, trails, a service facility, and stabilization of the caverns.							
Montana de Oro State Park—expansion	–	–	–	–	1,000,000 [c]	50,000 [c]	50,000 [c]
State Beach, Park, Recreational, and Historical Facilities Fund [g]	–	X [L]					
The funded acquisition provides for the last 1,700 acres needed to complete this park as outlined in the master plan. The area to be acquired has an extremely good recreation potential and will also provide a land link with Morro Bay State Park. Projected development includes camping, picnicking, parking, lifeguard facilities and trails.							
Montgomery Woods State Reserve—expansion	–	–	–	–	200,000 [c]	–	100,000 [c]
State Beach, Park, Recreational, and Historical Facilities Fund [g]	–	X [L]					
The funded acquisition provides for a proper and safe access into the existing reserve. It will also provide for multiple use recreation facilities and will make a complete operational unit of the existing park area. Projected estimates are to provide parking and picnicking facilities and campsites.							
Mount Tamalpais State Park—expansion	–	–	–	–	500,000 [c]	300,000 [c]	100,000
State Beach, Park, Recreational, and Historical Facilities Fund [g]	–	X [L]					
The funded acquisition provides for needed recreation land brought about by the demand pressures generated within the San Francisco Bay Metropolitan Area. Projected estimates are for camping and picnicking facilities, parking, service area and access.							

For the list of standard (lettered) footnotes, see the end of the Capital Outlay section of the budget.

X Expenditures for bond program acquisition included in totals shown on page 323.

DEPARTMENT OF PARKS AND RECREATION—Continued

PARKS AND RECREATION ACQUISITION AND DEVELOPMENT PROGRAM EXPENDITURES	ACTUAL 1965–66	ESTIMATED 1966–67	PROPOSED 1967–68	PROJECTED 1968–69	PROJECTED 1969–70	PROJECTED 1970–71	PROJECTED 1971–72
Division of Beaches and Parks—Continued							
MAJOR PROJECTS—Continued							
Statewide—Continued							
STATE BOND PROJECTS—Continued							
Old River Island Project	–	–	–	–	$500,000 [c]	$500,000 [c]	$250,000 [c]
State Beach, Park, Recreational, and Historical Facilities Fund [g]	–	X [L]					
The funded acquistion provides for a river-oriented recreation area in a part of the state where existing facilities are lacking and where the need is high. The 980 acres of land and 9 miles of waterways will provide an exceptional amount of multiple use recreation for the citizens of the state. The projected estimates will provide for camping, picnicking, parking, boat ramps, trails, and a service facility.							
Old Sacramento State Historic Park Project	–	–	–	–	500,000 [c]	500,000 [c]	500,000 [c]
State Beach, Park, Recreational, and Historical Facilities Fund [g]	–	X [L]					
Motor Vehicle Transportation Tax Fund	$64,702 [L]	$435,298 [L]	–				
This project provides for the preservation, rehabilitation and reconstruction of buildings within the historic area of Sacramento that are of historic importance. The number and condition of the existing buildings affords an unusual opportunity of establishing an authentic historic scene. First phase restoration includes reconstruction of the Big Four Building, restoration of the Dingley Spice Mill, demolition of buildings, outdoor plaza with exhibits, restrooms and parking.							
Pepperwood Project—Humboldt Redwoods State Park	–	–	–	–	50,000 [c]	50,000 [c]	50,000 [c]
State Beach, Park, Recreational, and Historical Facilities Fund [g]	–	X [L]					
The funded acquisition project provides for approximately 1,000 acres of land in the Pepperwood area. The Save-the-Redwoods League has pledged to aid the state on a matching basis in this project. A considerable amount of public use facilities can be placed upon the lands to be purchased. The projected estimates are for camping and picnicking areas and public access.							
Pfieffer Big Sur State Park—Additions:							
State Beach, Park, Recreational and Historical Facilities Fund [g]	11,897 [L]	X [L]					
The funded acquisition project will provide for an addition of 2,140.3 acres to the existing park. This will provide 400 additional camp units, 290 picnic units, 5 group camps and room for a large concessions area. Besides the upland area with its 2.5 miles of stream, 3 miles of ocean shoreline will be acquired by this project.							
Picacho State Recreation Area—expansion	–	–	–	–	$200,000 [c]	$200,000 [c]	$200,000 [c]
State Beach, Park, Recreational and Historical Facilities Fund [g]	–	X [L]					
The funded acquisition project provides for 12,162 acres of prime recreation land bordering on the Colorado River. This area extends 3 miles along the river and affords exceptional opportunities for multiple-use recreation in an area where the demand is high and the supply is low. The projected work will provide the necessary camping, picnicking, parking, and access.							
Point Mugu Project	–	246,550 [c]	–	–	2,200,000 [c]	–	800,000 [c]
State Beach, Park, Recreational and Historical Facilities Fund [g]	23,651 [L]	X [L]					

The funded acquisition project will provide upland recreation acres to be acquired. 22,000 lineal feet of ocean shoreline will also be acquired. At maximum development there will be 2,330 camp units, 800 picnic units, and beach parking for 3,000 cars. Funded initial development will provide 450 campsites, 300 picnic units and related facilities. The projected work will provide additional facilities.							
Prairie Creek Redwoods State Park—Additions	–	–	–	$300,000 [C]	300,000 [C]		
State Beach, Park, Recreational, and Historical Facilities Fund [g]	1,028,005 [L]	27,000 [W]					
The acquisition of this project provided for the famed Gold Bluffs as an addition to this state park. The facilities that can be placed on this 2,100 acres of land includes 60 camp units, 90 picnic units, 150 additional parking spaces, 12 miles of trail, and an interpretive center. Four and one-half miles of ocean shoreline were included in this acquisition. Public funds will be matched on a 50-50 basis from private sources. The projected estimates will provide for the construction of 25 picnic units, 75-car parking area, roads, and utilities.							
Red Bluff Diversion Dam Project:							
State Beach, Park, Recreational, and Historical Facilities Fund [g]	–	X [L]					
This project has been included under the provisions of the bond act in order that it may qualify for bond act development funds. There is no cost for acquisition for this project. It will be acquired from the federal government. Initial development will be placed in the project by the Bureau of Reclamation.							
San Diego "Old Town":							
State Beach, Park, Recreational, and Historical Facilities Fund [g]	–	X [L]					
This funded acquisition project provides for the purchase of approximately 19.2 acres of land together with existing buildings within the City of San Diego. This area is representative of the Mexican-American transition in American history. The City and County of San Diego will participate in the development of this project as a typical town of this early California period.							
Santa Monica Mountains Project	–	–	–	–	700,000 [C]	–	500,000 [C]
State Beach, Park, Recreational, and Historical Facilities Fund [g]	–	X [L]					
The funded acquisition project provides for approximately 1,450 acres of land on the western boundary of the City of Los Angeles. It will provide open space and recreation facilities for the public in this region.							
Sugar Pine Point State Park	–	74,350 [C]	–	–	225,000 [C]	225,000 [C]	225,000 [C]
State Beach, Park, Recreational, and Historical Facilities Fund [g]	8,335,313 [L]	933,400 [C]					
The acquisition of this project provided for a park of 1,975 acres and 7,700 feet of shoreline along Lake Tahoe. Public facilities planned for this area include 1,200 camp units, 500 picnic units, 10 group camps and a 300-car beach parking area. The funded initial development will provide 100 camp sites, 100 picnic units and related facilities.							
Topanga Canyon Beach Project	–	–	–	335,000 [C]	–	500,000 [C]	500,000 [C]
State Beach, Park, Recreational, and Historical Facilities Fund [g]	5,370 [L]	X [L]					
The funded acquisition project will provide for the purchase of 178 acres of beach land to be used for public recreation purposes. The 5,580 feet of prime swimming beach connects with Will Rogers State Beach to make continuous public beach recreation area of major proportions. The projected program provides for demolition of buildings and construction of parking areas.							

For the list of standard (lettered) footnotes, see the end of the **Capital Outlay section of the budget.**

CALIFORNIA WATER DEVELOPMENT PROGRAM

The Capital Outlay Budget presents a summary of expenditures for the California Water Development Program and special projects. A general explanation of the state projects under the California Water Development Program is presented in the Support Budget beginning on page 712 with a description of the significant units of each project as well as detailed expenditure information.

CALIFORNIA WATER FACILITIES AND SPECIAL PROJECTS

The major portion of the California Water Development Program involves design, right-of-way acquisition, and construction for the following major features of the State Water Project:

1. Upper Feather River Basin reservoirs.
2. Oroville Dam and related facilities.
3. Delta Water Facilities, which will provide for transporting water around the Delta to the state and federal pumping plants in the southern Delta.
4. North Bay Aqueduct, which will serve Napa and Sonoma Counties.
5. South Bay Aqueduct, which will serve Alameda and Santa Clara Counties.
6. California Aqueduct, which serves the areas from the Sacramento-San Joaquin Delta to southern California. Near the midpoint between the Delta and the Tehachapi Pumping Plant is the joint federal-state San Luis Dam and Reservoir.

   The Tehachapi Crossing will convey water from the valley floor to the south side of the Tehachapi Mountains and into the Tehachapi Afterbay to Castaic Reservoir located near the town of Castaic.

   The Mojave Division and the Santa Ana facilities will transport water from the Tehachapi Afterbay to Perris Reservoir which is located in Riverside County.

   The Coastal Branch conveys water from the California Aqueduct near Avenal to a terminus near the town of Santa Maria.
7. The San Joaquin Master Drain, which provides for the discharge of waste water from the San Joaquin Valley.
8. The Nuclear Powerplant which will provide for the production of electrical energy to assist in meeting the pumping requirements of the State Water Project.

Other expenditures under the California Water Development Program relate to advanced planning for authorized projects, including operation studies, the operation and maintenance of existing facilities, and the loan and grant program under the Davis-Grunsky Act.

MAJOR PROJECTS[1]

[1] Fund identification is shown only for total expenditures.

[2] A nongovernmental cost fund. Receipts and expenditures are excluded from overall budget totals.

[3] A nongovernmental cost fund. Receipts and expenditures are excluded from the overall budget totals. All deficits are due to the accrual method of accounting and the timing of bond sales. There is sufficient cash for immediate disbursement requirements. The additions and deductions to fund balance agree in total with the State Controller's Statement of Operations. Any variance in classification is for budgetary purposes only.

[4] This adjustment represents the net increase in fixed assets and prior year expenditure adjustments which, prior to this date, were not reflected in the Fund Condition Statement.

---

[3] A nongovernmental cost fund. Receipts and expenditures are excluded from the overall budget totals. All deficits are due to the accrual method of accounting and the timing of bond sales. There is sufficient cash for immediate disbursement requirements. The additions and deductions to fund balance agree in total with the State Controller's Statement of Operations. Any variance in classification is for budgetary purposes only.

[4] This adjustment represents the net increase in fixed assets and prior year expenditure adjustments which, prior to this date, were not reflected in the Fund Condition Statement.

[5] Accumulated amounts of interest charged to construction and depreciation have been eliminated in the 1966–67 fiscal year to reflect a change in accounting procedure.

[6] Repayment to the General Fund of amounts expended for studies related to the Central Valley Project. Appropriations were made by Chapter 12, Statutes of 1935; Item 262, Chapter 3, Statutes of 1952; Item 253, Chapter 971, Statutes of 1953 and Item 249, Chapter 1, Statutes of 1954 and which provided for repayment of expenditures plus interest from the first sale of Central Valley Project Revenue Bonds.

RONALD REAGAN

Governor

to the

CALIFORNIA LEGISLATURE

1967 Regular Session

Titles, Ranges, Merit Adjustments
Authorized Positions

1—L-1569

Salaries and Wages

INTRODUCTION

Presented in this supplement to the budget document proper are the complete and detailed data on approved staffing for all state agencies. This information has been published in a separate volume to (1) reduce the quantity of detail in the budget document and thereby focus attention on the programs and activities of the several state agencies; (2) simplify the mechanics of budget preparation and printing; and (3) consolidate information on number and classification of positions, pay rates, and salary and wage expenditures.

For each state agency the information is reported for the 1965–66 fiscal year on an actual basis and for 1966–67 and 1967–68 on an authorized basis. A more thorough explanation of the content and interpretation of this supplement is given below and on the immediately following pages.

Position Titles

In this volume, positions encompassed by state civil service have been listed by the official class titles as established by the Personnel Board. Positions exempt from civil service have been listed by the official class titles established by (1) statute, (2) The Regents of the University of California, (3) The Trustees of the California State Colleges, or (4) such other authority as may have been designated by law.

Authorized Positions

For the 1966–67 and 1967–68 fiscal years, positions reported as *authorized* are those which were included in the 1966–67 Budget as approved by the Legislature. Exceptions to this rule are explained by footnote in all cases other than technical adjustments of position classification to more accurately reflect assigned duties.

In some instances, certain classes have been combined to provide replacement of positions at a higher level either (a) upon completion of a training period or (b) after temporary downward classification for recruiting purposes. Such positions are indicated by showing both class titles on the same line, with a salary range of the minimum salary of the lower class and the maximum of the higher class. Examples: (a) administrative trainee-junior staff analyst, $530–711, (b) junior-intermediate clerk, $326–458.

Expenditures

Estimated salary payments for each group of like positions are reported for the 1966–67 and 1967–68 fiscal years. These estimates represent salary costs on the basis of continuous, 100 percent occupancy of all authorized positions and include the cost of merit salary adjustments where applicable. Exceptions are explained by footnote for those special cases in which the above general rule was not followed. Appropriate adjustments to recognize probable position vacancies are included in the budget document as *estimated salary savings*. For the 1965–66 fiscal year *actual* salary expenditures are reported for each budget function.

Number of Positions

For the 1965–66 fiscal year, the number of positions represents actual man-years (A man-year is equal to 12 months full-time employment of one person—12 persons employed for one month, two persons employed for six months, or any similar combination equal one man-year.) of employment expressed in terms of full-time, full-year equivalents counted to the nearest tenth of a man-year.

Positions for 1966–67 and 1967–68 are counted to the nearest tenth of authorized jobs expressed in terms of full-time, full-year equivalents. The only exception is in the case of positions to be established after July 1. In such instances, the positions are counted without adjustment for delayed establishment, e.g., a full-time position to be established January 1 is counted as 1.0 position, not as 0.5 position.

As in the case of expenditures, appropriate adjustments are included in the budget document to reduce authorized positions for 1966–67 and 1967–68 to anticipated available manpower.

Salary Range

Rates of pay listed under this heading represent salary ranges established by (1) the State Personnel Board for civil service, Disaster Office interim merit system, and Maritime Academy classifications; (2) the appointing authority with the approval of the Director of Finance for Non-Civil Service positions; (3) statute; (4) The Regents of the University of California; (5) The Trustees of the California State Colleges (6) the Board of Directors of the Hastings College of the Law; or (7) San Francisco Port Authority (Crafts and Trade).

The amounts shown are the (1) minimum and maximum monthly or hourly rates, (2) flat monthly rate, or (3) annual compensation as indicated. The minimum of the range serves as the normal entrance rate for new appointees to any position in a class and represents the lowest rate to be paid to any employee who is considered qualified for appointment to or retention in a position. The maximum of the range represents the highest rate payable to an employee who occupies any position in the class.

Under the pay plan adopted by the State Personnel Board, the intermediate steps in each salary range have been fixed at a uniform percentage interval of 5 percent. This plan is used also for most salaries fixed for exempt positions. A table of salary ranges in the state service is included at the end of this section. Thus, $310–377 indicates a monthly salary range having steps of $310–$326–$342–$359–$377. Salary ranges for instructional positions in the state colleges and in other state agencies are set forth on pages 4 and 6.

Salary ranges for academic positions in the University of California are set forth on page 5.

Salary Schedules for Instructional Positions—Other Than Higher Education

(Ranges and Criteria of Application for Teachers)

Range	Steps				
A	$614	$644	$677	$711	$746
B	644	677	711	746	783
C	677	711	746	783	823
D	711	746	783	823	863
E	746	783	823	863	906
F	783	823	863	906	951

CRITERIA FOR RANGE DETERMINATION	ACADEMIC (Preparation)	VOCATIONAL (Preparation)
Range A	Provisional or special credential, without bachelor's degree.	—
Range B	Bachelor's degree or regular elementary, junior high, or kindergarten-primary credential.	—
Range C	Bachelor's degree or regular elementary, junior high, or kindergarten-primary credentials; plus 12 upper division or graduate units which were not counted toward degree or which were taken subsequent to obtaining credential.	Three years experience as journeyman craftsman.
Range D	Bachelor's degree or regular elementary, junior high, or kindergarten-primary credential; plus 24 upper division or graduate units which were not counted toward degree or which were taken subsequent to obtaining credential. Or regular general secondary credential.	Qualification for special secondary Vocational Class A Credential in T and I and PS Education.
Ranges E and F	Used only for "incentive increases" when a teacher receiving less than Range F completes at least 6 units in college level courses approved by his department and taken after appointment. He shall then be entitled to advance to the corresponding step in the next higher salary range for the class, and such an advance shall be known as an "incentive increase."

Library assistant I	5,232	5,496	5,772	6,060	6,360	–	–

Merit Salary Adjustments

Subject to availability of funds, Section 18854 of the Government Code provides that each employee in the civil service receive a merit salary increase of one intermediate step in his salary range during each year in a position provided the employing agency certifies to the Personnel Board that the employee's job performance meets the level of quality and quantity expected by the agency considering the employee's experience in the position.

Special In-grade Salary Adjustments

The following classes falling within prescribed ranges are eligible for special in-grade salary adjustments that is from the first step to the second step of a salary range at the end of 6 or 3 monthly pay periods, unless excluded by a Board Resolution at the time the specific classification action was taken:

1. All classes with a maximum of $447 or lower.
2. Classes with a maximum of $458 to and including $632 or classes substantially equivalent to those with a maximum $632, if recruitment is from outside state service.
3. Classes with a maximum of $644 to and including $746, or classes substantially equivalent to those with a maximum $746, as designated by the Executive Officer, when recruitment is from outside state service and the state has experienced recruitment difficulties.

a. Classes with maximums higher than $746 are not eligible except as classes may be determined to be substantially equivalent to those with a maximum of $746.

Except for employees of the University of California, provision for the salary adjustments to which present employees will become entitled during the balance of the current year and in the budget year has been included in the amounts shown opposite each position or group of like positions. Inasmuch as turnover of personnel generally results in replacement at a lower step in the salary range, the amount included for salary adjustments has been offset by a lump sum deduction for downward adjustments included in the deduction for *estimated salary savings.*

Similar amounts for salary adjustments have been provided for exempt positions, where requested by the agency. Such adjustments have been computed in accordance with the salary schedule in effect for the respective positions.

Merit salary adjustments for employees of the University of California and the State Colleges are determined in accordance with rules established by the Regents and the Trustees, respectively.

Salary Range Adjustments

In determining the appropriate salary level for a class, a number of factors are taken into consideration by the State Personnel Board:

1. Rates of pay of private employers and of other public jurisdictions for comparable work.
2. Internal consistency of rates; equal pay for equal work, and pay differentials based on differences in the kind, difficulty, or responsibility of the work.
3. Conditions of work in the class.
4. The adequacy of existing appropriations which may be used for salary increase purposes.

The rates of pay of casually employed trades workers and printing trade employees in the state service are established at the hourly wage rates negotiated by unions with private employers in the county in which they are employed. These employees receive all the collateral benefits of premium pay for night work, travel time, and overtime pay provided by private industry. For these two groups, the state also pays the full cost of hospital, surgical and medical insurance benefits for both the employees and their dependents, where such health and welfare benefits are provided by private employers.

Casually employed trades workers working for the state do not receive the same benefits of vacation, sick leave and retirement that permanent state employees receive. However, the state does pay into vacation and retirement funds where such benefits are the prevailing practice in private industry.

Printing trades employees receive all of the benefits enjoyed by other state employees with one exception. Other state employees receive an average of 11 holidays a year. Printing trades employees are provided the 8 paid holidays received by their counterparts in private industry.

The salary ranges reported herein are those which had been approved by the appropriate salary fixing authority on or before July 1, 1966. Salaries fixed by statute are those established by Chapter 145, 1964 (First Extraordinary Session). These latter salary rates became effective August 22, 1964.

Section 12, Article V of the Constitution prohibits a change in the salaries of the Governor, the Lieutenant Governor, the State Controller, Secretary of State, Superintendent of Public Instruction and the State Treasurer during their current term in office. Changes in salary of these officers in accordance with the provisions of the above cited legislation will become effective in January 2, 1967 concurrently with the beginning of the new term of office.

---

[a] One architectural assistant, 1 architectural senior, 1 assistant mechanical engineer and 1 intermediate stenographer transferred from Architectural and Engineering Services to reflect workload changes.

[b] One intermediate typist-clerk transferred from Construction Services to reflect workload change.

[c] Two structural engineering associate positions transferred from Construction Services to reflect workload change. One assigned to each structural engineering group.

[d] Three technical inspector positions transferred from temporary help to permanent status due to recruitment problems.

---

[a] Section 22, Article V of the Constitution prohibits change in compensation of several constitutional officers during their term in office. Salary increases to $25,000 effective January 1967, concurrent with beginning of new term of office to reflect increases authorized in Chapter 145, Statutes of 1964, 1st Extraordinary Session.

[b] Item 317, Budget Act of 1966, authorizes 2 new positions.

[c] Chapter 1786, Statutes of 1963 transfers the Central Records Depository to the Department of General Services effective January 1967.
